American Theocracy Kevin Phillips,2006-03-21 An explosive examination of the coalition of forces that threatens the nation from the bestselling author of *American Dynasty* In his two most recent bestselling books *American Dynasty* and *Wealth and Democracy* Kevin Phillips established himself as a powerful critic of the political and economic forces that rule and imperil the United States tracing the ever more alarming path of the emerging Republican majority s rise to power Now Phillips takes an uncompromising view of the current age of global overreach fundamentalist religion diminishing resources and ballooning debt under the GOP majority With an eye to the past and a searing vision of the future Phillips confirms what too many Americans are still unwilling to admit about the depth of our misgovernment *Summary: American Theocracy* BusinessNews Publishing,2017-01-30 The must read summary of Kevin Phillips s book *American Theocracy The Peril and Politics of Radical Religion Oil and Borrowed Money in the 21st Century* This complete summary of *American Theocracy* by Kevin Phillips a political commentator and former Republican strategist before becoming disaffected with the party outlines his view that the Republican majority under the Bush administration undermined America s security and global position He claims that fiscal irresponsibility radical Christianity and the refusal to deal with the oil crisis slowly edged the nation to the point of crisis A compelling account of what Phillips believes is serious misgovernment on the part of the GOP Added value of this summary Save time Understand the policies and actions of the Republican party and their consequences on America Expand your knowledge of American politics economics and society To learn more read *American Theocracy* and discover Phillips s uncompromising view of the shortcomings of the Bush administration [American Theocracy](#) Kevin Phillips,2007-03-27 An explosive examination of the coalition of forces that threatens the nation from the bestselling author of *American Dynasty* In his two most recent bestselling books *American Dynasty* and *Wealth and Democracy* Kevin Phillips established himself as a powerful critic of the political and economic forces that rule and imperil the United States tracing the ever more alarming path of the emerging Republican majority s rise to power Now Phillips takes an uncompromising view of the current age of global overreach fundamentalist religion diminishing resources and ballooning debt under the GOP majority With an eye to the past and a searing vision of the future Phillips confirms what too many Americans are still unwilling to admit about the depth of our misgovernment **American Theocracy** Kevin Phillips,2006 Former Republican strategist Phillips takes an uncompromising view of the political coalition led by radical religion that is driving America to the brink of disaster From Ancient Rome to the British Empire Phillips demonstrates that every world dominating power has been brought down by a related set of causes a lethal combination of global over reach militant religion resource problems

and ballooning debt It is this same axis of ills that has come to define America s political and economic identity in the past decade Military miscalculations in the Middle East the surge of fundamentalist religion the staggering national debt the costs of U S oil dependence together these factors are undermining our nation s security solvency and standing in the world If left unchecked the same forces will bring a debt bloated preachy energy starved America to its knees From publisher description

Summary: American Theocracy Businessnews Publishing,2017-01-30 The must read summary of Kevin Phillips s book American Theocracy The Peril and Politics of Radical Religion Oil and Borrowed Money in the 21st Century This complete summary of American Theocracy by Kevin Phillips a political commentator and former Republican strategist before becoming disaffected with the party outlines his view that the Republican majority under the Bush administration undermined America s security and global position He claims that fiscal irresponsibility radical Christianity and the refusal to deal with the oil crisis slowly edged the nation to the point of crisis A compelling account of what Phillips believes is serious misgovernment on the part of the GOP Added value of this summary Save time Understand the policies and actions of the Republican party and their consequences on America Expand your knowledge of American politics economics and society To learn more read American Theocracy and discover Phillips s uncompromising view of the shortcomings of the Bush administration *Bad Money* Kevin Phillips,2009-03-31 In his acclaimed book American Theocracy Kevin Phillips warned of the perilous interaction of debt financial recklessness and the spiking cost and growing scarcity of oil warnings that are proving to be frighteningly accurate Now in his most significant and timely book yet Phillips takes the full measure of this crisis They are a part of what he calls bad money not just the depreciated dollar but also the dangerous attitudes and the flawed products of wayward mega finance His devastating conclusion In its hubris the financial sector has hijacked the American economy and put our very global future at risk and it may be too late to stop it **American Dynasty** Kevin Phillips,2004-09-30 An acerbic withering account of the ascent of the Bush family to the pinnacle of the American political and social elite and the implications of the dynasty s hold on power for democracy in America With an unerring instinct for fakery and humbug Phillips traces the convoluted trail of Bush mendacity through three generations The picture he paints of a family willing to do ANYTHING to hold power and a country so craven as to vote for it is both very funny and completely dismaying in equal measure 1775 Kevin Phillips,2013-09-24 A groundbreaking account of the American Revolution from the bestselling author of American Dynasty In this major new work iconoclastic historian and political chronicler Kevin Phillips upends the conventional reading of the American Revolution by debunking the myth that 1776 was the struggle s watershed year Focusing on the great battles and events of 1775 Phillips surveys the political climate economic structures and military preparations of the crucial year that was the harbinger of revolution tackling the eighteenth century with the same skill and perception he has shown in analyzing contemporary politics and economics The result is a dramatic account brimming with original insights about the country we eventually became **The Emerging Republican Majority** Kevin P.

