Excerpt from An Introduction to the History of Modern Europe The purpose of this volume is to view in their logical connection the chief groups of events which formed the groundwork of European history in the nineteenth century. Though historical in form, the book does not pretend to be a history, but aims only at presenting such a preliminary view of the immediate antecedents of modern civilization as will supply a sufficient basis for a comprehensive study of our age. To effect this object, it has been necessary to abandon the usual artifice of bringing all history under the head of politics, and to distribute the subject in the following manner. The introductory chapter endeavours to indicate as summarily as possible the evils of the monarchico-feudal system in the eighteenth century, and the ideas of reform which were generated by the contemporary intellectual movement. The second chapter reviews the work of the chief reforming monarchs and ministers, in order to exhibit the actual state of Europe in the latter part of the century, and to draw attention to the fact that monarchy by its good offices obtained over men's minds considerable influence, which survived the Revolution, and has played a prominent part in subsequent political history. The same chapter, however, shows how monarchy failed to meet all the urgent wants of

the time; and the next chapter gives an account of the causes which precipitated the Revolution. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works. An accessible history for anyone interested in discovering the alternative story of Modern Europe. This title was made Open Access by libraries from around the world through Knowledge Unlatched. Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy. 'a superb volume, complete with maps, and tells the story of a continent from the 18th century to the present day.' -Irish Times Insightful, provocative, and intellectually rewarding, this book offers an unparalleled perspective on the history of the continent. Available in both one-volume and two-volume paperback editions, A History of Modern Europe presents a panoramic survey of modern Europe from the Renaissance to the present day. A single author lends a unified approach and consistent style throughout, with an emphasis on the connections of events and people over time. The Third Edition, like the two before it, is authoritative and up-to-date. New to the Third Edition is the theme of empire. From the imperial rivalries between France and Spain in the sixteenth and seventeenth centuries, through the rise and fall of the Ottoman Turkish empire, and on into the imperial history of the twentieth century--decolonization, the spread of the Soviet empire, and the imperial power of the United States--the theme of empire helps students find commonalities among the events of European history. From the monarchical terror of the Middle Ages to the mangled Europe of the twenty-first century, A People's History of Modern Europe tracks the history of the continent through the deeds of those whom mainstream history tries to forget. Europe provided the perfect conditions for a great number of political revolutions from below. The German peasant wars of Thomas Muntzer, the bourgeois revolutions of the eighteenth century, the rise of the industrial worker in

England, the turbulent journey of the Russian Soviets, the role of the European working class throughout the Cold War, student protests in 1968 and through to the present day, when we continue to fight to forge an alternative to the barbaric economic system. With sections focusing on the role of women, this history sweeps away the tired platitudes of the privileged upon which our current understanding is based, and provides an opportunity to see our history differently. An A-Z of Modern Europe 1789-1999 is a comprehensive dictionary which defines modern Europe through its important events and people. It includes entries on: \* key people from Napoleon Bonaparte to Hitler \* key political and military events \* influential political, social, cultural and economic theories. An A-Z of Modern Europe 1789-1999 offers accessible and concise definitions of nearly 1000 separate items. The book is cross-referenced and thus provides associated links and connections while the appendices contain essential extra information. The book contains five helpful maps to guide the reader along. 'Early Modern' is a term applied to the period which falls between the end of the middle ages and the beginning of the nineteenth century. This book provides a comprehensive introduction to Europe in this period, exploring the changes and transitions involved in the move towards modernity. Nine newly commissioned chapters under the careful editorship of Euan Cameron cover social, political, economic, and cultural perspectives, all contributing to a full and vibrant picture of Europe during this time. The chapters are organized thematically, and consider the evolving European economy and society, the impact of new ideas on religion, and the emergence of modern political attitudes and techniques. The text is complemented with many illustrations throughout to give a feel of the changes in life beyond the raw historical data. The West - Europe and the USA - has kind of had its way with the world for a few centuries. Why else does everyone speak English, listen to hip-hop, and want to buy Mercedes? Starting with the Enlightenment, Europeans developed big ideas that have increased opportunities for people around the world and raised standards of living. But those same ideas have also produced wars, genocide, colonialism, and the potential for global environmental disaster. This book describes the origins and legacy of this mixed bag of ideas which includes everything from democracy and feminism to those old foes, communism and capitalism. After all, it's a bag which still shapes how most people on the planet look at things today. In a natural, funny and engaging style, So, About Modern Europe... expertly guides readers through the good, the bad and the indifferent of modern European history, convincingly arguing the need to 'tip the cap' to the Enlightenment and its influence along the way. Thoroughly updated best-selling textbook with new learning features. This acclaimed

textbook has unmatched breadth of coverage and a global perspective. A History of Modern Europe surveys European history from the defeat of Napoleon to the twenty-first century, presenting major historical themes in an authoritative and compelling narrative. Concise, readable single volume covering Europe from the early nineteenth century through the early twenty-first century Vigorous interpretation of events reflects a fresh, concise perspective on European history Clear and thought-provoking treatment of major historical themes Lively narrative reflects complexity of modern European history, but remains accessible to those unfamiliar with the field Students and instructors alike praise A History of Modern Europe for its authoritative coverage from the Renaissance to the present day. Written in Merriman's signature narrative style, the book is brightened with humor and biographical sketches. The Fourth Edition reflects the latest scholarship while placing special emphasis on the theme of war and society. A new full-color design features a completely redrawn map program and new pedagogical and teaching tools. This engaging collection of primary sources and selected fiction excerpts explores important events, figures, and themes in European history, from 1789 to the present. Modern Europe offers four types of selections: memoirs of individuals who witnessed important historical events; excerpts from works of fiction; writings of influential figures and theorists; and significant historical documents. Primary source selections acquaint students with the writings and documents that helped shape modern European history, while the fiction selections bring historical events to the level of human life. The selections explore significant themes of this time period- modernization, social and political movements,

the relationship between the individual and society-enhancing students' understanding of the historical events presented in course lectures and textbooks. Both challenging and captivating, Modern Europe provides students with a glimpse of the emotions, ideologies, and mindsets that lie behind the facts and figures of history, allowing them to experience the past and to better understand it. This work, the first of a two-volume set, covers the history of Europe since the Renaissance. It emphasizes not only cultural and social history, but also examines important political and diplomatic events. Reprint of the original, first published in 1864. From the fall of Constantinople in 1453 to the close of the Crimean war in 1857. In four volumes. Highlighting the most important events, ideas, and individuals that shaped modern Europe, this text provides a concise history of the continent from the Enlightenment to the present day, focusing on the causes and consequences of revolution; the origins and development of human rights and democracy, and issues of European identity and integration. For Students of B.A, M.A and also useful for competitive examinations
