El valor de educar Fernando Savater, 1997 *Para transformar la educación* Leonardo Carvajal, 2000 El valor de elegir Fernando Savater, 2003 Preguntarse por la libertad es hacerlo a la razón y al corazón de nuestra vida Reconocer el valor de ser sentirse y vivir libre es reconocerse como humano y por ello aceptar el compromiso feliz e inexcusable del esfuerzo continuado Una tarea para toda la vida Es el tema de este libro Para empezar ingenuamente puede plantearse ¿en qué consiste la libertad Existe realmente la libertad es algo que tengo antes de saberlo algo que sólo adquiero al saber que lo tengo o algo que para tenerlo debo renunciar a saber con precisión ¿qué es Soy capaz de libertad o soy libertad y por ello capaz de ser humano Y tantas tantas demasiadas preguntas En la primera parte se intenta una antropología a partir de la libertad es decir considerando la libertad como diferencia específica del género humano Cuestiones sobre la elección voluntario e involuntario la intención el azar ayudar a comprender ¿qué es En la segunda parte se presenta un breve repertorio de opciones libres argumentadas destinadas a comprometer las abstracciones de la primera con la peripecia actual que vivimos y en la que somos Se ofrecen algunas como unos ejercicios de libertad Es una invitación a continuar pensando y repensando La filosofía nunca es para mí la cancelación definitiva que nos permite salir de dudas sino el acicate que nos arroja a ellas permitiéndonos vivir con dignidad inteligente en la ausencia de certidumbres absolutas F Savater Amador Fernando Savater, 2014-09-30 In Amador Fernando Savater writes in the form of a letter to his teenage son about ethics morals and freedom in today's society *Lizard Tails* Juan Marsé, 2003 Explores the experiences of the adolescent David son of a Spanish Republican family Throughout the novel various members of the family are still recovering from defeat in Spain's harrowing Civil War while the rest of the world is turned upside down by World War Two The End of the Rainbow Susan Engel, 2015-02-03 Amid the hype of Race to the Top online experiments such as Khan Academy and bestselling books like *The Sandbox* Investment we seem to have drawn a line that leads from nursery school along a purely economic route with money

as the final stop But what price do we all pay for the increasingly singular focus on wage as the outcome of education Susan Engel a leading psychologist and educator argues that this economic framework has had a profound impact not only on the way we think about education but also on what happens inside school buildings The End of the Rainbow asks what would happen if we changed the implicit goal of education and imagines how different things would be if we made happiness rather than money the graduation prize Drawing on psychology education theory and a broad range of classroom experiences across the country Engel offers a fascinating alternative view of what education might become teaching children to read books for pleasure and self expansion and encouraging collaboration All of these new skills she argues would not only cultivate future success in the world of work but also would make society as a whole a better happier place Accessible to parents and teachers alike The End of the Rainbow will be the beginning of a new more vibrant public conversation about what the future of American education should look like

Economía de la Educación Esteve Oroval Planas, Esteve Oroval, Josep Oriol Escardíbul Ferrá, 1998-11-09 En este libro se analizan diversos aspectos relacionados con la Economía de la Educación En primer lugar tras una breve introducción se describen las aportaciones realizadas por diversos autores y escuelas de pensamiento sobre la materia con la teoría del capital humano y las críticas realizadas sobre ella en el centro del análisis Posteriormente se proporciona una serie de datos referidos a la situación de la educación en España y la Unión Europea así como su influencia en dichos mercados laborales En segundo lugar se trata la cuestión del efecto de la educación sobre el crecimiento económico indicando las aportaciones teóricas y los estudios empíricos más relevantes Posteriormente se analizan los costes y la financiación de los distintos niveles educativos considerando también aspectos teóricos y empíricos Este libro pretende en la línea de la serie en que se enmarca proporcionar algunos conocimientos teóricos y datos empíricos para acercar al lector al campo de la Economía de la Educación

Childhood Regained Fernando Savater, 1982 This is a collection of chapters each on a favorite book or author of Savater's and each book or author is an example of an archetype of literature Savater does not write academic analysis but as someone who reads and loves literature He recalls the enthusiasm of a child reading a good story for the first time and he recalls the stories he has re-read and remembered

Schopenhauer's Porcupines Deborah Anna Luepnitz, 2008-08-04 The classic compilation of psychological case studies from a master clinician and lyrical writer Each generation of therapists can boast of only a few writers like Deborah Luepnitz whose sympathy and wit shine in her fine luminous prose In Schopenhauer's Porcupines she recounts five true stories from her practice stories of patients who range from the super rich to the destitute who grapple with panic attacks psychosomatic illness marital despair and sexual recklessness Intimate original and triumphantly funny Schopenhauer's Porcupines goes further than any other book in illuminating how talking helps

El Valor d'educar Fernando Savater, 2004 Sempre que es debaten les grans inquietuds del nostre temps el recisme la intolerància la violència l'abús de drogues etc s'arriba a la mateixa conclusió: qüestions que s'han d'afrontar des de l'escola Per també sabem que a gairebé tots els p
