The Definitive Guide for Injured Victims & Their Lawyers in Car Accident Cases: IF YOU'VE BEEN HURT IN A CAR WRECK, WILL YOU KNOW HOW TO TAKE ON THE INSURANCE COMPANY AND THEIR LAWYERS BY YOURSELF? Think about that for a moment . . . You've been hurt in a car wreck and it was not your fault. And now you have a lot of questions, but not a lot of answers: * who will pay for all of your medical bills? * you don't have health insurance, so how do you get the medical treatment you need for your injuries? * how can you recover your lost wages? * who will pay for your car to be repaired? * what if your car can't be repaired and is declared a total loss? * what if you owe more than the car is worth? * what about your future medical needs or lost wages? * what are the 3 things you must prove to be able to recover in your personal injury claim? This is a lot for anyone to handle - all of the phone calls back and forth, the emails, the paperwork, the releases. Will you have the time or the knowledge to handle this by yourself? Do you need a guide for consumers to help explain the process to you? And ask yourself - do you really want to take on the insurance company and their lawyers - especially without educating yourself on the claims process here in Georgia? Are you an attorney who is looking to expand your practice to help injured victims and their families injured in car wreck cases? Do you know enough about the personal injury claim process to zealously and ethically represent them? "The Authority On Personal Injury Claims In Georgia: The Definitive Guide For Injured Victims And Their Lawyers In Car Accident Cases" was written by Gary Martin Hays, a personal injury attorney with over 24 years of experience handling car accident claims in Georgia. A former insurance defense lawyer, he now only represents injured victims and their families. Since starting his own firm in 1993, he has helped over 29,000 clients recover over \$250,000 million dollars. In this handbook, Hays provides you a peek behind the curtain to see how his law firm successfully represents his clients. Topics include: * Car Wreck Facts & Myths * The Scene Of The Crash * Investigating the Wreck * Property Damage: Total Losses, to Repairs, to Diminished Value * Your Injuries * Medical Treatment For Your Injuries * Medical Bills: Med-Pay Coverage, Health Insurance, and The Uninsured * The 3 Things You Must Prove To Recover On Your Personal Injury Claim * "What Is My Case Worth?" * Do I Take On the Insurance Company And Their Lawyers By Myself? * How Do I Find The Right Lawyer? * The DEMAND Process - How To Tell The Insurance Company What Your Case Is Worth! * Liens And Subrogation Claims: Who Will Claim They Are Entitled To Some (Or Maybe ALL Of Your Settlement) * Legal Deadlines * Litigation: Do You File Suit On Your Case? The book also contains a presentation that Mr. Hays gave to

other attorneys at a continuing education seminar for lawyers regarding diminished value claims in Georgia - a secret that is literally saving the insurance industry millions of dollars each year - money that should be going to Georgia's consumers. In addition, FREE bonus chapters from three (3) of his previous books that he co-authored are included: * "3 Secrets The Insurance Company Doesn't Want You To Know About Your Personal Injury Claim" * "The Mourning After: Helping Families Cope After A Drunk Driving Wreck" * "I Will Make A Difference!" Cross-border claims for personal injuries are becoming more common. Furthermore, European nationals increasingly join class actions in the USA. These tendencies have created a need to know more about the law of damages in Europe and America. Despite the growing importance of this subject, there is a dearth of material available to practitioners to assist them in advising their clients as to the heads of damage recoverable in other countries. This book aims to fill that gap by looking at the law in England, Germany and Italy. It sets out the raw data in the wider context of tort law, then provides a closer synthesis, largely concerned with methodological issues, and draws some comparative conclusions. Lanier's Texas Personal Injury Forms book, written by renowned personal injury attorney Mark Lanier of the Lanier Law Firm, will guide you through your entire PI case, soup to nuts. The chapters include: New Client/Initial Intake Pre-Litigation Personal Injury Protection (PIP) Benefits and Uninsured/Underinsured Motorist Petitions Pending Litigation Discovery Motions Arbitration and Mediation Trial Settlement and Post-trial From bestselling author Scott Turow comes Personal Injuries, a gripping, suspenseful, deeply satisfying novel about corruption, deceit, and love. Robbie Feaver (pronounced "favor") is a charismatic personal injury lawyer with a high profile practice, a way with the ladies, and a beautiful wife (whom he loves), who is dying of an irreversible illness. He also has a secret bank account where he occasionally deposits funds that make their way into the pockets of the judges who decide Robbie's cases. Robbie is caught by the Feds, and, in exchange for leniency, agrees to "wear a wire" as he continues to try to fix decisions. The FBI agent assigned to supervise him goes by the alias of Evon Miller. She is