Libby/Libby/Short wrote this text based on their belief that the subject of financial accounting is inherently interesting, but financial accounting textbooks are often not. They believe most financial accounting textbooks fail to demonstrate that accounting is an exciting field of study and one that is important to future careers in business. When writing this text, they considered career relevance as their guide when selecting material, and the need to engage the student as their guide to style, pedagogy, and design. Libby/Libby/Short is the only financial accounting text to successfully implement a real-world, single focus company approach in every chapter. Students and instructors have responded very favorably to the use of focus companies and the real-world financial statements. The companies chosen are engaging and the decision-making focus shows the relevance of financial accounting regardless of whether or not the student has chosen to major in accounting. Offering both technical and interpretative content, this is the only truly balanced financial accounting textbook to provide students not only with the 'how' and 'why' of financial information, but also guidance on what this means in practice. The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a

strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization. Financial Accounting & Reporting is the book that helps students and professionals succeed in their studies and the workplace by providing practical support and clear principles for applying international standards and preparing financial statements. MyLab Accounting is not included. Students, if MyLab Accounting is a recommended/mandatory component of the course, please ask your instructor for the correct ISBN and course ID. MyLab Accounting should only be purchased when required by an instructor. Instructors, contact your Pearson representative for more information. Close the gap between homework and exam performance with Warren/Reeve/Duchac's FINANCIAL ACCOUNTING 14E! Market-leading FINANCIAL ACCOUNTING has been on the forefront of innovation and change based on the needs of today's teaching and learning environment. Warren/Reeve/Duchac's FINANCIAL ACCOUNTING 14e helps elevate student thinking with content that addresses each stage of the learning process from motivation to mastery. It motivates students to learn, provides practice opportunities to better prepare for exams, and helps students achieve mastery with tools to

help them make connections and see the big picture. The Complete Learning System in FINANCIAL ACCOUNTING is built around the way students use textbooks to learn, study and complete homework, allowing them to achieve ultimate success in this course. The most significant changes for this edition involve the inclusion of the new revenue recognition standard. The end goal of Warren/Reeve/Duchac's FINANCIAL ACCOUNTING learning system is to elevate thinking and create more empowered and prepared students--ready to take on the rest of their educational and career goals. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Management Accounting has two broad branches Financial Accounting and Cost Accounting. This book covers the first aspect of Management Accounting. Financial Accounting A Managerial Emphasis seeks to delve deep into all the aspects of Financial Accounting from a manager's perspective. The objective is to present the concepts, applications and practices of Financial Accounting in such a manner that even those readers having no prior exposure to the subject can understand its theory and practice. A manager is more interested in understanding various elements in financial statements and thereby being able to analyze and interpret the financial health of a business entity on the basis of financial statements. This apart, readers will also become thoroughly acquainted with the financial disclosure practices followed in India. The highlights of the book are discussions on: 1 Accounting Standards in India 1 Understanding Published Financial Statements

Reimers Financial Accounting 1/e. How Accounting is Driving Change in Business. Grounded in financial statements, Financial Accounting allows accountants to see not only the impact of financial transactions in financial statements, but also the impact of transactions on overall business decisions. The eighth edition offers new elements designed to sharpen Pratt's economic decision-making foundation with a more timely, real-world focus. Up-to-date, expanded, and detailed IFRS coverage is now included. The SEC 2014 roadmap is explored in all chapters. Comprehensive coverage of real-world financial crisis issues is presented. Accountants*

will also find more discussions on the increasing role of management's assessment of internal controls over financial reporting. *Corporate Financial Accounting and Reporting* is a comprehensive accounting textbook directed at those using financial reports. Its aim is to help current and future managers gain a thorough understanding of companies' published reports and is unique in the fact that it covers all three years of a traditional financial accounting course. The text is divided into 3 parts: the first covers the foundations of accounting, the second part considers the components of financial statements in more depth and the third part explores how investors analyse financial statements. Recognising the increasingly international nature of accounting, this book provides full coverage of international accounting standards with the European Union's Company Law Directives providing its legal framework. *Corporate Financial Accounting and Reporting* is designed for international MBA programmes and specialist postgraduate programmes in international business/finance in Europe. It can also be used in international business programmes at the undergraduate level. Grounded in financial statements, *Financial Accounting* allows accountants to see not only the impact of financial transactions in financial statements, but also the impact of transactions on overall business decisions. The eighth edition offers new elements designed to sharpen Pratt's economic decision-making foundation with a more timely, real-world focus. Up-to-date, expanded, and detailed IFRS coverage is now included. The SEC 2014 roadmap is explored in all

chapters. Comprehensive coverage of real-world financial crisis issues is presented. Accountants will also find more discussions on the increasing role of management's assessment of internal controls over financial reporting. Students are often overwhelmed by the amount of information presented in the introductory financial accounting course. By focusing on fundamental concepts in a logical sequence, students are able to fully comprehend the material rather than memorize seemingly unrelated terms and topics. The goal of *Fundamental Financial Accounting Concepts* is to enable students to understand how any given business event affects the financial statements. The "financial statements model" is a highly praised feature because it allows students to visualize the simultaneous impact of business events on all of the key financial statements (the income statement, the balance sheet, and the statement of cash flows).
