James Bernard, Composer to Count Dracula Jun 06 2023 "This biography details Bernard's life from struggle to success. More than just a biography, however, it is also a meticulous examination of his music, including its intricate mechanisms and the many sources of Bernard's inspiration. Reviews of Bernard's work and reminiscences of the composer himself add depth and personal feeling to the biography"--Provided by publisher.

Messiaen's Explorations of Love and Death Oct 10 2023 Olivier Messiaen's lifelong quest centered on the colors and rhythms of a music that would serve as a vehicle for his thoughts about time, his love of God, and his enthusiasm for birdsong. An additional topic about which he felt deeply is that of passionate, fated human love and its relationship to death on the one hand, the love of God on the other. During the years 1936-1948, he composed five cycles of vocal music to his own texts as well as the Turangalila Symphony, the monumental centerpiece of his Tristan Trilogy. The focus of this study is the in-depth analysis and interpretation of these six works on love, with particular regard for their unusual wealth of poetic, sonic, and visual colors and imagery. The wonder of rainbows, the magic of exotic sounds, the fantastic attractiveness of surrealist representations, and the majestic inexorability of fate in myths of various times and cultures define Messiaen's lyrics as much as his idiosyncratic, highly symbolic musical language, which never fails to build bridges between this and another world.

Wild Blue Under Sep 28 2022 A wild race to the wild blue under... Rod Tritone, heir to the undersea Mer kingdom, has the looks and charm to have any mermaid he wants as his queen. He's always given up his own preferences in order to train for his future role. But apparently that isn't enough for the ruling Council. Prophecy decrees he marry a Mer Princess. The only problem is that the prophesied lost princess lives in the geographical—and utterly landlocked—center of the United States. Valerie Dumere has tried her hand at pretty much everything. She wasn't cut out to be a construction worker, any more than the zillion other jobs she's tried. Who is she supposed to be and what is she supposed to do with her life? Even running the oceans treasures gift shop she inherited is ironic, given that, thanks to a horrific childhood incident, Valerie is convinced she's deathly allergic to seawater. Then Rod Tritone shows up, insisting she has another side to herself that only he can show her. He's sexy, but is he also insane? If Rod fails in his quest, the kingdom he's worked so hard for will go to another. Accompanied by a seagull named Livingston, and chased by dive-bombing birds, Rod convinces Valerie to set off with him on a madcap, cross-country race to the sea. Can they make it in time to fulfill the prophecy? And how can Rod convince his ocean-phobic mermaid princess there's nothing to be afraid of—and love to be found—in the wild blue under?

A Practical Dictionary of the French and English Languages ... Jan 13 2024

The Oxford Dictionary of Music Mar 03 2023 Now available in paperback and with over 10,000 entries, the Oxford Dictionary of Music (previously the Concise Oxford Dictionary of Music) offers broad coverage of a wide range of musical categories spanning many eras, including composers, librettists, singers, orchestras, important ballets and operas, and musical instruments and their history. The Oxford Dictionary of Music is the most up-to-date and accessible dictionary of musical terms available and an essential point of reference for music students, teachers, lecturers, professional musicians, as well as music enthusiasts.

We Sinners May 25 2022 This stunning debut novel—drawn from the author's own life experience—tells the moving story of a family of eleven in the American Midwest, bound together and torn apart by their faith. The Rovaniemis and their nine children belong to a deeply traditional church (no drinking, no dancing, no TV) in modern-day Michigan. A normal family in many ways, the Rovaniemis struggle with sibling rivalry, parental expectations, and forming their own unique identities in such a large family. But when two of the children venture from the faith, the family fragments and a haunting question emerges: Do we believe for ourselves, or for each other? Each chapter is told from the distinctive point of view of a different Rovaniemi, drawing a nuanced, kaleidoscopic portrait of this unconventional family. The children who reject the church learn that freedom comes at the almost unbearable price of their close family ties, and those who stay struggle daily with the challenges of resisting the temptations of modern culture. With precision and potent detail, *We Sinners* follows each character on their journey of doubt, self-knowledge, acceptance, and, ultimately, survival.

