Regulation Jerry Brito, Susan E. Dudley, 2012-08-13 Federal regulations affect nearly every area of our lives and interest in them is increasing. However, many people have no idea how regulations are developed or how they have an impact on our lives. *Regulation A Primer* by Susan Dudley and Jerry Brito provides an accessible overview of regulatory theory, analysis, and practice. The Primer examines the constitutional underpinnings of federal regulation and discusses who writes and enforces regulation and how they do it. Published by the Mercatus Center at George Mason University, it also provides insights into the different varieties of regulation and how to analyze whether a regulatory proposal makes citizens better or worse off. Each chapter discusses key aspects of regulation and provides further readings for those interested in exploring these topics in more detail.

Aviation Policy Framework Great Britain: Department for Transport, 2013-03-22 In July 2012 the Government consulted on its strategy for aviation, the draft Aviation Policy Framework. This final Aviation Policy Framework will fully replace the 2003 Air Transport White Paper Cm 6046 ISBN 9780101604628 on aviation alongside Government decisions following the recommendations of the Independent Airports Commission established September 2012. The Aviation Policy Framework is underpinned by two core principles: i) Collaboration achieved by working together with industry, regulators, experts, and local communities to identify workable solutions; ii) Transparency in decision making based on clear, independent information and processes. The Framework Policy covers the following areas: 1) Supporting growth and benefits of aviation; 2) Managing aviation's environmental impacts such as climate change and noise pollution; 3) The role of the Airports Commission; 4) Other aviation objectives including protecting passenger rights, competition, and regulation policy, airspace safety, security, and planning.
