*Pharmacology* Joanne I. Moore, 2012-12-06 More than ten years ago the faculty members of the Department of Pharmacology at the University of Oklahoma College of Medicine developed a review book of medical pharmacology in response to requests from our second year medical students who were preparing to sit for the Part I examination of the National Board of Medical Examiners The students expressed a need for an organized approach to cope with the volume of basic science curricular material presented during the first two years Therefore our review book was not designed to provide a comprehensive text on pharmacology but rather to provide the

students with a significant core of information as a refresher after they had successfully completed a basic course in pharmacology This book represents a major revision of our review of medical pharmacology The book has been reorganized updated and expanded to provide current information on major new drugs and information on older drug groups that typically are covered on licensure examinations The book also has been expanded to include a large number of new questions for self examination The faculty have endeavored to retain a reasonably concise relevant and readable review book that will provide the students with a thorough review of pharmacology Students are advised to refer to comprehensive textbooks as needed to fill in any gaps in their knowledge which may be disclosed by the self examinations

**Pharmacotherapy Principles and Practice Study Guide** Michael D. Katz, Kathryn R. Matthias, Marie A. Chisholm-Burns, 2010-12-17. A case based companion study guide to *Pharmacotherapy Principles and Practice 2e*. Learn how to apply your knowledge to actual patient situations. *Pharmacotherapy Principles and Practice Study Guide* uses 98 cases to help you learn how to apply pharmacotherapeutic concepts to specific patient situations. Each case is presented in a consistent manner similar to what you would see in a clinical setting and focuses on one primary topic or problem. Patients discussed in these cases will have drug therapy problems requiring identification and management. For each case you will be asked to develop a Patient Database, Drug Therapy Problem Worksheet, and Pharmacotherapy Care Plan using the forms provided. These forms are adapted from those originally developed by the American Society of Health System Pharmacists Clinical Skills program. Each case includes Learning Objectives, Patient Presentation, Targeted Questions followed by a hint that refers you to pages in *Pharmacotherapy Principles and Practice 2e* where you can find the information to answer the question. Follow up Global Perspective which highlights an issue related to the case that is important to countries outside of North America or involve different ethnic groups or races. Case Summary.

**Foye's Principles of Medicinal Chemistry** David A. Williams, William O. Foye, Thomas L. Lemke, 2002. This comprehensive Fifth Edition has been fully revised and updated to meet the changing curricula of medicinal chemistry courses. The new emphasis is on pharmaceutical care that focuses on the patient and on the pharmacist as a therapeutic clinical consultant rather than chemist. Approximately 45 contributors respected in the field of pharmacy education augment this exhaustive reference. New to this edition are chapters with standardized formats and features such as Case Studies.
