Student Exploration: Density

Directions: Follow the instructions to go through the simulation. Respond to the questions and prompts in the orange boxes.

Vocabulary: density, mass, matter, volume

Prior Knowledge Questions (Do these BEFORE using the Gizmo.)

- List three objects that you think would sink in water, and three objects you think would float.

Sink:

An egg, a penny, and a rock.

Float:

A ping pong ball, an air-filled balloon, a boat

- Why do you think some things float and some things sink?

Some things float and some things sink because it all depends on how much matter is inside the object that you're using.

Gizmo Warm-up

- In the Gizmo, drag the **apple** onto the **Scale**. The scale measures **mass**. Mass is the amount of **matter**, or "stuff," in an object.

What is the apple's mass? (Note: "g" stands for grams.)

33g

- An object's **volume** is the amount of space it takes up. The volume of an object can be measured by using a **graduated cylinder**. Observe the graduated cylinder and the blue text showing the volume of water inside the cylinder.

A. What is the starting volume of water in the graduated cylinder?

400mL

B. Place the apple into the cylinder. What is the volume in the cylinder now?

444mL

The water rises in the cylinder because it is displaced, or pushed upward, by the apple. The amount of displaced water is equal to the volume of the apple.

C. What is the volume of the apple? (Use the **Object volume** to check.)

44cm³

Note: Milliliters (mL) are used for liquid volumes, while cubic centimeters (cm³) are used for solids. One mL is the same volume as one cm³. The apple's volume is measured in cm³.

Using Technology with Classroom Instruction That Works Howard Pitler, Elizabeth R. Hubbell, Matt Kuhn, 2012-08-02
Technology is ubiquitous and its potential to transform learning is immense The first edition of Using Technology with Classroom Instruction That Works answered some vital questions about 21st century teaching and learning What are the best ways to incorporate technology into the curriculum What kinds of technology will best support particular learning tasks and objectives How does a teacher ensure that technology use will enhance instruction rather than distract from it This revised and updated second edition of that best selling book provides fresh answers to these critical questions taking into account the enormous technological advances that have occurred since the first edition was published including the proliferation of social networks mobile devices and web based multimedia tools It also builds on the up to date research and instructional planning framework featured in the new edition of Classroom Instruction That Works outlining the most appropriate technology applications and resources for all nine categories of effective instructional strategies Setting objectives and providing feedback Reinforcing effort and providing recognition Cooperative learning Cues questions and advance organizers Nonlinguistic representations Summarizing and note taking Assigning homework and providing practice Identifying similarities and differences Generating and testing hypotheses Each strategy focused chapter features examples across grade levels and subject areas and drawn from real life lesson plans and projects of teachers integrating relevant technology in the classroom in ways that are engaging and inspiring to students The authors also recommend dozens of word processing applications spreadsheet generators educational games data collection tools and online resources that can help make lessons more fun more challenging and most of all more effective

The Chicken Qabalah of Rabbi Lamed Ben Clifford Lon Milo DuQuette, 2010-07-01
A unique and humorous and also practical approach to the increasingly popular study of Qabalah This is a seriously funny book Traditional Qabalistic or Cabalistic or indeed Kabbalistic read this book to find out what the difference is we know you ve always wondered sources tend to be a bit er dry DuQuette spices up the Qabalah and makes it come alive restoring the joy of learning the fundamentals of this admittedly arcane system by using simple amusing anecdotes and metaphors This account written psuedepigraphically fictitiously attributed to a supposed authority allows DuQuette as Rabbi Lamed Ben Clifford to soar to outrageous heights and when necessary stand apart from the silliness to highlight the golden eggs of Qabalistic wisdom nested therein Sure to be a revelation to those who think that learning about the Qabalah needs to be tedious and serious DuQuette shows that great truths can be transmitted through the medium of laughter
