you spend [Experiments With People](#) Robert P. Abelson, Kurt P. Frey, Aiden P. Gregg, 2014-04-04 Experiments With People showcases 28 intriguing studies that have significantly advanced our understanding of human thought and social behavior. These studies, mostly laboratory experiments, shed light on the irrationality of everyday thinking, the cruelty and indifference of ordinary people, the operation of the unconscious mind, and the intimate bond between the self and others. This book tells the inside story of how social psychological research gets done and why it matters. Each chapter focuses on the details and implications of a single study but cites related research and real life examples. All chapters are self-contained, allowing them to be read in any order. Each chapter is divided into Background, provides the rationale for the study; What They Did, outlines the design and procedure used; What They Found, summarizes the results obtained; So What, articulates the significance of those results; Afterthoughts, explores the broader issues raised by the study; and Revelation, encapsulates the take-home message of each chapter. This paperback is ideal as a main or supplementary text for courses in social psychology, introductory psychology, or research design.

**The Love Gap** Jenna Birch, 2018-01-23 A research-based guide to navigating the newest dating phenomenon, the love gap, and a trailblazing action plan to help smart, confident, career-driven women find and keep their match. For a rising generation of young women, the sky is the limit. Women can be anything and have everything. They are outpacing their male peers in higher education and earning the corner office at work. Smart-driven, assertive women are succeeding at just about everything they do, except romance. Why are so many men afraid to date smart women? Modern men claim to want smart, successful, and independent women as romantic partners. Or so says the data collected by scientists and dating websites. If that's the case, why are so many independent, successful women winning in life but losing in love? Journalist Jenna Birch has finally named the perplexing reason: the love gap, or that confusing rift between who men say they want to date and who they actually commit to. Backed by extensive data, research, in-depth interviews with experts, and real-life relationship stories, *The Love Gap* is the first book to explore the most talked-about dating trend today. The guide also establishes a new framework for navigating modern relationships and the tricky new gender dynamics that impact them. Women can and should have it all without settling.

[Becoming a Strategic Leader](#) Richard L. Hughes, Katherine M. Beatty, 2011-01-11 Today's organizations face difficult challenges in order to remain competitive: the quickening pace of change, increasing uncertainty, growing ambiguity, and complexity. To meet these challenges, organizations must broaden the scope of leadership responsibility, engage more people in the process of leadership, and embrace strategic leadership. In *Becoming a Strategic Leader*, Rich Hughes and Kate Beatty from the Center for Creative Leadership (CCL) offer executives and managers a handbook for implementing a strategic leadership process that reaches leaders at all levels of organizations. Based on CCL's successful Developing the Strategic Leader Program, this book outlines the framework of strategic leadership and contains practical suggestions on how to develop the individual, team, and organizational skills needed for institutions to become more adaptable, flexible, and resilient. The authors also show how individual managers can exercise effective strategic leadership.
