Ending the AIDS Myth Andreas Moritz,2006-07-01 Despite common belief there is no scientific evidence to this day that AIDS is a contagious disease The current AIDS theory falls short in predicting the kind of AIDS disease an infected person may be manifesting and there is no accurate system to determine how long it will take for the disease to develop In addition the current HIV AIDS theory contains no reliable information that can help identify those who are at risk of developing AIDS On the other hand published research actually proves that HIV only extremely rarely spreads heterosexually and cannot be responsible for an epidemic that involves millions of AIDS victims around the world Furthermore it is an established fact that the retrovirus HIV which is composed of human gene fragments is incapable of destroying human cells However cell destruction is the main characteristic of every AIDS disease Even the principal discoverer of HIV Luc Montagnier no longer believes that HIV is solely responsible for causing AIDS In fact he showed that HIV alone could not cause AIDS There is increasing evidence that AIDS may be a toxicity syndrome or metabolic disorder that is caused by immunity risk factors including heroin sex drugs antibiotics commonly prescribed AIDS drugs rectal intercourse starvation malnutrition and dehydration Dozens of prominent scientists working at the forefront of the AIDS research are now openly questioning the virus hypothesis of AIDS Find out why *Ending the AIDS Myth* also shows you what really causes the shutdown of the immune system and what needs to be done to avoid it

deftly lays out cutting edge research combined with centuries old natural health wisdom giving you the powerful tools and inspiration to take control of your health for years to come **The Ruler's Guide** Chinghua Tang,2017-02-07 An English language translation of core principles by the seventh century emperor popularly credited as China's greatest historical leader is comprised of his dialogues with his wisest advisors and critics and covers strategies in the arenas of government business the military athletics philanthropy and parenting Publisher **Diabetes - No More!** Andreas Moritz,2006-06-01 According to this bestselling author diabetes is not a disease in the vast majority of cases it is a complex mechanism of protection or survival that the body chooses to avoid the possibly fatal consequences of an unhealthful diet and lifestyle Despite the body's ceaseless self preservation efforts which we call diseases millions of people suffer or die unnecessarily from such consequences The imbalanced blood sugar level in diabetes is but a symptom of illness not the illness itself By developing diabetes the body is neither doing something wrong nor is it trying to commit suicide The current diabetes epidemic is man made or rather factory made and therefore can be halted and reversed through simple but effective changes in diet and lifestyle **Diabetes No More** provides you with essential information on the various causes of diabetes and how anyone can avoid them To stop the diabetes epidemic we need to create the right circumstances that allows the body to heal Just as there is a mechanism to become diabetic there is also a mechanism to reverse it Find out how **The Liver and Gallbladder Miracle Cleanse** Andreas Moritz,2007-06-04 With the modern diet gallstones are a huge problem in America that require millions to have surgery This proven book offers a natural preventative health approach that empowers readers to counter stone buildup in their own home *Heal Yourself with Sunlight* , **Heart Disease No More!** Andreas Moritz,2006-03-01 Make Peace with Your Heart and Heal Yourself Less than one hundred years ago heart disease was an extremely rare disease Today it kills more people in the developed world than all other causes of death combined Despite the vast amount of financial resources spent on finding a cure for heart disease the current medical approaches remain mainly symptom oriented and do not address the underlying causes Even worse There is overwhelming evidence to show that the treatment of heart disease or its presumed precursors such as high blood pressure hardening of the arteries and high cholesterol does not only prevent a real cure but can easily lead to chronic heart failure The patient's heart may still beat but not strong enough to feel vital and alive Without removing the underlying causes of heart disease and its precursors there is little if any protection against it Heart attacks can strike regardless whether you have had a coronary bypass done or stents placed inside your arteries According to research these procedures fail to prevent heart attacks or reduce mortality rates **Heart Disease No More** excerpted from the author's bestselling *Timeless Secrets of Health Rejuvenation* puts the responsibility for healing where it belongs that is to the heart mind and body of each individual It provides you with the practical insights about how heart disease develops what causes it and what you can do to prevent and reverse it for good regardless of a possible genetic predisposition **The Amazing Liver and Gallbladder Cleanse** Andreas
