Vols. for 1963- include as pt. 2 of the Jan. issue: Medical subject headings. This comprehensive exploration of the international environment

examines not only traditional political-military concerns but also economic, ethnic, and environmental issues and the role of crime, terrorism, the drug trade, and migration in the security environment of Russia and its neighbours to the south. This approach takes account of both the internal and external aspects of security problems and their interplay. The participation of international authors facilitates the consideration of each problem from all relevant points of view. What can we tell about the future of automobiles and the industries that make them by examining their past? Wormald and Rennick trace the history of powered land transport, the rise and fall of the railways, the spectacular rise of the automobile, and what might come next. Delving into the mighty and complex automotive industry, following the growth of the markets and production, this book illustrates the globalization of vehicle manufacturers and component suppliers, giving form to the development of the industry's business model. A key factor in an auto-industry's successes and failures is the often-difficult relationship it has with government, which varies in nature from country to country. As an illustrative case, Wormald and Rennick present and analyse the entire lifecycle of Australia's automotive history

- including its birth, growth, functioning and death - and its shifting relationship with the government that supported it. Once the landlocked backwater between Iran and the Soviet Union, the Caspian has in the last ten years emerged as the epicentre of vast conflicting interests in a region where massive geopolitical issues converge with enormous energy resources and dramatic latent instability. Russia's conflict in Chechnya is a direct by-product of the strategic importance of the Caspian region. *Troubled Waters* presents a comprehensive analysis of the political and economic dynamics of the Caspian basin. It examines the area's historical evolution and the diverse issues and players in what has become a modern variant of the Great Game' of the nineteenth century. Following a historical overview of the region and its oil industries, the book analyses the domestic politics and the foreign policies of the five states bordering the Caspian- Russia, Iran, Azerbaijan, Kazakhstan and Turkmenistan. It further identifies all the external interests involved in the Caspian's political rivalries and control over its resources and territory, including the US, the major European powers, various nationalist movements, Islamic militants, multi-national corporations, NGOs and international financial

institutions. These features, coupled with the political and economic risk assessment of the Caspian basin which this book provides, makes this a unique contribution to our understanding of a region which is strategically positioned at the territorial juncture of Russia, China, East Asia and the Middle East. A sexy witch who writes romances and a police detective who sees more than mortal man team up to battle an ancient Aztec god given new life in modern America! Includes information about the twenty-five thousand largest consulting firms in the U.S. Consultants are listed alphabetically and indexed by geography and consulting activities. Jim Heaney was born an Irish-Catholic alcoholic. He remains one today. However, he has been sober for the past 21 years. No one has yet found a cure for the Irish-Catholicism. This story begins in a tiny house in Jacksonville, Florida, and ends in a slightly larger one in Columbia, South Carolina. Residences in central Florida, Indiana, Liberia, Georgia, Pennsylvania, England, Zaire (now Congo), and Kansas follow in that order. Much of Dr. Heaney's life involved battles. His most difficult ones were within himself. He struggled with low self-esteem, academics, addiction, religion, and infidelity. Several of these skirmishes are ongoing. In his youth, he learned to his disdain that "dilettante" referred to someone who dabbled in the arts and academics. Someone who knew a little about a lot. During his twilight years, Jim came to realize that he was that dilettante for whom

he'd had low regard. Yet age had allowed him to accept that dabbler and, hence, himself. The older he became, the more he realized the less he knew. The top Secrets for a Successful Sales Career. Volume 17 of the Australian Dictionary of Biography contains 658 biographies of individuals who died between 1981 and 1990. The first of two volumes for the decade, it presents a colourful mosaic of twentieth-century Australian life. It contains biographies of well-known identities such as Sir

Henry Bolte, Sir Robert Askin, Sir Reginald Ansett, Sir Macfarlane Burnet, Sir Raphael and Lady Cilento, Sir Arthur Coles, Robert Holmes-O-Court, Sir Warwick Fairfax, Sir Edmund Herring, Albert Facey, Donald Friend, Sir Roy Grounds, Sir Bernard Heinze and Sir Robert Helpmann. Eminent Australian women in the volume include Dame Elizabeth Couchman, Dame Kate Campbell, Dame Doris Fitton, Dame Zara Holt and Lady (Maie) Casey. Although many of the women achieved prominence in those professions conventionally regarded as the preserve of women, othersandmdash;such as Ruby Boye-Jones, coast-watcher; Ellen Cashman, union organiser; Elsie Chauvel, filmmaker; Dorothy Crawford, radio producer; Ruth Dobson, diplomat; Mary Hodgkin, anthropologist; Margaret Kelly, restaurateur; and Patricia Jarrett, journalistandmdash;demonstrate that some women at least were breaking free of the constraints of traditional expectations. The lives of fifteen Indigenous Australians are included, as are those of a number of immigrants who fled from persecution in Europe to establish a new life in Australia. The New York Times bestselling author of The Origins of Political Order offers a provocative examination of modern identity politics: its origins, its effects, and what it means for domestic and international affairs of state In 2014, Francis Fukuyama wrote that American institutions were in decay, as the state was progressively captured by powerful interest groups. Two

years later, his predictions were borne out by the rise to power of a series of political outsiders whose economic nationalism and authoritarian tendencies threatened to destabilize the entire international order. These populist nationalists seek direct charismatic connection to “the people,” who are usually defined in narrow identity terms that offer an irresistible call to an in-group and exclude large parts of the population as a whole. Demand for recognition of one’s identity is a master concept that unifies much of what is going on in world politics today. The universal recognition on which liberal democracy is based has been increasingly challenged by narrower forms of recognition based on nation, religion, sect, race, ethnicity, or gender, which have resulted in anti-immigrant populism, the upsurge of politicized Islam, the fractious “identity liberalism” of college campuses, and the emergence of white nationalism. Populist nationalism, said to be rooted in economic motivation, actually springs from the demand for recognition and therefore cannot simply be satisfied by economic means. The demand for identity cannot be transcended; we must begin to shape identity in a way that supports rather than undermines democracy. Identity is an urgent and necessary book—a sharp warning that unless we forge a universal understanding of human dignity, we will doom ourselves to continuing conflict. The story of special air warfare and the Air Commandos who served for the ambassadors in Laos from 1964 to 1975 is

