## How We Feel Giovanni Frazzetto

*How We Feel* Giovanni Frazzetto, 2014-06-15 What can a brain scan or our reaction to a Caravaggio painting reveal about the deep seat of guilt How can reading Heidegger or conducting experiments on rats help us to cope with anxiety in the face of the world's economic crisis Can ancient remedies fight sadness more effectively than antidepressants What does the neuroscience of acting tell us about how we feel empathy and fall for an actor on stage What can writing poetry tell us about how joy works And how can a bizarre neurological syndrome or a Shakespearean sonnet explain love and intimacy We live at a time when neuroscience is unlocking the secrets of our emotions But is science ever enough to explain why we feel the way we feel Giovanni Frazzetto takes us on a journey through our everyday lives and most common emotions In each chapter his scientific knowledge mixes with personal experience to offer a compelling account of the continual contrast between rationality and sentiment science and poetry And he shows us that by facing this contrast we can more fully understand ourselves and how we feel

**Joy, Guilt, Anger, Love** Giovanni Frazzetto, 2014-02-25 Neuroscientist Giovanni Frazzetto enters the restless realm of human emotion through the portals of physiology genetics history art and philosophy Anger guilt anxiety grief empathy joy and love are anatomized in turn enlivened with research on everything from the role of monoamine oxidase A in anger to the engagement of opioid receptors as we thrill to music And who knew that surrealist Salvador Dali created an art installation in the shape of a giant caterpillar to explore the process of sedation Nature Is science ever enough to explain why we feel the way we feel In this engaging account renowned neuroscientist Giovanni Frazzetto blends cutting edge scientific research with personal stories to reveal how our brains generate our emotions He demonstrates that while modern science has expanded our knowledge investigating art literature and philosophy is equally crucial to unraveling the brain's secrets What can a brain scan or our reaction to a Caravaggio painting reveal about the deep seat of guilt Can ancient remedies fight sadness more effectively than antidepressants What can writing poetry tell us about how joy works Structured in seven chapters encompassing common human emotions anger guilt anxiety grief empathy joy and love *Joy Guilt Anger Love* offers a way of thinking about science and art that will help us to more fully understand ourselves and how we feel

**Why Torture Doesn't Work** Shane O'Mara, 2015-11-30 Torture is banned because it is cruel and inhumane But as Shane O'Mara writes in this account of the human brain under stress another reason torture should never be condoned is because it does not work the way torturers assume it does In countless films and TV shows such as *Homeland* and *24* torture is portrayed as a harsh necessity If cruelty can extract secrets that will save lives so be it CIA officers and others conducted torture using precisely this justification But does torture accomplish what its defenders say it does For ethical reasons there are no scientific studies of torture But neuroscientists know a lot about how the brain reacts to fear extreme temperatures starvation thirst sleep deprivation and immersion in freezing water all tools of the torturer's trade These stressors create

problems for memory mood and thinking and sufferers predictably produce information that is deeply unreliable and for intelligence purposes even counterproductive As O Mara guides us through the neuroscience of suffering he reveals the brain to be much more complex than the brute calculations of torturers have allowed and he points the way to a humane approach to interrogation founded in the science of brain and behavior Torture may be effective in forcing confessions as in Stalin s Russia But if we want information that we can depend on to save lives O Mara writes our model should be Napoleon It has always been recognized that this way of interrogating men by putting them to torture produces nothing worthwhile