The Art, Literature and Music of Solitude May 17 2024 This book presents a thematic analysis of various aspects of solitude, silence and loneliness, from the ancient world to the present day, explored thematically with consideration to the links between aloneness to other social and political issues. The themes include exile (expulsion from a community), ecstasy (getting 'out of oneself') and enstasy (being comfortable within oneself), to the Romantic idea of the artist as solitary. There is work on aloneness in and through nature, especially the importance of natural settings for positive experiences of solitude. A central theme is alienation and its emotions, with the idea of loneliness and the rejected self being a more modern experience. The book explores modernism and postmodernism as presenting new forms of solitude in the twentieth century, and how, more recently, there have been attempts to 'recover' the self, through therapeutic uses of the arts. All of these types and experiences of aloneness are described through the lenses of artistic, literary and musical forms of expression, as aloneness is not only explored and articulated through these art forms, but is in many ways created through these art forms.

Wonderland Feb 07 2021 *Wonderland* explores the hidden realities of life before and after the fall of the USSR. The story of Communism is the story of the 20th century. For many, the Soviet Union existed, like their childhood, as a fairy tale where many of the realities of life were hidden from plain view. When the Berlin Wall finally fell, so too did the illusion of that utopia. *Wonderland* is a photographic exploration that portrays both the reality beneath the veneer of a utopian USSR and the affirmation that hope that should never be abandoned.

Denver Jul 15 2021 *denver* and *What We Bought*, together with *The New West*, form a loose trilogy of Robert Adams's work exploring the rapidly developing landscape of the Denver metropolitan area from 1968 through 1974. In the former two books, Adams created a comprehensive document that was resolute in its avoidance of romantic notions of the American West and dispassionately honest about man's despoliation of the land. Both books demonstrate the artist at the height of his powers as a documentary photographer and a poetic sequencer of images. The photographs featured in *denver* and *What We Bought* show tract housing with mountain ranges in the distance, trailer lots devoid of people, suburban streets through generic windows, shopping mall interiors, and parking lots: subjects distinctly unspectacular, familiar, and banal. Adams's compositions are straightforward and democratic, and it is this precise turn from sentimentality that has made Adams one of the most influential figures in the history of American photography. These exquisite new editions, printed in rich tritones, celebrate this landmark work. *denver* also includes new and previously unpublished photographs from the project, chosen and sequenced by Adams himself. Distributed for the Yale University Art Gallery

Hollywood Harmony Oct 30 2022 Film music often tells us how to feel, but it also guides us how to hear. Filmgoing is an intensely musical experience, one in which the soundtrack structures our interpretations and steers our emotions. *Hollywood Harmony* explores the inner workings of film music, bringing together tools from music theory, musicology, and music psychology in this first ever book-length analytical study of this culturally central repertoire. Harmony, and especially chromaticism, is emblematic of the "film music sound," and it is often used to evoke that most cinematic of feelings—wonder. To help parse this familiar but complex musical style, *Hollywood Harmony* offers a first-of-its-kind introduction to neo-Riemannian theory, a recently developed and versatile method of understanding music as a dynamic and transformational process, rather than a series of inert notes on a page. This application of neo-Riemannian theory to film music is perfect way in for curious newcomers, while also constituting significant scholarly contribution to the larger discipline of music theory. Author Frank Lehman draws from his extensive knowledge of cinematic history with case-studies that range from classics of Golden Age Hollywood to massive contemporary franchises to obscure cult-films. Special emphasis is placed on scores for major blockbusters such as *Lord of the Rings*, *Star Wars*, and *Inception*. With over a hundred meticulously transcribed music examples and more than two hundred individual movies discussed, *Hollywood Harmony* will fascinate any fan of film and music.