Phillips,2014-11-23 One of the most important and controversial books in modern American politics *The Emerging Republican Majority* 1969 explained how Richard Nixon won the White House in 1968 and why the Republicans would go on to dominate presidential politics for the next quarter century Rightly or wrongly the book has widely been seen as a blueprint for how Republicans using the so called Southern Strategy could build a durable winning coalition in presidential elections Certainly Nixon s election marked the end of a New Deal Democratic hegemony and the beginning of a conservative realignment encompassing historically Democratic voters from the South and the Florida to California Sun Belt in the book s enduring coinage In accounting for that shift Kevin Phillips showed how two decades and more of social and political changes had created enormous opportunities for a resurgent conservative Republican Party For this new edition Phillips has written a preface describing his view of the book its reception and how its analysis was borne out in subsequent elections A work whose legacy and influence are still fiercely debated *The Emerging Republican Majority* is essential reading for anyone interested in American politics or history

Arrogant Capital Kevin Phillips,1995-09-01 Everyone knows that Washington is completely out of touch with the rest of the country Now Kevin Phillips whose bestselling books have prophesied the major watersheds of American party politics tells us why Washington mired in bureaucracy captured by the money power of Wall Street and dominated by 90 000 lobbyists 60 000 lawyers and the largest concentration of special interests the world has ever seen has become the albatross that Thomas Jefferson and our other Founding Fathers feared a swollen capital city feeding off the country it should be governing Throughout most of our history the genius of American politics was that ballot revolutions every generation swept out failed establishments and created new ones Now that can no longer happen Feared and even hated by a majority of the citizenry Permanent Washington has dug in Using history as a chilling warning Kevin Phillips parallels the present atrophy to that of formerly mighty and arrogant capitals like Rome Madrid and Amsterdam Unchecked Washington will like other great powers before it lead the country to its inevitable decline and fall To work again Washington must be purged and revitalized In his unique blueprint for a political upheaval Kevin Phillips puts Washington on notice by sounding a cry for immediate action offering us a wide variety of remedies some quasi revolutionary others more moderate but all sure to be controversial

Neo-Confederacy Euan Hague,Heidi Beirich,Edward H. Sebesta,2009-09-15 A century and a half after the conclusion of the Civil War the legacy of the Confederate States of America continues to influence national politics in profound ways Drawing on magazines such as *Southern Partisan* and publications from the secessionist organization League of the South as well as DixieNet and additional newsletters and websites *Neo Confederacy* probes the veneer of this movement to reveal goals far more extensive than a mere celebration of ancestry Incorporating groundbreaking essays on the Neo Confederacy movement this eye opening work encompasses such topics as literature and music the ethnic and cultural claims of white Anglo Celtic southerners gender and sexuality the origins and development of the movement and its tenets and ultimately its nationalization into a far reaching factor in reactionary conservative politics

