Criminology - The Core D Stanley Eitzen, Larry J. Siegel, 2002-08

The Origins of American Criminology Francis T. Cullen, Andrew J. Myer, Freda Adler, Cheryl Lero Jonson, 2011-02-11 *The Origins of American Criminology* is an invaluable resource Both separately and together these essays capture the stories behind the invention of criminology s major theoretical perspectives They preserve information that otherwise would have been lost There is urgency to embark on this reflective task given that the generation that defined the field for the past decades is heading into retirement This fine volume insures that their life experiences will not be forgotten The volume shows criminology to be a human enterprise Ideas are not driven primarily and often not at all by data Theories are not invented solely as part of the scientific process they are not inevitable American criminology s great theories most often precede the collection of data they guide and produce empirical inquiry not vice versa Theoretical paradigms are shaped by a host of factors scholars assumptions about the world drawn from their social constructs disciplinary content and ideology cognitive environments found in specific universities and the field s scholarly networks and quirks in a person s biography The volume demonstrates that humanity is what makes theory possible Diverse experiences when we were born where we have lived the unique trajectories of our personal life courses the disciplines and academic places we have ended up allow individual scholars to see the world differently

The Criminology of Criminal Law Freda Adler, William S. Laufer, Criminology has developed strong methodological tools over the past decades establishing itself as a competitive sophisticated and independent social science Despite and perhaps because of its emphasis on matters of design methodology and quantitative analysis criminology has had few significant advances in theory Advances in Criminological Theory is the first series exclusively dedicated to the dissemination of original work on criminological theory It was created to overcome the neglect of theory construction and validation in existing criminological publications as well as to further the free exchange of ideas propositions and postulates The Criminology of Criminal Law the eighth volume in this landmark series considers the relation between criminal law and theories of crime criminality and justice This book contains chapters on a wide range of topics including the way in which white collar crime is defined new perspectives on stranger violence the reasons why criminologists have neglected the study of genocide the idea of boundary crossings in the control of deviance the relation between punishment and social solidarity the connection between the notion of justice and modern sentencing theory the social reaction to treason and the association between politics and punitiveness Contributors to this volume include Bonnie Berry Don Gottfredson David F Greenberg Marc Riedel Jason Rourke Kip Schlegel Vered Vinitzky Seroussi Leslie T Wilkins Marvin E Wolfgang and Richard A Wright The Criminology of Criminal Law concludes with an analysis of the results of a study on the most cited scholars in Advances in Criminological Theory This fascinating work will be beneficial to the studies of criminologists sociologists and scholars of legal studies
