success or failure of an organisation Passion is identified as an added value that can differentiate one organisation from another If passion is harmed it can affect motivation creativity output performance and productivity Therefore this book provides the reader with examples of passion killing while making suggestions as to factors that can be adopted to engage and encourage passion Conclusions are drawn and recommendations made to support those faced with passion killers This book is aimed at those of all ages and educational backgrounds interested in developing their leadership knowledge and skills It is also aimed at those interested in learning more about differences in personality emotional intelligence stress coping values and the importance of understanding the impact of passion killers Medieval Bourn David Baxter,2008