captured through extensive research and veteran interviews. The author has meticulously put together a comprehensive overview of the involvement of USAF Air Commandos who served in Laos as trainers, advisors, and clandestine combat forces to prevent the communist takeover of the Royal Lao Government. This book includes pictures of those operations, unveils what had been a US government secret war, and adds a substantial contribution to understanding the wider war in Southeast Asia. The world’s second largest reserves of petroleum lie beneath the land-locked Caspian Sea, making the Caucasus of vital importance to both regional and global economic and security interests. This book brings together experts from the US, Russia and the Caucasus to examine the issues of conflict, foreign policy tradeoffs, and security in the region. It takes into account the geopolitical factors, Western and Russian involvement, and the interaction between domestic and external pressures. *Crossroads and Conflict* looks at the challenges faced by these countries and examines the possibilities for future peace and prosperity in the region. A comprehensive introduction to film music for the general student, the film historian, and the aspiring cinematographer. It is a historically structured account of the evolution of music in films. The book is arranged as a chronological survey and includes biographical sketches on many important film composers in addition to the development of the films themselves. To

increase trade to the Orient, commercial harbor development in the Ballona wetlands of western Los Angeles was attempted several times from 1880 to 1900, only to be destroyed by disastrous storm-fed floods. After the US Army Corps of Engineers installed revetments on Ballona Creek and moved tons of earth to raise the ground above sea level, Marina del Rey was federally authorized in 1954. Funded by federal, state, and Los Angeles County funds, the largest man-made marina in the nation was built to provide public recreational boating facilities and water access. Private financiers developed restaurants, hotels, premier yacht clubs, Fisherman's Village, and a residential marina lifestyle on county-owned leaseholds. This world-class seaport will celebrate 50 years of dynamic growth on April 10, 2015. Keely Moreno's foot reflexology courses never taught her how to deal with a corpse. International Business Law di Lucio Ghia si snoda su tre distinte direttrici. La prima si occupa delle grandi organizzazioni sovranazionali - Nazioni Unite, Organizzazione Mondiale del Commercio, Fondo Monetario Internazionale, Banca Mondiale, ecc. - fornendone un sintetico profilo storico, funzionale e per quanto possibile prospettico, alla luce dei necessari adeguamenti conseguenti alle trasformazioni geopolitiche ed economiche verificatesi negli ultimi decenni. La seconda direttrice pone il lettore a contatto con gli strumenti d'indirizzo legislativo sovranazionale - ben noti all'autore, da oltre dieci anni delegato italiano all'UNCITRAL, la Commissione permanente per il diritto commerciale internazionale delle Nazioni Unite - nonché, sul terreno dei grandi temi del diritto commerciale internazionale, con le problematiche concrete relative all'incontro tra impresa privata e Stato e/o controparti istituzionali estere quali soggetti contrattuali, trattato con ricchezza di approfondimenti e con rimandi alle fonti di diritto internazionale ed europeo, applicate all'esperienza pratica. La terza parte è infine dedicata ai contratti internazionali, alle loro specificità, alle insidie più frequenti, alle clausole da evitare o da favorire, illustrate da alcuni apprezzati protagonisti della negoziazione e della contrattualistica internazionale, in una prospettiva non solo dottrinale e/o massimalistica ma davvero utile professionalmente, grazie al taglio

autenticamente pratico, legato alla vita degli affari societari e commerciali. The change of the geopolitical realities and dynamics, the latest regional developments and the emergence of a new perception of security due to the new situation in Karabakh have changed current perspectives in the South Caucasus region. This book will provide a comprehensive introduction for students, academics, media representatives, business persons and those who are interested in the region. It will guide you through in a very readable and engaging style as it covers all the salient points and issues of the North Caucasus (the autonomous republics) succinctly and the South Caucasus (Azerbaijan, Georgia, Armenia) in detail. After the last development and Russian direct involvement in the Karabakh issue, the world's attention has focused increasingly on the Caucasus region. Thus, THE CHANGING PERSPECTIVES AND 'NEW' GEOPOLITICS OF THE CAUCASUS IN THE 21ST CENTURY book will be an excellent introduction to the complexities of a little-known the Caucasus region and make a significant contribution to the understanding of fundamental issues of the region. As the editors, we would like to dedicate this book to the heroic Azerbaijani soldiers who were martyred during the struggle for the liberation of the Karabakh lands from the Armenian occupation. The dispute between Georgia and Abkhazia is not a conflict of equals. In international conflicts, adversaries may differ de facto on the ground, in terms of

population, territory and capability, among other things. As internationally recognized states, however, they have equal de jure status, and fears that inviting the other side to the negotiating table might be construed as recognition, for example, rarely intrude. The question of status does pose problems, however, when a conflict is being fought between a recognized state and an unrecognized entity, and these problems may contribute to increase the intractability of such conflicts. This study explores how and to what extent the difference in status between a sovereign state and an unrecognized entity hinders conflict resolution activities. Based on intensive fieldwork and unedited negotiation material, the book provides an in-depth analysis of the negotiations, informal dialogues and grassroots activities that took place in Abkhazia and Georgia between 1989 and 2008.
