## **The Global Financial Crisis and the Korean Economy**

Jang-Sup Shin,2013-12-04 The world economy fell into a global financial crisis in 2008-9 and is still jittered by its aftershocks Like other financial crises happened in the world economy it came as a surprise In historical perspective financial crises should be understood as a natural fact of life in the world economy and a more pertinent question that should be posed would be why people so easily forget and do not learn from the historical experience This book deals with the question in two ways First it investigates the frame of mind that distances people from the reality of life At the heart of it it argues that there are wrong perceptions on the working of the world economy in particular the international financial market It summarizes them as the five conventional wisdoms in the international financial market and by critically examining them it draws on the five financial theorems which would provide intellectual pillars for a more realistic understanding of the global financial market Second the book examines in detail the case of an emerging market economy that fell into a financial crisis twice in the recent decade South Korea provides us with an interesting case of emerging market financial crises that came as surprises it faced a financial crisis in 1997-98 after it had been acclaimed as one of East Asian miracle economies and it was again befallen to a crisis during the global financial crisis in 2008-2009 after it was widely regarded as a country that had recovered from the crisis with one of the most successful implementations of the IMF sponsored reforms The book attempts to provide the readers with a realistic understanding of emerging market financial crises by interpreting the recent global financial crisis and the Korean crises with some general concepts manifested in the five financial theorems It also tries to draw more general implications for policy management of emerging market economies

## **Armed Madhouse**

Greg Palast,2007-08-30 Razor sharp research shows why every US citizen should be quaking in their boots Metro Books of

the Year Bill Hicks with a press pass The List Award winning guerrilla journalist Greg Palast has gone where most have been too scared to unearth the ugly truth about the haves and have mores who rule our world America Here he reports from behind enemy lines to reveal just how bad it s got in a dangerous regime how elections are bought and free speech comes at a price How citizens are ruled by fear And how our brave new globalized world means the poor get hammered while corporations silently buy up the planet It s not pretty but it s all true Palast is one of the few journalists writing who has both the anger and the wit to offer himself up as a persuasive and more importantly readable voice of the left Observer A rollercoaster ride from Baghdad to New Orleans and Osama bin Laden s cave to the back rooms of the Pentagon Big Issue Very funny For anyone who thinks that no one from the US knows what s going on Palast is the perfect riposte Guardian

**Confessions of an Economic Hit Man** John Perkins,2004-11-09 Perkins a former chief economist at a Boston strategic consulting firm confesses he was an economic hit man for 10 years helping U S intelligence agencies and multinationals cajole and blackmail foreign leaders into serving U S foreign policy and awarding lucrative contracts to American business

The End of America Naomi Wolf,2007-09-05 A New York Times Bestseller I hope we wake up quickly because history shows it s a small window in which people can fight back before it is too dangerous to fight back Naomi Wolf on Fox News Channel s Tucker Carlson Tonight In a stunning indictment best selling author Naomi Wolf lays out her case for saving American democracy In authoritative research and documentation Wolf explains how events parallel steps taken in the early years of the 20th century s worst dictatorships such as Germany Russia China and Chile The book cuts across political parties and ideologies and speaks directly to those among us who are concerned about the ever tightening noose being placed around our liberties In this timely call to arms Naomi Wolf compels us to face the way our free America is under assault She warns us with the straight to fellow citizens urgency of one of Thomas Paine s revolutionary pamphlets that we have little time to lose if our children are to live in real freedom Recent history has profound lessons for us in the U S today about how fascist totalitarian and other repressive leaders seize and maintain power especially in what were once democracies The secret is that these leaders all tend to take very similar parallel steps The Founders of this nation were so deeply familiar with tyranny and the habits and practices of tyrants that they set up our checks and balances precisely out of fear of what is unfolding today We are seeing these same kinds of tactics now closing down freedoms in America turning our nation into something that in the near future could be quite other than the open society in which we grew up and learned to love liberty states Wolf Wolf is taking her message directly to the American people in the most accessible form and as part of a large national campaign to reach out to ordinary Americans about the dangers we face today This includes a lecture and speaking tour and being part of the nascent American Freedom Campaign a grassroots effort to ensure that presidential candidates pledge to uphold the constitution and protect our liberties from further erosion The End of America will shock enrage and motivate spurring us to act as the Founders would have counted on us to do in a time such as this as rebels and

patriots to save our liberty and defend our nation

**The Cult of the Amateur** Andrew Keen, 2008-08-12 Amateur hour has arrived and the audience is running the show In a hard hitting and provocative polemic Silicon Valley insider and pundit Andrew Keen exposes the grave consequences of today's new participatory Web 2.0 and reveals how it threatens our values economy and ultimately the very innovation and creativity that forms the fabric of American achievement Our most valued cultural institutions Keen warns our professional newspapers magazines music and movies are being overtaken by an avalanche of amateur user generated free content Advertising revenue is being siphoned off by free classified ads on sites like Craigslist television networks are under attack from free user generated programming on YouTube and the like file sharing and digital piracy have devastated the multibillion dollar music business and threaten to undermine our movie industry Worse Keen claims our cut and paste online culture in which intellectual property is freely swapped downloaded remashed and aggregated threatens over 200 years of copyright protection and intellectual property rights robbing artists authors journalists musicians editors and producers of the fruits of their creative labors In today's self broadcasting culture where amateurism is celebrated and anyone with an opinion however ill informed can publish a blog post a video on YouTube or change an entry on Wikipedia the distinction between trained expert and uninformed amateur becomes dangerously blurred When anonymous bloggers and videographers unconstrained by professional standards or editorial filters can alter the public debate and manipulate public opinion truth becomes a commodity to be bought sold packaged and reinvented The very anonymity that the Web 2.0 offers calls into question the reliability of the information we receive and creates an environment in which sexual predators and identity thieves can roam free While no Luddite Keen pioneered several Internet startups himself he urges us to consider the consequences of blindly supporting a culture that endorses plagiarism and piracy and that fundamentally weakens traditional media and creative institutions Offering concrete solutions on how we can reign in the free wheeling narcissistic atmosphere that pervades the Web

*Nemesis* Chalmers Johnson,2007-02-06 The long awaited final volume of Chalmers Johnson s bestselling Blowback trilogy confronts the overreaching of the American empire and the threat it poses to the republic In his prophetic book Blowback Chalmers Johnson linked the CIA s clandestine activities abroad to disaster at home In The Sorrows of Empire he explored the ways in which the growth of American militarism and the garrisoning of the planet have jeopardized our stability Now in Nemesis he shows how imperial overstretch is undermining the republic itself both economically and politically Delving into new areas from plans to militarize outer space to Constitution breaking presidential activities at home and the devastating corruption of a toothless Congress Nemesis offers a striking description of the trap into which the dreams of America s leaders have taken us Drawing comparisons to empires past Johnson explores in vivid detail just what the unintended consequences of our dependence on a permanent war economy are likely to be What does it mean when a

nation's main intelligence organization becomes the president's secret army Or when the globe's sole hyperpower no longer capable of paying for the vaulting ambitions of its leaders becomes the greatest hyper debtor of all times In his stunning conclusion Johnson suggests that financial bankruptcy could herald the breakdown of constitutional government in America a crisis that may ultimately prove to be the only path to a renewed nation
