It seems clear that Union soldiers, particularly black soldiers, were killed after they had stopped fighting or had surrendered or were being held prisoner. Less clear is the role played by Major General Nathan Bedford Forrest in leading his troops. Although we will never know whether Forrest directly ordered the massacre, evidence suggests that he was responsible for it.

**After Admission** James E. Rosenbaum, Regina Deil-Amen, Ann E. Person, 2007-01-04 Enrollment at America's community colleges has exploded in recent years with five times as many entering students today as in 1965 However most community college students do not graduate many earn no credits and may leave school with no more advantages in the labor market than if they had never attended Experts disagree over the reason for community colleges mixed record Is it that the students in these schools are under prepared and ill equipped for the academic rigors of college Are the colleges themselves not adapting to keep up with the needs of the new kinds of students they are enrolling In After Admission James Rosenbaum Regina Deil Amen and Ann Person weigh in on this debate with a close look at this important trend in American higher education After Admission compares community colleges with private occupational colleges that offer accredited associates degrees The authors examine how these different types of institutions reach out to students teach them social and cultural skills valued in the labor market and encourage them to complete a degree Rosenbaum Deil Amen and Person find that community colleges are suffering from a kind of identity crisis as they face the inherent complexities of guiding their students towards four year colleges or to providing them with vocational skills to support a move directly into the labor market This confusion creates administrative difficulties and problems allocating resources However these contradictions do not have to pose problems for students After Admission shows that when colleges present students with clear pathways students can effectively navigate the system in a way that fits their needs The occupational colleges the authors studied employed close monitoring of student progress regular meetings with advisors and peer cohorts and structured plans for helping students meet career goals in a timely fashion These procedures helped keep students on track and the authors suggest could have the same effect if implemented at community colleges As college access grows in America institutions must adapt to meet the needs of a new generation of students After Admission highlights organizational innovations that can help guide students more effectively through higher education
