This book offers a great deal of practical advice to students about how to select a topic, how to structure the term paper task, how to find and use sources, how to cite materials, and how to write the paper. George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Politics and the English Language, the second in the Orwell's Essays series, Orwell takes aim at the language used in politics, which, he says, 'is designed to make lies sound truthful and murder respectable, and to give an appearance of solidity to pure wind'. In an age where the language used in politics is constantly under the microscope, Orwell's Politics and the English Language is just as relevant today, and gives the reader a vital understanding of the tactics at play. In *Writing Anthropology*, fifty-two anthropologists reflect on scholarly writing as both craft and commitment. These short essays cover a wide range of territory, from ethnography, genre, and the politics of writing to affect, storytelling, authorship, and scholarly responsibility. Anthropological writing is more than just communicating findings: anthropologists write to tell stories that matter, to be accountable to the communities in which they do their research, and to share new insights about the world in ways that might change it for the better. The contributors offer insights into the beauty and the function of language and the joys and pains of writing while giving encouragement to stay at it—to keep writing as the most important way to not only improve one's writing but to also honor the stories and lessons learned through research. Throughout, they share new thoughts, prompts, and agitations for writing that will stimulate conversations that cut across the humanities.

"As you turn the pages of this novel and get lost in Dana's story, allow yourself to relive the horrors of slavery....Allow yourself to know the pain of our nation's past."—Tomi Adeyemi, New York Times bestseller and Hugo and Nebula award-winning author, from the new foreword This brand new package for young adults includes a redesigned interior for better readability, specially commissioned cover art by Carlos Fama, metallic stock

cover, and spot gloss on cover elements “I lost an arm on my last trip home. My left arm.” Dana’s torment begins when she suddenly vanishes on her 26th birthday from California, 1976, and is dragged through time to antebellum Maryland to rescue a boy named Rufus, heir to a slaveowner’s plantation. She soon realizes the purpose of her summons to the past: protect Rufus to ensure his assault of her Black ancestor so that she may one day be born. As she endures the traumas of slavery and the soul-crushing normalization of savagery, Dana fights to keep her autonomy and return to the present. Blazing the trail for neo-slavery narratives like Colson Whitehead’s *The Underground Railroad* and Ta-Nehisi Coates’s *The Water Dancer*, Butler takes one of speculative fiction’s oldest tropes and infuses it with lasting depth and power. Dana not only experiences the cruelties of slavery on her skin but also grimly learns to accept it as a condition of her own existence in the present. “Where stories about American slavery are often gratuitous, reducing its horror to explicit violence and brutality, *Kindred* is controlled and precise” (New York Times). “Reading Octavia Butler taught me to dream big, and I think it’s absolutely necessary that everybody have that freedom and that willingness to dream.” —N. K. Jemisin

Academic writing is a task that students, especially in the social sciences, engage in very frequently during the course of their studies. They have to compose essays, research reports, term papers etc., which, besides being the basis for students' evaluation, are to prepare them for their professional careers later in life. For those who will stay in the field, writing is going to be a major activity. At university a student's writing skills set him or her apart from other students in the eyes of the professor, but there is no real competition; all papers will be read by the instructors. In the professional world, however, with an abundance of academic texts and with limited time, only those articles will get attention that, besides containing profound reasoning, are at the same time well written, i.e. conveniently structured, precise, short, well formulated etc. This paper is part of a study on academic writing conducted within the seminar "Academic Discourse". The study examines students' works with regard to the authors' writing skills.
