Divine Knowledge Jul 23 2022 In an original and compelling examination of traditional mathematics, this comprehensive study of the anonymous "Manual of Mongolian Astrology and Divination" (published by A. Mostaert in 1969) takes on the fundamental problem of the post-enlightenment categorization of knowledge, in particular the inherently problematic realms of religion and

science, as well as their subsets, medicine, ritual, and magic. In the process of elucidating the rhetoric and logic shaping this manual the author reveals not only the intertwined intellectual history of Eurasia from Greece to China but also dismantles many of the discourses that have shaped its modern interpretations.

Manual de nutrición clínica y dietética Jun 02 2023 El presente manual no pretende ser un libro de texto sobre Nutrición donde abordan todos los temas referentes al área, si no una herramienta de trabajo con una orientación eminentemente práctica, que permita resolver situaciones concretas. Por ello, su tamaño está pensado para llevarlo en el "bolsillo de bata" o para tenerlo a mano en las consultas o salas de trabajo de los profesionales sanitarios. Además, en esta edición, los contenidos pueden ser consultados también "online" lo que facilita tenerlo a "mano" en los dispositivos móviles. En una primera sección el manual aborda conceptos básicos sobre Dietética (recomendaciones nutricionales para la población

general, hospitalaria y para diferentes patologías) y en una segunda parte la Terapia Médica Nutricional en todos sus aspectos: desde el cribado y valoración integral del estado nutricional y funcional, las indicaciones y contraindicaciones del tratamiento, el cálculo de requerimientos y una guía práctica para la prescripción y seguimiento del soporte nutricional enteral y parenteral, tanto a nivel hospitalario como ambulatorio. Todos los capítulos han sido revisados en base a la mejor evidencia disponible, los anexos se han actualizado y se han incluido dos nuevos capítulos que completan dos aspectos relacionados con la DRE (la valoración clínica de la disfagia y la prescripción de ejercicio terapéutico).
