This popular family law casebook engages students by presenting core family law doctrine while exploring significant transformations in American families and cutting edge policy debates. It highlights the important role of constitutional law and other areas of state and federal law in shaping family law. The book invites students to consider questions of family definition and governmental regulation of families in light of family law's purposes. It charts family law's evolving approach to adult-adult and parent-child and other caretaker-dependent relationships, emphasizing that contemporary families take a variety of forms. The Sixth Edition updates all chapters to reflect the latest family law developments, such as the legal treatment of nonmarital families, including plural relationships and nonbiological parenting, as well as recent Supreme Court decisions. It integrates material previously covered in separate chapters on ethical issues in family law practice and jurisdiction into the contexts in which they arise, such as divorce, child custody, and division of marital property. The Sixth Edition has new material highlighting the intersection of family law with race, gender, class, immigration, sexual orientation, and gender identity. As with previous editions, the casebook contains ample problems for students to apply doctrine to realistic factual contexts and highlights practical dynamics of family law practice. The 6th edition thoroughly examines the impact of recent Supreme Court cases on family law, including *Dobbs v. Jackson Women's Health Organization* and provides teachers with shorter and longer versions of that case and *Golan v. Saada*. Includes attention to the role of race and racism in laws that shape and regulate the family, with case law addressing marriage, divorce, and inheritance rights of formerly enslaved persons and a post-*Loving v. Virginia* case challenging the continued requirement that couples disclose race on a marriage license. Provides a restructured chapter on the legal consequences of marriage, spousal roles within marriage, and the gender revolution within family law and related fields. Includes new developments on marriage requirements, including state minimum age laws and common law marriage rules, and addresses First Amendment challenges post-*Masterpiece Cakeshop* to civil marriage equality and state antidiscrimination laws. Includes new coverage of the intersection of immigration and family law. Addresses changes in legal approaches to nonmarital families, including multi-adult domestic partnerships and the Uniform Cohabitants Economic Remedies Act. Provides updated treatment of custody and parenting time issues, including parenting gender-expansive children. Provides a restructured chapter on intimate partner violence (IPV), including updates on various factors impacting IPV and shifting gun control statutes and caselaw affecting civil protection orders. Provides new consideration of child support issues, including joint custody and subsequent families. Provides revised problems in anticipation of the NextGen Bar Exam.

Family Law Judith C. Areen, Marc Spindelman, Philomila Tsoukala, 2012. The Sixth Edition continues a long tradition of innovation; the casebook is widely known and prized for preserving the best of earlier editions. The casebook delivers an up-to-date overview of U.S. Family Law that weaves together black letter rules, policy, narrative, history, transnational sources, and theory into an accessible and teachable whole. The book is written with an eye toward helping teachers prepare their students to appreciate and engage Family Law's incredibly dynamic present and to begin imagining how to actively shape its important, vibrant future. The Sixth Edition of Family Law is more than an update of prior editions; it reconceptualizes the field of family law for the 21st century. Through judicious use of new historical and social science material, this edition illuminates current controversial issues in family law and, for the first time, places American family law in an international context.