Pig Earth Jun 13 2021 With this haunting first volume of his *Into Their Labours* trilogy, John Berger begins his chronicle of the eclipse of peasant cultures in the twentieth century. Set in a small village in the French Alps, *Pig Earth* relates the stories of skeptical, hard-working men and fiercely independent women; of calves born and pigs slaughtered; of summer haymaking and long dark winters of rest; of a message of forgiveness from a dead father to his prodigal son; and of the marvelous Lucie Cabrol, exiled to a hut high in the mountains, but an inexorable part of the lives of men who have known her. Above all, this masterpiece of sensuous description and profound moral resonance is an act of reckoning that conveys the precise wealth and weight of a world we are losing.

Progressive Rock Reconsidered Nov 11 2023 In this book, the glory days of progressive rock are relived in a series of insightful essays about the key bands, songwriters and songs that made prog-rock such an innovative style.

KISS THAT KILLED ME Nov 18 2021 When Callie Pierce turns 18 she has three very simple goals: avoid her stepfather, escape to an Ivy League university of her dreams, and party with her friends. But on a night like any other, when the moon is full over the ocean, her life changes in a way that no one could have ever seen coming. On the sandy beaches of San Diego she meets Orion, a man from whom she cannot stay away and to whom her return becomes as inevitable as the tide kissing the shore. If that isn't enough, a kiss which changes everything plunges Callie head first into a world of mythic responsibility, epic danger, and heart-stopping romance. The Mer, an ancient race of warriors brought forth to defend the seas, show her wonders beyond what is humanly possible, forcing her into an archaic chain of events that bring together power, seduction, violence, and beauty in a terrifying, yet exhilarating mix. Then there's the Banished to contend with, a group of Psirens corrupted by the oceans' abyss that stand to destroy the eternity Callie has been promised. Will she sacrifice herself for the greater good, or is the

gravity that pulls her to Orion just too great to bear?

Endless Enigma Apr 16 2024 "Throughout the 1970s, no style of popular music was more controversial than progressive rock, and no progressive rock band was more controversial than Emerson, Lake and Palmer. Initially attracting attention for their unusual keyboards-bass-drums configuration, ELP became hugely popular on both sides of the Atlantic. Fans saw ELP as fulfilling the promise of post-Beatles rock, imaginatively fusing rock, jazz, and classical elements with cutting-edge technology, breathtaking virtuosity, and a monumental stage show. Critics saw ELP as a bombastic assault on rock's working-class and oppositional roots. In this, Edward Macan unravels the enigma that is Emerson, Lake and Palmer."--BOOK JACKET.

Music in the Horror Film Aug 16 2021 Collects the essays that examine the effects of music and its ability to provoke or intensify fear in the genre of horror film, address the presence of music in horror films and their potency within them, and delve into the films like "The Exorcist", "The Shining", "The Sixth Sense", "Carnival of Souls" and "The Last House on the Left."

