The Archetypal Pan in America Sukey Fontelieu, 2018-05-20 The Archetypal Pan in America examines the complex moral and ethical dilemmas that Americans have had to face over the last few decades including the motivations for the Vietnam War who was in control of women's productive rights how to extend civil rights to all protests for the historically unapologetic narrative of the genocide of Native Americans and the growing number of school shootings since the Columbine massacre Fontelieu suggests that the emotional pain these issues created has not resolved and that it continues to surface in the guise of new issues but with a similar dysfunctional pattern The book argues that this pattern acts in the culture in the same manner as a psychological defense system stimulating fight flight or freeze reactions requiring great stores of energy when activated and deflecting attention from other areas Relying on Jung's theory of the applicability of myth to psychological problems and the post Jungian theory of cultural complexes the myths of the Greek god Pan are used to scaffold a metaphor that informs this pattern Fontelieu proposes that rather than looking inward as a culture for how to accept its changing role in a global world this pattern reinforces dysfunctional emotional responses to the reoccurring traumas of modernity responses such as an increase in the magnetic appeal of hypermasculinity or choosing to remain naively self absorbed The Archetypal Pan in America will be of great interest to Jungian analysts and scholars of depth psychology as well as academics and postgraduate students studying psychology foreign studies literary criticism politics and cultural studies

Koocher, Patricia Keith-Spiegel, 2016 Revised edition of the authors Ethics in psychology and the mental health professions 2008 *Parsimony and Other Radical Ideas About Justice* Jeremy Travis, Bruce Western, 2023-02-21 How to envision a justice system that combines the least possible punishment with the greatest possible healing from an all star cast of contributors An extraordinary and long overdue collection offering myriad ways that we can and must completely overhaul the way we imagine as well as implement justice Heather Ann Thompson historian and Pulitzer Prize winning author of *Blood in the Water* After decades of overpolicing and ever more punitive criminal justice measures the time has come for a new approach to violence and community safety *Parsimony and Other Radical Ideas About Justice* brings together leading activists legal practitioners and researchers many of them justice involved to envision a justice system that applies a less is more framework to achieve the goal of public safety Grounded in a new social contract heralding safety not punishment community power not state power the book describes a paradigm shift where justice is provided not by police and prisons but in healing from harm A distinguished cast of contributors from the Square One Project at Columbia University's Justice Lab shows that a parsimonious approach to punishment alongside a reckoning with racism and affirming human dignity would fundamentally change how we respond to harm We would encourage mercy in the face of violence replace police with community investment address the trauma lying at the heart of mass incarceration reduce pre trial incarceration close the democracy gap between community residents and government policymakers and eliminate youth prisons among other significant changes to justice policy **Education and Immigration** Grace Kao, Elizabeth Vaquera, Kimberly Goyette, 2013-04-03 Education is a crucially important social institution closely correlated with wealth occupational prestige psychological well being and health outcomes Moreover for children of immigrants who account for almost one in four school aged children in the U S it is the primary means through which they become incorporated into American society This insightful new book explores the educational outcomes of post 1965 immigrants and their children Tracing the historical context and key contemporary scholarship on immigration the authors examine issues such as structural versus cultural theories of education stratification the overlap of immigrant status with race and ethnicity and the role of language in educational outcomes Throughout the authors pay attention to the great diversity among immigrants some arrive with PhDs to work as research professors while others arrive with a primary school education and no English skills to work as migrant laborers As immigrants come from an ever increasing array of races ethnicities and national origins immigrant assimilation is more complex than ever before and education is central to their adaptation to American society Shedding light on often misunderstood topics this book will be invaluable for advanced undergraduate and beginning graduate level courses in sociology of education immigration and race and ethnicity **Why Race Still Matters** Alana Lentin, 2020-04-22 Why are you making this about race This question is repeated daily in public and in the media Calling

someone racist in these times of mounting white supremacy seems to be a worse insult than racism itself In our supposedly post racial society surely it s time to stop talking about race This powerful refutation is a call to notice not just when and how race still matters but when how and why it is said not to matter Race critical scholar Alana Lentin argues that society is in urgent need of developing the skills of racial literacy by jettisoning the idea that race is something and unveiling what race does as a key technology of modern rule hidden in plain sight Weaving together international examples she eviscerates misconceptions such as reverse racism and the newfound acceptability of race realism bursts the I m not racist but justification complicates the common criticisms of identity politics and warns against using concerns about antisemitism as a proxy for antiracism Dominant voices in society suggest we are talking too much about race Lentin shows why we actually need to talk about it more and how in doing so we can act to make it matter less
