

## IELTS Writing Task 2

You should spend about 40 minutes on this task. Write about the following topic:

*An increase in the production of consumer goods results in damage to the natural environment.*

*Why is this the case? What can be done to solve the problem?*

Give reasons for your answer and include any relevant examples from your own knowledge or experience.

Write at least 250 words.

Christina Sanchez-Stockhammer, 2018-05-03. Anyone writing texts in English is constantly faced with the unavoidable question: whether to use open spelling, hyphenation, or solid spelling. For individual compounds, while some compounds commonly occur with alternative spellings, others show a very clear bias for one form. This book tests over 60 hypotheses and explores the patterns underlying the spelling of English compounds from a variety of perspectives. Based on a sample of 600 biconstituent compounds with identical spelling in all reference works in which they occur, 200 each with open, hyphenated, and solid spelling, this empirical study analyses large amounts of data from corpora and dictionaries and concludes that the spelling of English compounds is not chaotic but actually correlates with a large number of statistically significant variables. An easily applicable decision tree is derived from the data, and an innovative multi-dimensional prototype model is suggested to account for the results. **IELTS Writing (Academic): 100 Solved Task 1 + Task 2 Latest Edition**