The first book length study of this powerful sociological phenomenon Neo Confederacy raises crucial questions about the mainstreaming of an ideology that founded on notions of white supremacy has made curiously strong inroads throughout the realms of sexist homophobic anti immigrant and often orthodox Christian populations that would otherwise have no affiliation with the regionality or heritage traditionally associated with Confederate history *The Great Wave* David Hackett Fischer,1999 Fischer has examined price records in many nations and finds that great waves of rising prices in the 13th 16th 18th and 20th centuries were all marked by price swings of increasing volatility falling wages a growing gap between rich and poor and an increase in violent crime family disintegration and cultural despair 109 graphs charts 7 maps *Socrates Cafe: A Fresh Taste of Philosophy* Christopher Phillips,2010-10-18 A bracing rollicking read about the spark that ignites when people start asking meaningful questions O Magazine Christopher Phillips is a man on a mission to revive the love of questions that Socrates inspired long ago in ancient Athens Like a Johnny Appleseed with a master s degree Phillips has gallivanted back and forth across America to caf s and coffee shops senior centers assisted living complexes prisons libraries day care centers elementary and high schools and churches forming lasting communities of inquiry Utne Reader Phillips not only presents the fundamentals of philosophical thought in this charming Philosophy for Dummies type guide USA Today he also recalls what led him to start his itinerant program and re creates some of the most invigorating sessions which come to reveal sometimes surprising often profound reflections on the meaning of love friendship work growing old and others among Life s Big Questions How to Start Your Own Socrates Caf guide included *Invasion of the Party Snatchers* Victor Gold,2008-04-01 Victor Gold wants his party back Gold is the former press aide to Barry Goldwater and the former speechwriter and senior advisor for George H W Bush He is incensed that the Neo Cons and the Evangelical Right have betrayed the ideals of the conservative cause Now he s fighting back A Republican insider for 40 years Gold is ready to tell all about the war being waged for the GOP s soul the elder Bush s opinion of his son s presidency the significance of the Democratic resurgence and how Goldwater would have reacted to it all Among Gold s explosive disclosures is the truth about Cheney s manipulation of George W and the chilling puppet like role of the President amongst Neo and Theo Conservatives Entertaining provocative Mr Gold is on to something The Washington Times For those disillusioned with the state of the GOP this quick uncompromising polemic provides substantial support along with a large dose of cold comfort Publishers Weekly Like his political mentor Barry Goldwater Gold pulls no verbal punches in telling the story of how the Bush Cheney White House has made a mockery of the conservative values it claims to uphold Frank Mankiewicz former press secretary to Robert Kennedy and George McGovern s campaign manager Victor Gold unleashes a bitter yet comic blend of ferocity and ridicule at the neo conservatives and theocrats who have taken over his party Jules Witcover *The Cost-Benefit Revolution* Cass R. Sunstein,2019-09-24 Why policies should be based on careful consideration of their costs and benefits rather than on intuition popular opinion interest groups and anecdotes Opinions on government policies vary widely Some people feel

passionately about the child obesity epidemic and support government regulation of sugary drinks Others argue that people should be able to eat and drink whatever they like Some people are alarmed about climate change and favor aggressive government intervention Others don't feel the need for any sort of climate regulation In *The Cost Benefit Revolution* Cass Sunstein argues our major disagreements really involve facts not values It follows that government policy should not be based on public opinion intuitions or pressure from interest groups but on numbers meaning careful consideration of costs and benefits Will a policy save one life or one thousand lives Will it impose costs on consumers and if so will the costs be high or negligible Will it hurt workers and small businesses and if so precisely how much As the Obama administration's regulatory czar Sunstein knows his subject in both theory and practice Drawing on behavioral economics and his well known emphasis on nudging he celebrates the cost benefit revolution in policy making tracing its defining moments in the Reagan Clinton and Obama administrations and pondering its uncertain future in the Trump administration He acknowledges that public officials often lack information about costs and benefits and outlines state of the art techniques for acquiring that information Policies should make people's lives better Quantitative cost benefit analysis Sunstein argues is the best available method for making this happen even if in the future new measures of human well being also explored in this book may be better still

