Brief focuses on strategies for innovation Top Down Innovation discusses the barriers to successful organizational and
product innovation distills the leading theories about how to foster innovation and presents six case studies of well known
brands that have succeeded and in one case failed in meeting innovation challenges Synthesizing the lessons learned from
companies that have mastered innovation over time it provides a new perspective on the role of market leading companies
and top management in driving innovation Since the publication of Clayton Christensen s pioneering Innovator s Dilemma in
1997 the rules of innovation have themselves been transformed Today innovation frequently starts at the CEO level with a
vision that percolates throughout the organization In contrast to traditional theories of technology disruption new market
entrants and business model innovation this study concludes that vision and leadership at the top is a decisive factor in