Rush and Philosophy Jun 18 2024 The progressive/hard rock band Rush has never been as popular as it is now. A documentary film about the band, Rush: Beyond the Lighted Stage, which was released in the summer of 2010 has been universally well received. They had a cameo in the movie I Love You Man. Their seven-part song "2112" was included in a version of "Guitar Hero" released in 2010. The group even appeared on The Colbert Report. Even legendary trios such as Led Zeppelin, Cream, and The Police don't enjoy the commitment and devotion that Rush's fans lavish on Alex, Geddy, and Neil. In part, this is because Rush is equally devoted to its fans. Since their first album in 1974, they have released 18 additional albums and toured the world following nearly every release. Today, when other 70s-bands have either broken up or become nostalgia acts, Rush continues to sell out arenas and amphitheatres and sell albums—to date Rush has sold over 40 million albums. They are ranked fourth after The Beatles, The Rolling Stones, and Aerosmith for the most consecutive gold or platinum albums by a rock band. Rush's success is also due to its intellectual approach to music and sound. The concept album 2112 made Rush a world-class band and cemented its reputation as the thinking-person's progressive rock trio. Rush's interest in political philosophy, mind-control, the nature of free-will, of individuality, and our relationship to machines makes Rush a band that matters and which speaks to its fans directly and honestly like no other. Lyricist Niel Peart has even built a following by writing books, both about his motorcycle travels and about the tragic death of his daughter, which have only furthered the respect Rush's fans have for (arguably) rock's greatest drummer and lyricist. Fiercely independent of trends, Rush has maintained a clear mission and purpose throughout their career. With the unique "Rush sound," the band has been able to blend thought-provoking lyrics and music for almost four decades. The Rush style of music can trigger the unusual combination of air-drumming, air-guitar, singing along, and fist-pumping, just as much as it can thoughtful reflection and deep thinking, making Rush "The Thinking Man's Band." Rush and Philosophy does not set out to sway the public's opinion, nor is it an awkward gushing of how much the authors love Rush. Rush and Philosophy is a fascinating look at the music and lyrics of the band, setting out to address thought-provoking questions. For example, elements of philosophical thinking from the likes of Jean Paul-Sartre, Ayn Rand, and Plato can be found in Peart's lyrics; does this make Peart a disciple of philosophy? In what ways has technology influenced the band through the decades? Can there be too much technology for a power-trio? Can listening to Rush's music and lyrics lead listeners to think more clearly, responsibly, and happily? Is the band's music a "pleasant distraction" from the singing of Geddy Lee? In what ways is Rush Canadian? How can a band that has been referred to as "right-wing" also criticize big government, religion, and imperialism? Rush and Philosophy is written by an assortment of philosophers and scholars with eclectic and diverse backgrounds who love Rush's music and who "get" the meaning and importance of it. They discuss Rush with the enthusiasm of fan. The book will be a must-read for the many fans who have long known that Rush deserves as much respect as the ideas, concepts, and puzzles about human existence they write and compose music about.

Guitar Arpeggio Encyclopedia Jun 25 2022 Throughout this book you will be exposed to many different types of arpeggios, their families, a horde of fingerings, how to use them and much more. with practice and patience you will be able to have total control on the fingerboard and you will be able to execute arpeggios with fire and finesse like the best players do. By understanding arpeggios it will immensely improve your improvising for song writing and soloing as well as creating majestic melodies and hooks. All of the material is presented in notation and tablature.

Understanding the Leitmotif May 13 2021 Through analysis, Matthew Bribitzer-Stull explores the legacy of the leitmotif, from Wagner's Ring cycle to present-day Hollywood film music.

The Origins of English Words Sep 16 2021 There are no direct records of the original Indo-European speech. By comparing the vocabularies of its various descendants, however, it is possible to reconstruct the basic Indo-European roots with considerable confidence. In The Origins of English Words, Shipley catalogues these proposed roots and follows the often devious, always fascinating, process by which some of their offshoots have grown. Anecdotal, eclectic, and always enthusiastic, The Origins of English Words is a diverting expedition beyond linguistics into literature, history, folklore, anthropology, philosophy, and science.

Brass Quarterly Nov 30 2022 Includes music.

Understanding the Leitmotif Apr 04 2023 The musical leitmotif, having reached a point of particular forcefulness in the music of Richard Wagner, has remained a popular compositional device up to the present day. In this book, Matthew Bribitzer-Stull explores the background and development of the leitmotif, from Wagner to the Hollywood adaptations of The Lord of The Rings and the Harry Potter series. Analyzing both concert music and film music, Bribitzer-Stull explains what the leitmotif is and establishes it as the union of two aspects: the thematic and the associative. He goes on to show that Wagner's Ring cycle provides a leitmotivic paradigm, a model from which we can learn to better understand the leitmotif across style periods. Arguing for a renewed interest in the artistic merit of the leitmotif, Bribitzer-Stull reveals how uniting meaning, memory, and emotion in music can lead to a richer listening experience and a better understanding of dramatic music's enduring appeal.