Wealth and Democracy Kevin Phillips, 2003-04-08 For more than thirty years Kevin Phillips insight into American politics and economics has helped to make history as well as record it His bestselling books including *The Emerging Republican Majority* 1969 and *The Politics of Rich and Poor* 1990 have influenced presidential campaigns and changed the way America sees itself Widely acknowledging Phillips as one of the nation's most perceptive thinkers reviewers have called him a latter day Nostradamus and our modern Thomas Paine Now in the first major book of its kind since the 1930s he turns his attention to the United States history of great wealth and power a sweeping cavalcade from the American Revolution to what he calls the Second Gilded Age at the turn of the twenty first century The Second Gilded Age has been staggering enough in its concentration of wealth to dwarf the original Gilded Age a hundred years earlier However the tech crash and then the horrible events of September 11 2001 pointed out that great riches are as vulnerable as they have ever been In *Wealth and Democracy* Kevin Phillips charts the ongoing American saga of great wealth how it has been accumulated its shifting sources and its ups and downs over more than two centuries He explores how the rich and politically powerful have frequently worked together to create or perpetuate privilege often at the expense of the national interest and usually at the expense of the middle and lower classes With intriguing chapters on history and bold analysis of present day America Phillips illuminates the dangerous politics that go with excessive concentration of wealth Profiling wealthy Americans from Astor to Carnegie and Rockefeller to contemporary wealth holders Phillips provides fascinating details about the peculiarly American ways of becoming and staying a multimillionaire He exposes the subtle corruption spawned by a money culture and financial power evident in economic philosophy tax favoritism and selective bailouts in the name of free enterprise economic

stimulus and national security Finally Wealth and Democracy turns to the history of Britain and other leading world economic powers to examine the symptoms that signaled their declines speculative finance mounting international debt record wealth income polarization and disgruntled politics signs that we recognize in America at the start of the twenty first century In a time of national crisis Phillips worries that the growing parallels suggest the tide may already be turning for us all **The Cousins' Wars** Kevin Phillips,1999 A sweeping history encompassing military political and religious themes in its discussion of how America evolved over 300 years into a powerful global community and why other European powers did not Phillips a seasoned author of eight prior books focuses on the English Civil War the American Revolution and the American Civil War in search of the factors contributing to America s position in the world today Annotation copyrighted by Book News Inc Portland OR **Captured** Sheldon Whitehouse,2017-02-21 A U S senator leading the fight against money in politics chronicles the long shadow corporate power has cast over our democracy In Captured U S Senator and former federal prosecutor Sheldon Whitehouse offers an eye opening take on what corporate influence looks like today from the Senate Floor adding a first hand perspective to Jane Mayer s Dark Money Americans know something is wrong in their government Senator Whitehouse combines history legal scholarship and personal experiences to provide the first hands on comprehensive explanation of what s gone wrong exposing multiple avenues through which our government has been infiltrated and disabled by corporate powers Captured reveals an original oversight by the Founders and shows how and why corporate power has exploited that vulnerability to strike fear in elected representatives who don t get right by threatening million dollar dark money election attacks a threat more effective and less expensive than the actual attack to stack the judiciary even the Supreme Court in business friendly ways to capture the administrative agencies meant to regulate corporate behavior to undermine the civil jury the Constitution s last bastion for ordinary citizens and to create a corporate alternate reality on public health and safety issues like climate change Captured shows that in this centuries long struggle between corporate power and individual liberty we can and must take our American government back into our own hands **The Imperial Cruise** James Bradley,2009-11-24 In 1905 President Teddy Roosevelt dispatched Secretary of War William Howard Taft on the largest U S diplomatic mission in history to Hawaii Japan the Philippines China and Korea Roosevelt s glamorous twenty one year old daughter Alice served as mistress of the cruise which included senators and congressmen On this trip Taft concluded secret agreements in Roosevelt s name In 2005 a century later James Bradley traveled in the wake of Roosevelt s mission and discovered what had transpired in Honolulu Tokyo Manila Beijing and Seoul In 1905 Roosevelt was bully confident and made secret agreements that he though would secure America s westward push into the Pacific Instead he lit the long fuse on the Asian firecrackers that would singe America s hands for a century *God Won't Save America* George Walden,2006 In this highly topical highly original and controversial book George Walden shows why America s puritanical origins explain why she is the maddening country she is
