Every nursing job interview is different, but over the years many typical nursing interview questions have been asked.

We've compiled a list of the most common nursing interview questions you're likely to be asked whether you are applying for your first job as an LPN or LVN or whether you're wanting to move to a different hospital as an RN or NP.

Although we have supplied answers to these typical nursing interview questions, they are really just guides. You should adapt the answers to your particular situation and the type of nursing job that you are applying for.

You can find more comprehensive guide for the most common nursing interview questions from this extremely well reviewed guide "Cracking the Nursing Interview" by Jim Keogh [here](#), which I can recommend.

Q1: What made you choose nursing as a career?

A: I've always loved nursing, but my interest in healthcare really started when I volunteered at a homeless shelter in college. This really inspired me to pursue a career where I could devote my time to looking after others. The more times I volunteered, the more I knew that nursing was what I really wanted to do.

I wanted to do something that is challenging, interesting and make's a real difference in people's lives. I feel very passionate about the healthcare profession and also see it as a way of contributing positively to society.

My mother was a nurse and when I was growing up I saw the satisfaction she gained by helping others. This also contributed very greater to my interest in pursuing nursing as a career.
