**The Land Within** Pedro García Hierro,2005 By describing the fabric of relationships indigenous peoples weave with their environment The Land Within attempts to define a more precise notion of indigenous territoriality A large part of the work of titling the South American indigenous territories may now be completed but this book aims to demonstrate that in addition to management these territories involve many other complex aspects that must not be overlooked if the risk of losing these areas to settlers or extraction companies is to be avoided Alexandre Surralls holds a doctorate in anthropology from the School for Higher Studies in Social Sciences and is a researcher on the staff of the National Centre for Scientific Research Pedro Garca Hierro is a lawyer from Madrid Complutense University and the Pontifical Catholic University of Peru He has worked with various indigenous organizations on issues related to the identification and development of collective rights and the promotion of intercultural democratic reforms

**The King's Honor and the King's Cardinal** John L. Sutton,2021-10-21 Early in 1733 Augustus II elector of Saxony and king of Poland died in Warsaw from complications of a gangrenous foot The elective throne of Poland thus fell vacant and the states of Europe began cautious maneuvers designed to secure for each some national advantage in the choice of a successor Before the year was out diplomacy had given way to military force Yet the Age of Reason fostered a relationship between diplomacy and warfare that limited the violence of military action The War of Polish Succession might have produced widespread carnage It was a major struggle among the great powers of Europe with actions in Poland the Rhineland and Italy Many illustrious commanders took part Marshal Villars and Prince Eugene Maurice de Saxe and Count Daun Behind them stood the powerful figures of Cardinal Fleury anxious to uphold the honor of King Louis even as he guarded against escalation of the war and Emperor Charles VI obsessed with his desire to keep the Holy Roman Empire in Hapsburg hands After three years of wary military action the war ended as it had begun in a series of secret diplomatic maneuvers No nation was annihilated no prince unthroned and once again Europe s precarious balance of power had been restored John L Sutton s engrossing account the first in any major European language to bring together the evidence from the great diplomatic and military archives of Europe reveals the very essence of eighteenth century warfare with its grand campaigns as formal as minuets its sieges as gentlemanly as court receptions On another level the plight of the mercenaries who did much of the fighting yet had no stake in the conflict beyond day to day survival is portrayed just as vividly in this clear eyed examination of a dynastic war and its setting *First CHAMP Mission Results for Gravity, Magnetic and Atmospheric Studies* Christoph Reigber,Hermann Lühr,Peter Schwintzer,2012-09-07 In 1995 the German Space Agency DARA selected the CHALLENGING Minisatellite Payload CHAMP mission for development

under a special support programme for the space industry in the new states of the unified Germany with the Principal Investigator and his home institution GFZ Potsdam being ultimately responsible for the success of all mission phases After three years of spacecraft manufacturing and testing the satellite was injected successfully into its final near circular almost polar and low altitude 450 km orbit from the cosmodrome Plesetsk in Russia on July 15 2000 After a nine month commissioning period during which all spacecraft systems and instruments were checked calibrated and validated the satellite has been delivering an almost uninterrupted flow of science data since May 2001 Since this date all science data have been made available to the more than 150 selected co investigator teams around the globe through an international Announcement of Opportunity The scientific goals of the CHAMP mission are to gain a better understanding of dynamic processes taking place in the Earth's interior and in the space near Earth These goals can be achieved by improved observation of the Earth's gravity and magnetic fields and their time variability with high performance on board instrumentation and by exploring the structure of the Earth's atmosphere and ionosphere through radio occultation measurements
