The Librarian's Guide to Homelessness Jun 01 2024 "Homelessness is a perennial topic of concern at libraries. In fact, staff at public libraries interact with almost as many homeless individuals as staff at shelters do. In this book Dowd, executive director of a homeless shelter, spotlights best practices drawn from his own shelter's policies and training materials" --

Homelessness Jan 28 2024 This book presents an unflinching investigation of homelessness in the United States—a problem that has been with us since the arrival of the first English settlers nearly 400 years ago. The terms historically used to describe them include "bums," "hoboes," "migrants," "street people," "transients," "tramps," and "vagrants." Just as varied as the words we have used to describe them are the reasons many people have found themselves living in the land of opportunity without permanent residence. The book considers homelessness and its distinctive character in three periods of American history: the era of tramps and hoboes in the late 1800s–early 1900s, the era of transients and migrants in the 1930s, and the era of homeless and "street" people in the last 40 years. It clarifies the multiple meanings of the word "homeless" today and demonstrates that homelessness is a symptom of more than one problem, leading to confusion about the issue of homelessness and hampering attempts to reduce its occurrence. Author Neil Larry Shumsky, PhD, also postulates that the treatment of homelessness in England before the colonization of North America laid the foundation of pervasive American attitudes and practices.

How to House the Homeless Apr 18 2023 How to House the Homeless, editors Ingrid

Gould Ellen and Brendan O'Flaherty propose that the answers entail rethinking how housing markets operate and developing more efficient interventions in existing service programs. The book critically reassesses where we are now, analyzes the most promising policies and programs going forward, and offers a new agenda for future research. How to House the Homeless makes clear the inextricable link between homelessness and housing policy. Contributor Jill Khadduri reviews the current residential services system and housing subsidy programs. For the chronically homeless, she argues, a combination of assisted housing approaches can reach the greatest number of people and, specifically, an expanded Housing Choice Voucher system structured by location, income, and housing type can more efficiently reach people at-risk of becoming homeless and reduce time spent homeless. Robert Rosenheck examines the options available to homeless people with mental health problems and reviews the cost-effectiveness of five service models: system integration, supported housing, clinical case management, benefits outreach, and supported employment. He finds that only programs that subsidize housing make a noticeable dent in homelessness, and that no one program shows significant benefits in multiple domains of life. Contributor Sam Tsemberis assesses the development and cost-effectiveness of the Housing First program, which serves mentally ill homeless people in more than four hundred cities. He asserts that the program's high housing retention rate and general effectiveness make it a viable candidate for replication across the country. Steven Raphael makes the case for a strong link between homelessness and local housing market regulations—which affect housing affordability—and shows that the problem is more prevalent in markets with stricter zoning laws. Finally, Brendan O'Flaherty bridges the theoretical gap between the worlds of public health and housing research, evaluating the pros and cons of subsidized housing programs and the economics at work in the rental housing market and home ownership. Ultimately, he suggests, the most viable strategies will serve as safety nets—"social insurance"—to reach people who are homeless now and to prevent homelessness in the future. It is crucial that the links between effective policy and the whole cycle of homelessness—life conditions, service systems, and housing markets—be made clear now. With a keen eye on the big picture of housing policy, How to House the Homeless shows what works and what doesn't in reducing the numbers of homeless and reaching those most at risk.

