**The Washington State** Dec 29 2022 Being arrested for DUI in Washington State is an introduction to a world of complex law, demanding Judges, fickle prosecuting attorneys, biased Department of Licensing hearing officers, exaggerating police officers, and a multitude of conditions and expenses that seem to never end. Such punishment and conditions may include jail, probation, fines, court dates, a department of licensing hearing, license suspension, ignition interlock device, SR 22 insurance, alcohol evaluation, alcohol awareness class or treatment, and a DUI victim's panel, among many possible requirements. This is why most people feel overwhelmed after they face the sobering fact that they are in for a long and difficult journey. It is therefore important that a person who has been arrested for DUI immediately educate themselves about the many requirements demanded of them. The first thing you should do is confirm whether you have been provided a court date. Not every jurisdiction provides an immediate court date but many do, and in these jurisdictions you will need to appear within a few days of your arrest. This is particularly true if you must immediately appear in Court as there may be a risk of harsh conditions or imposed by the Judge. Preparation and knowledge is the key. If you have been arrested you must immediately be aware of the following: -If there a court date you must immediately make plans to appear in court; -If you have a prior DUI arrest or the facts of your case are severe you must prepare to bail yourself out from custody at your first court appearance (read the section on bail in the upcoming chapter); -You must complete and mail (or apply online) the Department of Licensing (DOL) Driver's Hearing Request Form (within 20 days of your arrest) if your BAC was over 0.08 or if you refused the breath or blood test; -Your DOL Hearing will be set within 60 days of your arrest; -If your license is suspended you may be eligible for a restrictive license; -You will be required to undertake an alcohol evaluation; -You must contact an experienced DUI attorney to discuss your options. *California DUI Law and Defenses* May 02 2023 A DUI conviction can CHANGE YOUR LIFE and lead to jail, license suspension, constrictive probation terms, fines and fees, legal costs, heightened insurance rates, and disruption to your professional and personal world. But even these threats often do not suffice to motivate people to defend vigorously against DUI charges. Many people just want to act as quickly as possible to "get the DUI out of the way," so that they won't have to worry about it anymore. In other words, some folks approach DUI charges like they approach traffic tickets. They think they can just "pay the fine," metaphorically speaking, and move on. This is a big, tragic mistake. A DUI is not like a traffic ticket. It's a serious offense. If you plead guilty to a misdemeanor DUI charge, for instance, that means you have a criminal record. So don't plead guilty during your arraignment for DUI. You might have legal defenses that you don't even know exist. Attorney Martens has personally seen people with a 0.05% blood alcohol concentration plead guilty to DUI because they didn't have an attorney. For reference, the legal limit here in California is 0.08% BAC. In other words, he's seen people who were barely more than half way to 0.08% accept a misdemeanor on their records for no good reason.

**The DUI Extortion Racket** Feb 16 2022 This book investigates and exposes the ultimate goal of DUI law enforcement, which is to generate a steady income for their policing business. Their claim, of course, is that their only goal is keeping the public safe, and has nothing to do with money. The author, George Damusis, reveals the deceitfulness and hypocrisy of that claim. He argues that it's a form of tyranny and a violation of human rights to arrest, criminalize, extort, and virtually enslave common, decent citizens for a year just for drinking moderately before driving. Mr. Damusis suggests that the arrests and criminalization of common, decent citizens for the very common human act of drinking moderately before driving is the real crime. Unbiased traffic accident research indicates that moderately intoxicated drivers cause no more accidents than alcohol free drivers. So, what rule of logic allows law enforcement to declare these common citizens to be criminals? While Mr. Damusis does agree that the best and most rational safety policy is to not drink any alcohol at all before driving, he also insists that those who do drink in moderation before driving are not criminals by any stretch of the imagination. They are, after all, doing only what millions of social drinking drivers do so naturally every weekend in this our government supported, alcohol permissive culture. These common citizens are only charged with an actual crime in order to make it legal to arrest and fine them repeatedly. It's clearly a case of policing for profit, and not a case of policing for public safety. Mr. Damusis is not a law professional, and received no professional mentoring in the writing of this book. His arguments are a product of his personal experiences, the experiences of others, and his serious internet research. This book severely criticizes our oppressive DUI laws and DUI enforcement policies, but also offers constructive proposals for bringing moral reform to the entire DUI law enforcement system.