lonely, uncomfortable in her skin, and impervious to Robbie's charms. And she carries secrets of her own. As the law tightens its net, Robbie's and Evon's stories converge thrillingly. Scott Turow takes us into, the world of greed and human failing he has made immortal in Presumed Innocent, The Burden of Proof, Pleading Guilty, and The Laws of Our Fathers, all published by FSG. He also shows us enduring love and quiet, unexpected heroism. Personal Injuries is Turow's most reverberant, most moving novel-a powerful drama of individuals trying to escape their characters. Everyone has an opinion about personal injury litigation. Many people feel that the right to sue for injuries should be severely limited in hopes that insurance costs will decrease. Others fear that legislation enacted to restrict the right to sue will make big business, the insurance industry, and medical practitioners less accountable to the public. They also fear the loss of financial compensation for injuries caused by a negligent or careless act. In this book, I examine every aspect of personal injury litigation, from attracting new clients to jury trials, and beyond. The personal injury laws vary from state to state and between state and federal court. Since 1983, I have been a trial lawyer in Pennsylvania and New Jersey. Much of the information presented involves those experiences. The law in your state may be different. Nevertheless, there is much uniformity throughout the states. The information in this book can be used by personal injury litigants and their counsel in any state. You may have to refer to local sources for the law or practice that applies to your situation. The law is dynamic and ever-changing. It is flexible enough to accommodate a changing world. When the first automobile accident lawsuit was filed, the judge was not deterred by the fact that there were no automobile laws for guidance. The judge simply looked to the legal logic of horse-and-buggy cases. Similarly, when new technologies cause injuries in the future, the law will evolve to accommodate this. The federal and state legislatures constantly pass new laws. The courts rule every day on disputes that require interpretation of new laws and old. When a court decides a dispute, the court's ruling becomes precedent for the future. In other words, the interpretations that the judges dispense become the laws by which future litigants can be guided. This

concept is known by the Latin term *stare decisis*. Sample Forms and Worksheets A book like this one cannot possibly include every procedural requirement of every jurisdiction in our country. The sample forms provided are general in nature, but are designed to give you a good idea of the types of forms that are used in most locations. Your state, county, and/or judge will have rules and forms that are not included in this book. Check with the court clerk and/or court website for your case to review any local rules and forms that apply. Often, such forms require the same information as the forms in this book, and are merely laid out differently or use slightly different language. You must follow the court's rules and use its forms. When those forms conflict with mine, use theirs. The Lawyers' Guide to Personal Injury Law is an instructional textbook for attorneys who want to become experts in the field of negligence law. Paid search for personal injury lawyers is expensive and can cost hundreds of dollars per click. While paid search has a place and shouldn't be ignored, as a marketer, I have always believed in organic and local search. These channels, when used with a comprehensive strategy, can generate leads at a fraction of the cost. These are the channels that have allowed me to help law firms abandon sky-high spending on yellow pages ads and scale back expensive pay per click campaigns. This book is written for law firm owners, managers, and marketers that are looking to start their own firm or have been around for years. Even though some of the details in this book are aimed at new law firms, I still recommend you read those sections. ALL NEW 2nd EDITION! Originally created for personal injury law firm clients, this Personal Injury Journal was designed by Jamie Davis Whitmer (a litigation paralegal) as a tool to potentially increase the value of Plaintiffs' pain and suffering damages by logging and utilizing the power of specifics to help better portray the injured client as an individual instead of another set of medical records to feed into Colossus. The injured person should mark their pain on the pain diagrams on the left side of the book and then complete the prompts on the right side of the page that include the following topics: Doctor/Facility visited today; Treatments given / tests or future treatments ordered; How are you feeling today? How did your injuries affect your job today? Did your injuries affect your household duties or family life today? Did you miss any events/social activities today because of your injuries? Did you incur any costs today that were accident related? Other notes/things to do related to the accident. Besides the pain and suffering aspect, the journals also give the injured person a tool to keep track of all their doctors and note when they finish treatment. Know your rights!