In the Midst of Plenty May 08 2022 Foreword by Nan Roman, President and CEO of the National Alliance to End Homelessness This book explains how to end the U.S. homelessness crisis by bringing together the best scholarship on the subject and sharing solutions that both local communities and national policy-makers can apply now. In the Midst of Plenty shifts understanding of homelessness away from individual disability to larger contexts of poverty, income inequality, housing affordability, and social exclusion. Homelessness experts Shinn and Khadduri provide guidance on how to end homelessness for people who experience it and how to prevent so many people from reaching the point where they have no alternative to sleeping on the street or in emergency shelters. The authors show that we know how to end homelessness—if we devote the necessary resources to doing so. In the Midst of Plenty: Homelessness and What to Do About It is an excellent resource for policy-makers, professionals in the homeless services system, and anyone else who wants to end homelessness. It also can serve as a text in undergraduate or masters courses in public policy, sociology, psychology, social work, urban studies, or housing policy. "The knowledgeable and thoughtful authors of this book—two brilliant women who know as much as anyone in the country about the nature of homelessness and its solutions—have done a great service by taking us on a journey through the history of homelessness, how our responses have changed, and how we can end it." —Nan Roman, President and CEO National Alliance to End Homelessness. "Shinn and Khadduri's new book is a thorough yet concise examination of what we know about the nature and causes of homelessness, and the crucial lessons learned. This critically important work provides a roadmap to restoring basic housing and income security as viable policy options, in the face of our daunting inequality divide that otherwise threatens millions with destitution and homelessness." —Dennis Culhane, Dana and Andrew Stone Professor of Social Policy, University of Pennsylvania "Marybeth Shinn and Jill Khadduri have combined their significant expertise to create an essential guide about the history of modern homelessness and to offer a clear path forward to end this American tragedy. Their policy recommendations on ending homelessness are culled from the best about what we know works." —Barbara Poppe, Executive Director US Interagency Council on Homeless, 2009-2014

Shelter's Good Practice Guide on Homelessness Jun 28 2021

Homelessness, Health, and Human Needs Mar 25 2021 There have always been homeless people in the United States, but their plight has only recently stirred widespread public reaction and concern. Part of this new recognition stems from the problem's prevalence: the number of homeless individuals, while hard to pin down exactly, is rising. In light of this, Congress asked the Institute of Medicine to find out whether existing health care programs were ignoring the homeless or delivering care to them inefficiently. This book is the report prepared by a committee of experts who

examined these problems through visits to city slums and impoverished rural areas, and through an analysis of papers written by leading scholars in the field.

Homelessness Jul 10 2022 This guide to the literature presents descriptions of books, reports and articles dealing with all aspects of Homelessness including: economic aspects; issues on substance abuse and homelessness; mortality rates; treatment preferences; homeless programs: public opinion; community care; and many more. The book is completely indexed for easy axis.

Down and Out in America May 27 2021 The most accurate and comprehensive picture of homelessness to date, this study offers a powerful explanation of its causes, proposes short- and long-term solutions, and documents the striking contrasts between the homeless of the 1950s and 1960s and the contemporary homeless population, which is younger and contains more women, children, and blacks.

Permanent Supportive Housing Sep 11 2022 Chronic homelessness is a highly complex social problem of national importance. The problem has elicited a variety of societal and public policy responses over the years, concomitant with fluctuations in the economy and changes in the demographics of and attitudes toward poor and disenfranchised citizens. In recent decades, federal agencies, nonprofit organizations, and the philanthropic community have worked hard to develop and implement programs to solve the challenges of homelessness, and progress has been made. However, much more remains to be done. Importantly, the results of various efforts, and especially the efforts to reduce homelessness among veterans in recent years, have shown that the problem of homelessness can be successfully addressed. Although a number of programs have been developed to meet the needs of persons experiencing homelessness, this report focuses on one particular type of intervention: permanent supportive housing (PSH). Permanent Supportive Housing focuses on the impact of PSH on health care outcomes and its cost-effectiveness. The report also addresses policy and program barriers that affect the ability to bring the PSH and other housing models to scale to address housing and health care needs.

Homeless Jun 08 2022 The causes of homelessness are disputed by both Right and Left. But, few would argue that life on the streets is anything other than dangerous and debilitating. Unemployment, deinstitutionalisation, abuse in the home are among the stories the homeless tell. Voluntary organisations point to the failure of emergency shelters and food banks, the cut-backs in social programmes and the severe shortage of affordable housing. On the international scale, the changing global system has placed new demands on the economies of Europe and north America which have impacted on resources, employment and even political will. This book is the first comprehensive international study of homelessness. The author argues that the category of the homeless must itself be broadened, to encompass those chronically without shelter to those in immediate risk of dispossession, if homelessness is to be tackled effectively (before and after it happens) by public policy, voluntary organisations and the individuals themselves.

