Victims in Criminal Procedure Douglas E. Beloof, Paul G. Cassell, Steven J. Twist, 2006 In the new and revised 2005 edition of this outstanding casebook authors Professor Doug Beloof Judge Paul Cassell and victims attorney Steven Twist review the expanding role of the crime victim in criminal procedure. Crime victims law has been neglected in the education of law students even though it represents the single greatest revolution in criminal procedure in the last twenty years. The book addresses that neglect and provides lively and provocative materials about how victims fit into the contemporary criminal justice process. The casebook examines the role of the crime victim from the early stages of the criminal process investigation and charging through pre trial discovery plea bargaining trial and sentencing. The book includes not only recent caselaw concerning crime victims rights but also law review articles victim impact statements and other interesting materials. The authors provide the perfect set of reading materials for a full course on victims law a seminar style discussion class or supplemental materials for a conventional criminal procedure course. A teacher's manual will be available. Every now and then a book comes along that can truly be said to be a landmark in its field. Victims in Criminal Procedure is such a book. **The Crime Victims Report on the First Edition** **Criminal Procedure**, 2016 **The Limits of the Criminal Sanction** Herbert Packer, 1968-06-01 The argument of this book begins with the proposition that there are certain things we must understand about the criminal sanction before we can begin to talk sensibly about its limits. First we need to ask some questions about the rationale of the criminal sanction. What are we trying to do by defining conduct as criminal and punishing people who commit crimes. To what extent are we justified in thinking that we can or ought to do what we are trying to do. Is it possible to construct an acceptable rationale for the criminal sanction enabling us to deal with the argument that it is itself an unethical use of social power. And if it is possible what implications does that rationale have for the kind of conceptual creature that the criminal law is. Questions of this order make up Part I of the book which is essentially an extended essay on the nature and justification of the criminal sanction. We also need to understand so the argument continues the characteristic processes through which the criminal sanction operates. What do the rules of the game tell us about what the state may and may not do to apprehend charge convict and dispose of persons suspected of committing crimes. Here too there is great controversy between two groups who have quite different views or models of what the criminal process is all about. There are people who see the criminal process as essentially devoted to values of efficiency in the suppression of crime. There are others who see those values as subordinate to the protection of the individual in his confrontation with the state. A severe struggle over these conflicting values has been going on in the courts of this country for the last decade or more. How that struggle is to be resolved is a second major consideration that we need to take into account before tackling the question of the limits of the criminal sanction. These problems of process are examined in Part II. Part III deals directly with the central

problem of defining criteria for limiting the reach of the criminal sanction Given the constraints of rationale and process examined in Parts I and II it argues that we have over relied on the criminal sanction and that we had better start thinking in a systematic way about how to adjust our commitments to our capacities both moral and operational

Performance Measures for the Criminal Justice System John J. DiIulio,1993 A Discussion paper from the BJS Princeton Project The Machinery of Criminal Justice Stephanos Bibas,2012-02-28 Two centuries ago American criminal justice was run primarily by laymen Jury trials passed moral judgment on crimes vindicated victims and innocent defendants and denounced the guilty But since then lawyers have gradually taken over the process silencing victims and defendants and in many cases substituting plea bargaining for the voice of the jury The public sees little of how this assembly line justice works and victims and defendants have largely lost their day in court As a result victims rarely hear defendants express remorse and apologize and defendants rarely receive forgiveness This lawyerized machinery has purchased efficient speedy processing of many cases at the price of sacrificing softer values such as reforming defendants and healing wounded victims and relationships In other words the U S legal system has bought quantity at the price of quality without recognizing either the trade off or the great gulf separating lawyers and laymen s incentives values and powers In The Machinery of Criminal Justice author Stephanos Bibas surveys the developments over the last two centuries considers what we have lost in our quest for efficient punishment and suggests ways to include victims defendants and the public once again Ideas range from requiring convicts to work or serve in the military to moving power from prosecutors to restorative sentencing juries Bibas argues that doing so might cost more but it would better serve criminal procedure s interests in denouncing crime vindicating victims reforming wrongdoers and healing the relationships torn by crime
