Astrology, A Cosmic Science Isabel M. Hickey, 2011-11-26 New edition of the classic Isabel Hickey s classic comprehensive text of spiritual astrology is now in a new edition This handy reference book provides a strong foundation for the beginner as well as new insights and self knowledge for more advanced astrology students Isabel Hickey s emphasis on the deeper more metaphysical aspects of astrology s mysteries has resulted in continuous word of mouth recommendation by enthused readers with a Foreword by internationally renowned author of eight popular books on modern astrology Stephen Arroyo

Exploring Jupiter Stephen Arroyo, 1996 This book is the very essence of Jupiter From its apt title to its generous use of many famous chart examples to Arroyo s trademark insight and wisdom on every page *Exploring Jupiter* is positively a winner The presentation of the astrology is clear practical and intelligent making it a must for both newer students and more experienced practising astrologers Unlike

the majority of modern astrologers Arroyo refers to Jupiter's ancient rulership of Pisces as being significant. The book includes Jupiter through the signs, Jupiter through the houses, arranged by element, Jupiter aspects in the birth chart, and so on. As always with Stephen Arroyo, it is the clarity and profound depth of these guidelines for interpretation that is so striking. The chapter on transits involving Jupiter is particularly good, building on ideas he has expressed in earlier writings. **A to Z Horoscope Maker and Delineator** Llewellyn George, 2013-10. This is a new release of the original 1946 edition. The Astrology of Fate Liz Greene, 1985-01-15. Combining an understanding of astrological symbolism and the psychological processes involved in the pursuit of individuality, the author shares insights about how the concept of fate evolves. Through myths, fairy tales, and zodiacal signs, she shows us this mythological journey. **Direction and Destiny in the Birth Chart** Howard Sasportas, 2023-03-27. Direction and Destiny in the Birth Chart returns due to popular demand. When Howard Sasportas died in 1992, the astrological community recognised that it had lost one of its best-loved and most original thinkers. His lectures made him a highly respected figure in the international astrological world. At Howard's seminars, the participants could enjoy his unique combination of intuitive insight, humour, warmth, inspired interpretation, and profound grasp of human nature. It is his rare blend of spirituality and down-to-earth, trenchant observations of human psychological dynamics which makes his work so unusual and memorable. The three seminars included in this reprint of the original volume all deal with the themes of direction and destiny in the birth chart. In personal consultation work, Howard had the gift of inspiring his clients and highlighting potentials which gave them renewed hope and new directions to pursue in life. These seminars convey the same optimism and positive vision of human possibilities. The first seminar on the theme of vocation deals practically, psychologically, and philosophically with that most difficult of questions: How can we discover the right path in life? The second seminar on those mysterious points in the horoscope known as the Moon's Nodes explores the distinction between fate and destiny and the ways in which, as Jung once put it, we can learn to do what we must do gladly. The third seminar on the psychology of the helper examines the astrological signatures of the aptitudes and psychological patterns of those who are called to work in the helping professions. This volume is accessible, profound, and revealing, and is essential reading for any astrological student seeking to understand the mystery and creative challenge of what impels us to move forward in life.

Incarnation Melanie Reinhart, 2014-10-10. Both of the seminars in this book address the theme of orientation, offering the reader a profound but accessible interpretation of the structure and the spinal column of the horoscope. The four angles Ascendant, Descendant, MC, and IC reflect the horizon and meridian at the moment of birth and symbolise the cross of matter into which we are born. They describe our participation in external reality and also clarify how the subtle patterns of belief, attitude, and circumstance affect our inner sense of orientation. Each angle is described separately in terms of the element and mode, and the meaning of the houses which flank it. Transits are also considered, and there is a guided imagery process where the individual horoscope placements are explored. The axis of the Moon's Nodes represents an arc of meaning along

which the activities of being and doing are balanced over and over again Our ability to let go of the past is tested and we embrace the future from the vantage point of the eternal now This section reviews familiar material and also offers a number of approaches to the Nodes which the reader will not find elsewhere There is a review of the Nodes as placed in the six pairs of opposite signs plus a questionnaire for readers to consider their own Nodes This book includes astronomical and psychological material presented in a lively seminar format which will expand the understanding of beginners and experienced astrologers alike **The Zodiac by Degrees** Martin Goldsmith,2015-02-11 The Zodiac by Degrees provides symbols and interpretations for each of the 360 degrees of the zodiac These symbols make a direct connection with your basic spiritual energies and penetrate the private language of your personal mythology For this second edition every one of the 360 degrees has been reexamined from extensive lists of examples In the end about ninety degrees have undergone major changes and all of the rest have been clarified and sharpened The result is a symbol system of unparalleled accuracy and an indispensable tool for both amateur and practicing astrologers
