Sas Operation Bulbasket Paul McCue,1990-12-31 The story of Operation Bulbasket is one of such tension and drama that any resume which revealed its outcome would rob the reader of the vital element of suspense Suffice it to say that on 6 June 1944 known to history as D Day two members of the SAS were dropped by parachute deep behind the lines in enemy occupied France Shortly to be Followed by others amounting in all to fifty five men their task was to disrupt in every way possible the movement of German troops to the north to repel the Allied invasion of Normandy Only now with the release of hitherto classified documents and thanks to a remarkable amount of painstaking research on Paul McCue s part can the full story of Operation Bulbasket be told The author has traced the surviving main participants and by their various but often contradictory accounts and much careful detective work has managed to piece together what really happened in those dramatic eight weeks after 6 June Indeed thanks to this book those survivors have only learned the full story which was hidden from them for over fifty years This has to be one of the most remarkable stories ever to be written about the Second World War

SAS Operation Bulbasket Paul McCue,1996 Famous today as Britain's premier special forces unit the Special Air Service had its origins in a series of hazardous and occasionally improbable missions in World War II. Due to the involvement and in some instances treachery of foreign nationals in France, Greece, Yugoslavia and elsewhere many SAS operations have remained classified. SAS paratroopers planned to land in France on D Day to ambush advancing German columns in concert with French Resistance fighters. Captured SAS men faced certain death if local German commanders chose to obey Hitler's Commando Order calling for their summary execution. Such was to be the fate of several before this gallant but failed mission came to its end. Only 20 of the 55 SAS men involved in this operation survived. For 40 years unanswered questions have remained about possible French treachery and the exact fate of British servicemen missing in German controlled territory. The files on Operation Bulbasket were only recently declassified and author Paul McCue's book is the first complete and totally candid account.

Soldier L: The Embassy Siege Shaun Clarke,2013-12-12 Ever since its formation during World War II the Special Air Service had operated under conditions of such secrecy that few members of the public even knew of its existence. By the evening of 5 May 1980 all this had changed drastically. On the morning of 30 April the Iranian Embassy at No 16 Prince's Gate in London was seized by six well armed terrorists members of the Revolutionary Movement for the Liberation of Arabistan. Nineteen Iranian nationals and four British citizens were captured. During the subsequent negotiations between the terrorists and the British police a number of the hostages were released. When on the fifth day of the siege one of the hostages was shot dead and his body pushed out through the door of the Embassy the police decided that the time for negotiation was over and asked the military to end the siege. The only men deemed to possess enough skill and daring for this dangerous task were those of the legendary Special Air Service the SAS. In fact convinced that they would eventually be called in to rescue the hostages the SAS had already mapped out and practised a high risk operation in their top secret Killing House in Hereford and in some army barracks two miles from the Embassy. On the evening of 5 May their well rehearsed plans were put into action when twelve SAS soldiers dressed in black in wearing anti gas respirators and NBC hoods made their courageous assault on the Embassy. Using a combination of abseiling ropes, stun grenades, sub machine guns and 9mm high power handguns and in the full glare of the international media they routed the terrorists and succeeded in rescuing the hostages. Within hours the SAS once relatively unknown had become the most celebrated regiment in the history of modern warfare.

Victor Two Peter Crossland,2014-09-24 The Israeli government was persuaded at the last minute not to enter the Gulf War when they were told that it was the SAS who were hunting for Scud missiles and disrupting Iraqi communications. The SAS forces inside Iraq comprised two half squadrons 30 men each with vehicles and three much smaller foot patrols one of which had the call sign Bravo Two Zero. Corporal Terence Clayton known as Yorky was a member of one of the half squadrons. His group played a crucial role by destroying microwave communications lines, Scud missile weapons dumps and Iraqi soldiers. His 42 day story ricochets between stunning successes and extraordinary cock ups moving from corpse strewn battlefields to stealthy operations at the dead of night.
