Let Them Play Denita Dinger, Jeff A. Johnson, 2013-01-15

Playtime is focused, purposeful, and full of learning. As they play, children master motor development, learn language and social skills, think creatively, and make cognitive leaps. This curriculum is all about fostering children's play, trusting children as capable and engaged learners, and leaving behind boxed curriculums and prescribed activities. Filled with information on the guiding principles that make up an uncurriculum learning experience, ideas and suggestions for building strong emotional and engaging physical environments, *Let Them Play* provides support to those who believe in the learning power of play. Jeff A. Johnson spent twenty-five years as a child care provider in center and home-based programs. He now works full time as an author, keynote speaker, podcaster, toymaker, and early learning advocate. He is the author or coauthor of six other Redleaf Press books. Denita Dinger has been a child care provider for more than fifteen years and operates a family child care program. For the last five years, she has been a frequent keynote speaker at early childhood conferences focusing on the topics of hands-on learning and learning through play.

The learning experiences of young children cannot be conveniently separated into the areas of cognitive, social, emotional, and

physical development They are integrated and interdependent This balance can be achieved through creative interactive play that supports and scaffolds all developmental and content areas of the curriculum Despite the strength of supportive theory and research we are experiencing the gradual elimination of play and creative experiences from early childhood classrooms in the USA The 2001 No Child Left Behind legislation in the USA emphasizes an academic orientation and focuses early childhood curricula upon academic skills such as reading writing and numeracy However the problem is not simply pedagogical strategy or philosophical stance The way in which a curriculum is implemented is also influenced by teachers perceptions of play and creativity In 2009 I began a longitudinal study that follows the pilot class of a new Independent elementary school in New York City as it adds a grade level each year and whose curricular framework is based upon play and creativity This paper identifies the values mission and model of the school It also explores and documents how the curriculum is being developed to support and scaffold increased academic expectations the role of teachers and children in the implementation of the curriculum and the changing perspectives perceptions and expectations of parents and teachers
