Outline of U.S. History Alonzo L. Hamby, 2007. *Outline of U.S. History* is a publication of the U.S. Department of State. The first edition, 1949-50, was produced under the editorship of Francis Whitney, first of the State Department Office of International Information and later of the U.S. Information Agency. Richard Hofstadter, professor of history at Columbia University, and Wood Gray, professor of American history at The George Washington University, served as academic consultants. D. Steven Endsley of Berkeley, California, prepared additional material. It has been updated and revised extensively over the years by, among others, Keith W. Olsen, professor of American history at the University of Maryland, and Nathan Glick, writer and former editor of the USIA journal *Dialogue*. Alan Winkler, professor of history at Miami University, Ohio, wrote the post-World War II chapters for previous editions. This new edition has been completely revised and updated by Alonzo L. Hamby, Distinguished Professor of History at Ohio University. Professor Hamby has written extensively on American politics and society.

**Outline Studies in United States History** Mrs. Regina Zimmerman Kelly, 1935. *Outlines in United States History* Herbert E. Wentworth, 1904.

**Outline and Notes on United States History** William H. Mace, 2015-06-12. Excerpt from *Outline and Notes on United States History*. One end has been kept steadily in view to furnish the method and the material for a rational study of United States History to state the problem and furnish the means of its solution. Two things have been done to secure this end: 1. A discussion of the Central Truth in the subject and the necessary relations under which events can be viewed; 2. A presentation of material, original and selected, and of an outline and references to matter found either in text books or libraries. To furnish the student the method and material of thought which shall yield the highest discipline and culture is not an easy task. This question constantly confronts one: How much can the teacher safely do? How far shall a discussion of the Central Idea and its application in working out the problem be carried? Shall the outline present the logical relations of the subject or shall the student be required to discover them? After the Introduction, the thinking and organization of the subject is done mainly by the student, the work of the teacher being directive. This book was written for use in this school. It is adapted, however, to use in High Schools and such other schools as place the history of our country on a higher plane than can be reached by the Grammar Grades. It is hoped that it will be helpful to such teachers as are trying to make a real study of History. About the Publisher: Forgotten Books publishes hundreds of thousands of rare and classic books.
