Understanding the early-modern subject to be constituted, as Shakespeare's Ulysses explains, by its communications with others, this study considers what happens when these conceptions of compassionate communication and sympathetic exchange are comprehensively undermined by period anxieties concerning contagion and the transmission of disease. Allowing that 'no man is . . . any thing' until he has 'communicate[d] his parts to others', can these formative communications still be risked in a world preoccupied by communicable sickness, where every contact risks contraction, where every touch could be the touch of plague, where kind interaction could facilitate cruel infection, and where to commiserate is to risk 'miserable dependence'? Counting the cost of compassion, this study of Shakespeare's plays and poetry analyses how medical explanations of disease impact upon philosophical conceptions and literary depictions of his characters who find themselves precariously implicated within a world of ill communications. It examines the influence of scientific thought upon the history of the subject, and explores how Shakespeare alive to both the importance and dangers of

sympathetic communication articulates an increasing sense of both the pragmatic benefits of monadic thought, emotional isolation, and subjective quarantine, while offering his account of the considerable loss involved when we lose faith in vulnerable, tender, and open existence. He was originally a good student who studied at the same time. Originally, he wanted to study hard, get into a good university, and after graduation, find a stable job. However, fate played tricks on him, and he became a legendary underworld tycoon! Guardian Angel: The Marquess of Cainewood is bent on avenging his brother's death, and nothing can sway him from his hunt of the pirate Pagan, the despised scourge of London high society. Disguising himself as the scoundrel, Caine lays in wait for his prey -- but the trap is sprung by a beguiling vision with rippling red hair and fire-green eyes. \\The Gift: As the pirate Pagan, the Marquess of St. James spent much of his life secretly redistributing the wealth of aristocrats to England's poor. Now, weary of living on the edge, Nathan plans to kidnap the bride he was forced to wed as a child, and keep her just long enough to claim her fortune. Join accidental sleuth, Nick Morris, in his second mystery in The Art of Murder series. When an offer to paint a beautiful Georgian house in the Peak District falls into Nick Morris' lap he jumps at the commission. Businessman Derek Swann is selling up and wants a landscape to remember. But Nick's plans for a quiet stay in the countryside are scuppered when he and his chalet neighbour Megan Lamplighter find a body in the woods surrounding the holiday park. Rick Parrow seemed to be a troubled young adult, with a dark cloud following him around in recent days, so when it turns out he was murdered, Nick feels compelled to seek out the truth. What was bothering Rick in the days before his death? What exactly was his connection to the bear-like figure of Jez Cooper, who was staying in a chalet up from Nick? And who could possibly have wanted the boy dead? Nick's attention is pulled in every direction - from his work at the manor house, and its captivating housekeeper Adela - to the many unsavoury characters now

circling the holiday park and paying a little too much attention to Nick's movements. Nick must act fast if he wants to get out of this in one piece! Romance, passion and intrigue on a pirate ship

Life Kills follows the dark journey and twisted mind ravines of a mysterious unnamed terrorist as he goes about his business. On his flight, stewards Bubbles and Sparkles, pilots Brad and Chad, and a bunch of burnt out z-list hackster celebrities face their own particular brands of demons. The terrorist anti-hero faces terrible choices along the way, torn between burning passion and mindless passivity; and throughout, the Inflight Infotainment system lurks, ever present but becoming a more powerful and sinister force as the story unfolds. In short snapshots, Life Kills ridicules the many contradictions in the way people live their lives, with an authentic humour that belies the anger boiling beneath the surface. For hipsters, boomers, and anything in between.

MARY SHELLEY's Frankenstein; or, The Modern Prometheus grew out of a parlor game and a nightmare vision. The story of the book's origin is a famous one, first told in the introduction Mary Shelley wrote for the 1831 edition of the novel. The two Shelleys, Byron, Mary's stepsister Claire Clairmont, and John William Polidori (Byron's physician) spent a "wet, ungenial summer in the Swiss Alps." Byron suggested that

"each write a ghost story." If one is to trust Mary Shelley's account (and James Rieger has shown the untrustworthiness of its chronology and particulars), only she and "poor Polidori" took the contest seriously. The two "illustrious poets," according to her, "annoyed by the platitude of prose, speedily relinquished their uncongenial task." Polidori, too, is made to seem careless, unable to handle his story of a "skull-headed lady." Though Mary Shelley is just as deprecating when she speaks of her own "tiresome unlucky ghost story," she also suggests that its sources went deeper. Her truant muse became active as soon as she fastened on the "idea" of "making only a transcript of the grim terrors of my waking dream": "I have found it! What terrified me will terrify others." The twelve essays in this collection attest to the endurance of Mary Shelley's "waking dream." Appropriately, though less romantically, this book also grew out of a playful conversation at a party. When several of the contributors to this book discovered that they were all closet aficionados of Mary Shelley's novel, they decided that a book might be written in which each contributor-contestant might try to account for the persistent hold that Frankenstein continues to exercise on the popular imagination. Within a few months, two films--Warhol's Frankenstein and Mel Brooks's Young Frankenstein--and the Hall-Landau and Isherwood-Bachardy television versions of the novel appeared to remind us of our blunted purpose. These manifestations were an auspicious sign and resulted in the book *Endurance of Frankenstein*.

Reproduction of the original: The Complete Works of Richard Crashaw by Richard Crashaw Bittersweet Journeys is a poetic anthology of my heart-felt experiences ranging in time from adolescence to the present. An experiment in "painting with words," it was written for the sheer delight of unfettered expression. My best poem, "The Sound of Madness," written in a state of despair induced by persistent and disturbing voicehearing, won second prize in a national poetry competition in 2010. One of François Truffaut's most poignantly memorable films, Jules and Jim, adapted a novel by the French writer and art collector Henri-Pierre Roch. The characters and events of the 1960s film were based on a real-life romantic triangle, begun in the summer of 1920, which involved Roch himself, the German-Jewish writer Franz Hessel, and his wife, the journalist Helen Grund. Drawing on this film and others by Truffaut, Robert Stam provides the first in-depth

examination of the multifaceted relationship between Truffaut and Roch. In the process, he provides a unique lens through which to understand how adaptation works—from history to novel, and ultimately to film—and how each form of expression is inflected by the period in which it is created. Truffaut's adaptation of Roch's work, Stam suggests, demonstrates how reworkings can be much more than simply copies of their originals; rather, they can become an immensely creative enterprise—a form of writing in itself. The book also moves beyond Truffaut's film and the ménage--trois involving Roch, Hessel, and Grund to explore the intertwined lives and work of other famous artists and intellectuals, including Marcel Duchamp, Walter Benjamin, and Charlotte Wolff. Tracing the tangled webs that linked these individuals' lives, Stam opens the door to an erotic/writerly territory where the complex interplay of various artistic sensibilities—all mulling over the same nucleus of feelings and events—vividly comes alive. The oldest book from the Western Hemisphere *The Book of Godom and Somorrah* follows the lives of the gods and goddesses on Thorn Prick Peak as they go about in a frenzy creating time, the universe, and a nation of fleas bent on propagating a Union of Satanic Assassins. Written in cuneiform chicken scratch by scribes before their time and discovered on the thirteenth floor of an inaccessible box canyon, the text has been rendered into English by both the nomadic and sedentary scholars of *The Orbitology*. A translation of the 1972 French analysis of the dynamics of textual production in the Middle Ages that marked a major shift in scholarly discourse about medieval literature. Integrating the tools of linguistics and textual criticism, does not come to conclusions, but proposes approaches and methods for investigation.
