What to Do When the Bubble Pops Harry S. Dent Jr., 2020-03-19 THE DOWNTURN IS HERE Harry Dent has been predicting for some time that we are about to enter a prolonged downturn one that will be looked at by historians as a classic economic depression due to demographic factors one of the largest generations in history the baby boomers are leaving the workplace either due to planned retirement or involuntarily due to layoffs or not being able to find work which will have a profound impact on all sectors of our economy This economic downturn could have been swifter and the pain much less had the Fed allowed it to happen naturally However due to several rounds of quantitative easing essentially pumping free money into the economy the Fed has not only delayed the inevitable but they have ensured that the downturn will be much longer and much more severe than it could have been Harry Dent believes that the Fed cannot keep the bubble from popping much longer and when it does pop every individual will need to be prepared for a period he calls an economic winter In this book you ll learn the personal and business strategies that will be essential to protect and preserve your assets and the few areas of the economy that will still do well during this winter period This is essential reading for everyone especially during a crisis
