How to Achieve 100% in a GCSE - Guide to GCSE Exam and Revision Technique Written by a teenager for teenagers, this simple guide guarantees success in your GCSE's. Having achieved 10 A* grades (4 with a score of 100%), the author shares practical tips on exam and revision technique, including specific subject advice. The book is written with the belief that everyone has the potential to achieve 100% in a GCSE. "What a fantastic book! A truly great idea. I wish the book had been around years ago when I was doing my O and A levels. Rob makes some excellent points and the book is full of good sense." - Lorna Read, Editor, Writing Ltd Shows what examiners are looking for in the GCSE coursework and in the exam. This resource provides coverage of the specification so that teachers can deliver the course with confidence and students can approach assessment fully prepared. It includes activities and case studies throughout to engage students with this subject. If you're at this point, you must be getting ready for your English language exams, so we have a few words of advice for you: Exams aren't bad. They're your opportunity to show off just how much you know about English--and you have been studying it since you were five, so you definitely know a thing or two! Don't worry about your exams--worry never changes anything--instead, try and see them as an opportunity to show off what you know. Practising exam papers is a good way to revise and, because this exam is still relatively new, there aren't that many past papers out there. The papers in this book have been created to try and replicate the exam experience for you. Some people might suggest using your literature texts for practice, but the whole point of this exam is that it is unseen: it's best to work on extracts you've never read before. There is more than one way to tackle an exam paper. You could sit it in one go and complete it in exam conditions from start to finish. You could go at the papers gently, with modelled examples in front of you to help (check out the videos at youtube.com/mrbruff). Another method is to try three question threes all in a row, slide tackling your way through the paper. You might want to complete all of the Section B questions before beginning Section A. However you do it, take your time, and use the indicative content at the end to check your work. The indicative content isn't everything. You might make a point that we haven't included. Marking your own work is quite difficult so, although these are good to practise on, you should share with someone who understands the marking system to mark your work and give you feedback. This book is not a guide to the exam: it is a set of practice papers. For a detailed question-by-question guide to AQA English language, you should pick up a copy of 'Mr Bruff's Guide to GCSE English Language' in paperback on Amazon, or eBook at mrbruff.com.
