Water-Wise Cities and Sustainable Water Systems Xiaochang C. Wang,Guangtao Fu,2020-12-15 Building water wise cities is a pressing need nowadays in both developed and developing countries This is mainly due to the limitation of the

available water resources and aging infrastructure to meet the needs of adapting to social and environmental changes and for urban liveability This is the first book to provide comprehensive insights into theoretical systematic and engineering aspects of water wise cities with a broad coverage of global issues The book aims to 1 provide a theoretical framework of water wise cities and associated sustainable water systems including key concepts and principles 2 provide a brand new thinking on the design and management of sustainable urban water systems of various scales towards a paradigm shift under the resource and environmental constraints and 3 provide a technological perspective with successful case studies of technology selection integration and optimization on the fit for purpose basis

Financial Performance Representations Stuart Hershman, Joyce G. Mazero, 2008 This book sheds light on all aspects of earnings claims including defining what an earnings claim really is the origins of its regulation under the franchise disclosure laws how a franchisor should prepare an earnings claim how a franchisee should use an earnings claim how a franchisee may attack lawful and unlawful earnings claims how a franchisor may defend against such attacks and how the government franchise enforcement authorities investigate unlawful earnings claim activity
