**Chemical Process Design and Integration** Robin Smith, 2016-09-26 Written by a highly regarded author with industrial and academic experience this new edition of an established bestselling book provides practical guidance for students researchers and those in chemical engineering The book includes a new section on sustainable energy with sections on carbon capture and sequestration as a result of increasing environmental awareness and a companion website that includes problems worked solutions and Excel spreadsheets to enable students to carry out complex calculations

**Handbook of Batch Process Design** P.N. Sharratt, 2012-12-06 Batch processes are used to manufacture many fine organic chemicals and as such they can be considered to underpin much of the modern chemical industry Despite widespread use and a consequent huge contribution to wealth creation batch processes have attracted limited attention outside the user industries Batch chemicals processing uses a number of core techniques and technologies such as scheduling and sequence control agitation and batch filtration The combination of these technologies with often complex chemistry the multi purpose nature of much of this type of plant the distinctive safety and environmental issues and a fast moving commercial environment makes the development of a successful batch process a considerable challenge for the chemist or engineer The literature on the topics covered in this book is fragmented and often not easily accessible so this handbook has been written to address this problem and to bring together design and process analysis methods in the core areas of batch process design By combining the science and pragmatism required in the development of successful batch processes this new book provides answers to real problems in an accessible and concise way Written by an international team of authors drawn from industry consulting and academe this book is an essential part of the library of any chemist technologist or engineer working on the development of new or existing batch processes
