Romanticism is one of the most important historical events of all time. Unlike a lot of what gets called history romanticism isnt a war or a piece of technology or political event. (school of life.com). It refers to the birth of new set of ideas; its about a mindset and way of feeling. This essay will provide an analysis of the most effective phrases found in the nutting, I will also show how these are relevant to us today, this poem has two elements such as nature and human psyche. (Moodle)

In William Wordsworths nutting, in the first stanza the theme is nature ,William Wordsworth is carrying a huge wallet or a bag and a nutting-crook this is an implement used to harvest hazelnuts .William recalls how he chose to go about the farm from home to a distant woods while he walks ,he also imagine his very own appearance as being quaint and interesting. William Wordsworth is covered in a disguise of cost-off weeds. it seems a day this suggest that William Wordsworth was reflecting and remembering the past events and remembering a day he shall not forget as he leaves his cottage and headed to the woods, this is relevant to us today because till today there are events in which took place in the past and yet they are not forgotten ,they are remembered such as Apartheid where blacks lost their land but today blacks are fighting to get back the land.(www.school of life)

William Wordsworth was found moving oer the pathless rocks searching for his treasure. The dear nook unvisited keep a sense of purity and magic in the surroundings and William Wordsworth enjoy the natural setting of nature and more animalistic desires. but the hazels rose tall and erect, with milk-white clusters hung. A virgin scene!. the sexual imagery is strong in this passage maybe Wordsworth is presenting a desire of man to quell the land and its vulnerability personified here. One of the themes in the poem is The idealization of childhood in the eagerness of boyish hope William Wordsword enjoy the beauty of the scene and eat the nuts until his young mind had enough, this clearly depict that William enjoy and missed his childhood .this is relevant today because some of us still enjoy childhood memories and sometimes think about them often and wish to go back to that stress free life. wary of using the word fact Fact has the feeling of absoluteness and universality whereas scientific observations are neither absolute nor universal For example children have 20 deciduous baby teeth is an observation about the real world but scientists would not call it a fact Some children have fewer deciduous teeth and some have more Even those children who have exactly 20 deciduous teeth use the full set during only a part of their childhood When they are babies and toddlers children have less than 20 visible teeth and as they grow older children begin to lose their deciduous teeth which are then replaced by permanent teeth Children have 20 deciduous baby teeth is not even a complete scientific statement For one thing the statement children have 20 deciduous teeth does not tell us what we mean by teeth When we say teeth do we mean only those that can be seen with the unaided eye or do we also include the hidden unerupted teeth An observation such as children have 20 deciduous teeth is not a fact and by itself it is not acceptable as a scientific statement until its terms are explained scientifically children have 20 deciduous teeth must be accompanied by definitions and qualifiers *The Synonym Finder* J.