Sacred Shelter Mar 06 2022 An inside look at an interfaith program for the homeless in New York City, including in-depth stories of those who have graduated and made new lives. In a metropolis like New York, homelessness can blend into the urban landscape. For Susan Greenfield, however, New York is the place where a community of resilient, remarkable individuals is yearning for a voice. Sacred Shelter follows the lives of

thirteen formerly homeless people, all of whom have graduated from an interfaith life skills program for current and former homeless individuals in the city. Through interviews, these individuals share traumas from their youth, their experience with homelessness, and the healing they've discovered through community and faith. Edna Humphrey talks about losing her grandparents, father, and sister to illness, accident, and abuse. Lisa Sperber discusses her bipolar disorder and her whiteness. Dennis Barton speaks about his unconventional path to becoming a first-generation college student and his journey to reconnect with his family. The memoirists share stories about youth, family, jobs, and love. They describe their experiences with racism, mental illness, sexual assault, and domestic violence. Each of the thirteen storytellers honestly expresses his or her broken-heartedness and how finding community and faith gave them hope to carry on. Interspersed are reflections from program directors, clerics, mentors, and volunteers, including the cofounder of the program. While Sacred Shelter does not tackle the socioeconomic conditions and inequities that cause homelessness, it provides a voice for a demographic group that continues to suffer from systemic injustice and marginalization.

Reaching Out Aug 30 2021

The Book on Ending Homelessness Apr 30 2024 The Book on Ending Homelessness provides insights for those in the industry, elected officials, policy makers, funders, public servants and the general public on the best ways to move from managing homelessness to ending homelessness. While ending homelessness may seem to be a whacky or even preposterous idea, Iain De Jong takes more than two decades of experience as an award winning industry leader to lay out how and why homelessness can be ended in very practical ways. This book will provoke and teach, serving as both inspiration and an instruction manual for those serious about combatting one of the most important social issues of our time. The book will reshape how you think about homelessness, as well as how strategies like sheltering, street outreach and day services all play a role in ending homelessness when operated with a housing-focused lens and the right service orientation. No doubt the book will reassure some that their thinking and actions regarding homelessness are bang on, while challenging others to think and respond differently in what they do and how they invest their money. Many of the ideas in the book elaborate upon ideas that Iain shares in his blog, keynote speeches and conference presentations, as well as the training series that Iain and his team have been offering for the past decade. If you are involved in homelessness issues or concerned about homelessness, this book is essential reading.

Homeless Narratives & Pretreatment Pathways Oct 25 2023 On any given night, there are over 643,000 homeless people residing in shelters and on the streets across America. What can we do to help? "Levy crafts stories of characters who sear the memory: Old Man Ray, the World War II veteran who resents the VA system and regards himself as the de facto night watchman at Port Authority; Ben who claims to be a prophet disowned in his own country, crucified by the government and enslaved by poverty finds a bridge to the mainstream services and a path to housing through the common language of religious metaphors, including redemption and forgiveness; and Andrew who has been 'mentally murdered' is helped to understand his own situation and gain disability benefits through the language of trauma; among others. These stories are deftly interwoven with theory and practice as Levy constructs his developmental model

of the engagement and pretreatment process. The outreach worker strives to understand the language and the culture of each homeless individual, builds a bridge to the mainstream services, and helps those providers to understand the special circumstances of these vulnerable people. Levy bears witness to the courage of these pilgrims who wander the streets of our cities, and his poignant book is a testament to the healing power of trusting and enduring relationships." --Jim O'Connell, MD - President and Street Physician for Boston Health Care for the Homeless Program

The Girl's Guide to Homelessness Jul 02 2024 Brianna Karp entered the workforce at age ten, supporting her mother and sister throughout her teen years in Southern California. Although her young life was scarred by violence and abuse, Karp stayed focused on her dream of a steady job and a home of her own. By age twenty-two her dream became reality. Karp loved her job as an executive assistant and signed the lease on a tiny cottage near the beach. And then the Great Recession hit. Karp, like millions of others, lost her job. In the six months between the day she was laid off and the day she was forced out onto the street, Karp scrambled for temp work and filed hundreds of job applications, only to find all doors closed. When she inherited a thirty-foot travel trailer after her father's suicide, Karp parked it in a Walmart parking lot and began to blog about her search for work and a way back.
