Provides lists of selling prices of items found on eBay in such categories as antiques, boats, books, cameras, coins, collectibles, dolls, DVDs, real estate, stamps, tickets, and video games. Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews. Whether readers are looking to purchase a new computer or upgrade current systems, this guide can help make the right choice for both needs and budgets. It covers printers, monitors, hard drives, modems and more. This book provides an accessible guide to price index and hedonic techniques, with a focus on how to best apply these techniques and interpret the resulting measures. One goal of this book is to provide first-hand experience at constructing these measures, with guidance on practical issues such as what the ideal data would look like and how best to construct these measures when the data are less than ideal. A related objective is to fill the wide gulf between the necessarily simplistic elementary treatments in textbooks and the very complex discussions found in the theoretical and empirical measurement literature. Here, the theoretical results are summarized in an intuitive way and their numerical importance is illustrated using data and results from existing studies. Finally, while the aim of much of the existing literature is to better understand official price indexes like the Consumer Price Index, the emphasis here is more practical: to provide the needed tools for individuals to apply these techniques on their own. As new datasets become increasingly accessible, tools like these will be needed to obtain summary price measures. Indeed, these techniques have been applied for years in antitrust cases that involve pricing, where economic experts typically have access to large, granular datasets. The most trustworthy source of information available today on savings and investments, taxes, money management, home ownership and many other personal finance topics. A stylishly smart collection of practical advice for the busy modern woman With information on entertaining, etiquette, housekeeping, basic home repair, decorating, sex, and beauty, this indispensable book has everything today's young woman should know-but may not! The Modern Girl's Guide to Life is a collection of all the helpful tips and secrets that get passed on from generation to generation, but many of us have somehow missed. It's full of practical, definitive advice on the basics -- the day-to-day necessities like finding a bra that fits, balancing a checkbook, making a decent cup of coffee, and hemming a pair of pants. Modern Girl guru Jane Buckingham includes loads of savvy counsel to help us feel more refined, in charge, and together as we navigate the rocky terrain that is twenty-first-century womanhood. This handbook on video photography provides information on choosing equipment, camcorders, lighting, tripods and associated photographic equipment, microphones, editing, sound-tracking and computer graphics. It also offers detailed, illustrated descriptions of how to use video cameras. Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.
