Pageant World History Jul 15 2022 Dear students, I want to share a dream with you. I dreamed that a young person of 14 whom I was going to be teaching would become president of the United States during the first half of the twenty-first century. As a teacher, I was struck by this immense responsibility. What should I teach my student about the world as preparation for this awesome task? How could my world history class help this person to mature into an intelligent and humane president and leader of the free world?

Guns, Germs, and Steel: The Fates of Human Societies May 13 2022 "Fascinating.... Lays a foundation for understanding human history."—Bill Gates In this "artful, informative, and delightful" (William H. McNeill, *New York Review of Books*) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war --and adventured on sea and land to conquer and decimate preliterate cultures. A major advance in our understanding of human societies, *Guns, Germs, and Steel* chronicles the way that the modern world came to be and stunningly dismantles racially based theories of human history. Winner of the Pulitzer Prize, the Phi Beta Kappa Award in Science, the Rhone-Poulenc Prize, and the Commonwealth club of

California's Gold Medal.

Big Questions in History Mar 23 2023 A distinguished group of historians answers key questions about the past and about the present and future. What wins wars? Why do empires rise and fall? What makes a great leader? What causes

nationalism? How do spiritual movements spread? These are the questions in the forefront of our minds today but they meant just as much to people in the past. How did earlier generations tackle them, and how far can historians use the lessons of the past to help find some answers? Drawing on examples from ancient Greece to Tony Blair's Britain, leading historical thinkers address twenty of the really big questions that have been asked over the centuries: What is history? How does personality affect politics? What is the impact of technology on social change? How do intellectual movements start? How do our physical bodies and our private lives impact history? Each essay is accompanied by commentary by a journalist, discussing the views of other leading thinkers, today and in the past. The result is a stimulating ride over continents and across centuries in search of answers that are sometimes surprising, often controversial, and all of great relevance to how we live today. "From the Hardcover edition."
