*The Dragon and the Dazzle* Marco Pellitteri, Jean-Marie Bouissou, Gianluca Di Fratta, Cristiano Martorella, Bounthavy Suvilay, 2010 In the worldwide circulation of the products of cultural industries an important role is played by Japanese popular culture in European contexts Marco Pellitteri shows that the contact between Japanese pop culture and European youth publics occurred during two phases By use of metaphor the author calls them the Dragon and the Dazzle The first took place between 1975 and 1995 the second from 1996 to today They can be distinguished by the modalities of circulation and consumption re elaboration of Japanese themes and products in the most receptive countries Italy France Spain Germany and across the ocean the United States During these two phases several themes have been perceived in Europe as rising from Japan's social and mediatic systems Among them this book examines the most apparent from a European point of view the author names them machine infant and mutation visible mostly through manga anime videogames and toys Together with France Italy is the European country that in this respect has had the most central role There Japanese imagination has been acknowledged not only by young people but also by politicians television programmers the general public educators comics and cartoons authors The growing influence of Japanese pop culture connected to the appreciation of its manga anime toys and videogames also urges political and mediologic questions linked to the identity issues of Japan as they are understood wrongly or rightly in Europe and the West and to the increasingly important role of Japan in international relations

**Portuguese Modernisms** Steffen Dix, 2017-07-05 For a more encompassing and stimulating picture of Modernism seen as a movement of the 20th century a broad spectrum of work across many countries we must explore its diversity Portuguese

Modernism manifested itself both in visual art and in literature and made a vigorous contribution to this time of profound cultural change. Indeed, the sociocultural transformations that marked the early 20th century in Portugal are still current. This volume provides a critical guide for students and teachers contributed by an array of scholars with unparalleled knowledge of the period, its artists, and its writers. Steffen Dix is Research Fellow at the Institute of Social Science, University of Lisbon. Jeronimo Pizarro is Research Fellow at the Linguistics Centre, University of Lisbon. European Cinema Thomas Elsaesser, 2005. European Cinema in Crisis examines the conflicting terminologies that have dominated the discussion of the future of European film making. It takes a fresh look at the ideological agendas from avant-garde cinema to the high-low culture debate and the fate of popular European cinema. Sur le Vif Hannelore Jarausch, Clare Tufts, 2021-03. The Monastic Grange in Medieval England Colin Platt, 1969. **Europe and Asia Beyond East and West** Gerard Delanty, 2012-03-21. This major new book tackles key questions on Europe in the context of shifting parameters of East and West. The contributors, sociologists, anthropologists, philosophers, and historians, show from a variety of different perspectives that the conventional equation of Europe with the West must be questioned. Featuring four thematically organized chapters, the book looks at a post-Western world. Asia in Europe, encounters in history between Europe and Asia, otherness in Europe and Asia, exploring new expressions of European self-understanding in a way that challenges recent ideological notions of the clash of civilizations. This outstanding work draws on recent scholarship that shows how Europe and Asia were mutually linked in history and in contemporary perspective. It argues that as a result of current developments and the changing geopolitical context, both Europe and Asia have much in common and that it is possible to speak of cosmopolitan links rather than clashes. This book will be of great value to students and researchers in the fields of sociology, European politics, and history and cultural theory. **The Age of International Radio** Elżbieta M. Olechowska, 2007. A significant contribution to our understanding of the role of media in the shaping of our age. International radio has been a very significant instrument in the evolution of media and as an instrument of foreign policy for many nations. It has also undergone major transformations over the past 50 or more years. Every major political power, many countries around the world, and many other quasi-national bodies and organizations such as the Vatican have used international radio to get their messages disseminated internationally. THE AGE OF INTERNATIONAL RADIO examines the many players, organizations, and national agencies which have been active in the arena of international radio. The volume unravels the many transformations and evolutions of international radio and focuses on Radio Canada International (RCI) which has been one of the prime players in the field. The intent of the volume, as the author states, is through a discussion of successive comparative and internal program evaluations to reveal, if not a full picture, at least a reasonable glimpse of the output of RCI and several international broadcast organizations during the last two decades. **The Black Poets** Dudley Randall, 1985-04-01 The claim of *The Black Poets* to being an anthology is that it presents the full range of Black American poetry from the slave songs to the present day It is important that folk poetry be included because it is the root and inspiration of later literary poetry Not only does this book present the full range of Black poetry but it presents most poets in depth and in some cases presents aspects of a poet neglected or overlooked before Gwendolyn Brooks is represented not only by poems on racial and domestic themes but is revealed as a writer of superb love lyrics Turning away from White models and returning to their roots has freed Black poets to create a new poetry This book records their progress from the Introduction by Dudley Randall

*Segregated Time* P. J. Brendese, 2023-06-16 When Martin Luther King Jr argued on behalf of civil rights he was told that he was too soon Today those demanding reparations for slavery are told they are too late What time is it Or perhaps the appropriate question is whose time is it These questions point to a phenomenon of segregated time how a range of political subjects are viewed as occupants of different time zones how experiences of time diverge across peoples and how these divergent temporal spheres are mutually entwined in ways that serve the interests of white supremacy In *Segregated Time* P J Brendese takes a time sensitive approach to race as it pertains to the acceleration of human disposability dynamic identity formation and the production and allocation of social and economic goods Although typically conceived in terms of space Brendese argues that racial segregation and inequality are also sustained through impositions on human time Drawing on a range of African Latinx and Indigenous political thought Brendese demonstrates the way in which time is weaponized against people of color and advances a theory of white time as a possessive acquisitive colonizing force The chapters explore how migration politics involves temporal borders how the extended lifetimes of some are built on the foreshortened lives of others how racial stigma conveys debt and subprime time and how whiteness functions as a store of credit through time In this innovative inquiry into contemporary orders of time and race *Segregated Time* examines who is regarded as behind the times who is cast out of time through racial violence who does time in the prison system and the racial divides of lives on borrowed time in an epoch of climate catastrophe
