When Middle-Class Parents Choose Urban Schools Linn Posey-Maddox,2014-03-18 In recent decades a growing number of middle class parents have considered sending their children to and often end up becoming active in urban public schools Their presence can bring long needed material resources to such schools but as Linn Posey Maddox shows in this study it can also introduce new class and race tensions and even exacerbate inequalities Sensitively navigating the pros and cons of middle class transformation When Middle Class Parents Choose Urban Schools asks whether it is possible for our urban public schools to have both financial security and equitable diversity Drawing on in depth research at an urban elementary school Posey Maddox examines parents efforts to support the school through their outreach marketing and volunteerism She shows that when middle class parents engage in urban school communities they can bring a host of positive benefits including new educational opportunities and greater diversity But their involvement can also unintentionally marginalize less affluent parents and diminish low income students access to the improving schools In response Posey Maddox argues that school reform efforts which usually equate improvement with rising test scores and increased enrollment need to have more equity focused policies in place to ensure that low income families also benefit from and participate in school change

Suddenly Diverse Erica O. Turner,2020-02-12

For the past five years American public schools have enrolled more students identified as Black Latinx American Indian and Asian than white At the same time more than half of US school children now qualify for federally subsidized meals a marker of poverty The makeup of schools is rapidly changing and many districts and school boards are at a loss as to how they can effectively and equitably handle these shifts Suddenly Diverse is an ethnographic account of two school districts in the Midwest responding to rapidly changing demographics at their schools It is based on observations and in depth interviews with school board members and superintendents as well as staff community members and other stakeholders in each district one serving Lakeside a predominately working class conservative community and the other serving Fairview a more affluent liberal community Erica O Turner looks at district leaders adoption of business inspired policy tools and the ultimate successes and failures of such responses Turner's findings demonstrate that despite their intentions to promote diversity or eliminate achievement gaps district leaders adopted policies and practices that ultimately perpetuated existing inequalities

and advanced new forms of racism While suggesting some ways forward Suddenly Diverse shows that without changes to these managerial policies and practices and larger transformations to the whole system even district leaders best efforts will continue to undermine the promise of educational equity and the realization of more robust public schools Fire Island Shoshanna McCollum,2012 Fire Island is a string of communities and parks gay and straight bars boats and bridges beach umbrellas and bungalows all bound together by the pristine white sand of the island s beach This 32 mile long barrier island off the coast of Long Island has been defined by legendary shipwrecks and heroic lifesaving in the 19th century but also kindled by menacing storms and a web of sociological intrigue as an upwardly mobile American middle class sought out vacation homes and coastal recreation during the 20th century From cholera protests at the Surf Hotel in 1892 to a grassroots campaign to prevent a highway that ultimately established Fire Island National Seashore in 1964 Fire Island s history is a grand melodrama that has caught world attention Spiritual Clearings Diana Burney,2009-10-13 Appealing to readers of the popular Archangels and Ascended Masters by best selling author Doreen Virtue PhD Spiritual Clearings taps into the metaphysics and healing market with both spiritually powerful and accessible practices to clear energy and cultivate forward movement A blend of spiritual and practical material Spiritual Clearings offers a comprehensive checklist of situations that may require a personal home property or business clearing from confronting illness or feeling stuck in life to having trouble selling a home to high employee turnover In addition to describing energetic blockages such as negative thought forms author Diana Burney also discusses different categories of energy its presence in the invisible world and the unseen influences or beings that may be drawn to discordant energy Through spiritual clearings Burney proposes we can release our own negativity as well as guide unseen negative forces toward the light The book s clearing rituals include prayers that invoke the assistance of higher beings such as archangels and Ascended Masters incantations and chants from different spiritual traditions the visualization of divine light and the violet flame and the expression of gratitude Additional meditation and visualization exercises descriptions of divine beings and a summary of the universal laws provide readers with a clear path to fulfilling their potential and creating a personal environment of confidence creativity love and acceptance

Queen of the Owls Barbara Linn Probst,2020-04-07 A chance meeting with a charismatic photographer will forever change Elizabeth s life Until she met Richard Elizabeth s relationship with Georgia O Keeffe and her little known Hawaii paintings was purely academic Now it s personal Richard tells Elizabeth that the only way she can truly understand O Keeffe isn t with her mind it s by getting into O Keeffe s skin and reenacting her famous nude photos In the intimacy of Richard s studio Elizabeth experiences a new intoxicating abandon and fullness It never occurs to her that the photographs might be made public especially without her consent Desperate to avoid exposure she s a rising star in the academic world and the mother of young children Elizabeth demands that Richard dismantle the exhibit But he refuses The pictures are his art His property not hers As word of the photos spreads Elizabeth unwittingly becomes a feminist heroine to her students who

misunderstand her motives in posing To the university however her actions are a public scandal To her husband they re a public humiliation Yet Richard has reawakened an awareness that s haunted Elizabeth since she was a child the truth that cerebral knowledge will never be enough Now she must face the question How much is she willing to risk to be truly seen and known
