German Northern Theater of Operations 1940-1945 [Illustrated Edition] Earl Ziemke, 2015-11-06 Includes 23 maps and 31 illustrations This volume describes two campaigns that the Germans conducted in their Northern Theater of Operations The first they launched on 9 April 1940 against Denmark and Norway The second they conducted out of Finland in partnership with the Finns against the Soviet Union The latter campaign began on 22 June 1941 and ended in the winter of 1944 45 after the Finnish Government had sued for peace The scene of these campaigns by the end of 1941 stretched from the North Sea to the Arctic Ocean and from Bergen on the west coast of Norway to Petrozavodsk the former capital of the Karelo Finnish Soviet Socialist Republic It faced east into the Soviet Union on a 700 mile long front and west on a 1 300 mile sea frontier Hitler regarded this theater as the keystone of his empire and after 1941 maintained in it two armies totaling over a half million men In spite of its vast area and the effort and worry which Hitler lavished on it the Northern Theater throughout most of the war constituted something of a military backwater The major operations which took place in the theater were overshadowed by events on other fronts and public attention focused on the theaters in which the strategically decisive operations were expected to take place Remoteness German security measures and the Russians well known penchant for secrecy combined to keep information concerning the Northern Theater down to a mere trickle much of that inaccurate Since the war through official and private publications a great deal more has become known The present volume is based in the main on the greatest remaining source of unexploited information the captured German military and naval records In addition a number of the participants on the German side have very generously contributed from their personal knowledge and experience

The Soviet Partisan Movement, 1941-1944 Edgar M. Howell,2014-08-15 The purpose of this text is to provide the Army with a factual account of the organization and operations of the Soviet resistance movement behind the German forces on the Eastern Front during World War II This movement offers a particularly valuable case study for it can be viewed both in relation to the German occupation in the Soviet Union and to the offensive and defensive operations of the Wehrmacht and the Red Army The scope of the study includes an over all picture of a quasi military organization in relation to a larger conflict between two regular armies It is not a study in partisan tactics nor is it intended to be German measures taken to combat the partisan movement are sketched in but the story in large part remains that of an organization and how it operated The German planning for the invasion of Russia is treated at some length because many of the circumstances which favored the rise and development of the movement had their bases in errors the Germans made in their initial planning The operations of the Wehrmacht and the Red Army are likewise described in considerable detail as the backdrop against which the operations of the partisan units are projected Because of the lack of reliable Soviet sources the story has been told much as the Germans recorded it German documents written during the course of World War II constitute the principal sources but many survivors who had experience in Russia have made important contributions based upon their personal experience
