[Introduction to Political Theory](#) May 10 2021

Introduction To Political Theory Apr 20 2022 This is a political theory text for the 21st century. Introduction to Political Theory brings together political ideologies and concepts into one book offers a student-friendly introduction to the major ideologies that have shaped the modern world the concepts that form the currency of political debate. The hugely experienced author team offers a wealth of teaching experience and distinguished scholarship. By using real-life examples to relate political ideas to political realities, they make the subject lively and contentious in order to stimulate students to think about political theory.

Political Theory in Transition Sep 13 2021 This text explores the principle reasons for the dissatisfaction with established political categories and outlines some of the most influential responses to it.

The Political Theory Reader Dec 17 2021 Utilizing 100 key readings, The Political Theory Reader explores the rich tradition of ideas that shape the way we live and the great issues in political theory today. Allows students to see how competing ideological viewpoints think about the same political issues Provides readers with direct access to authors covered in the From Ideologies to Public Philosophies text Facilitates discussions by having readings arranged thematically throughout the book Extracts of works specifically chosen to focus on topics central to issues covered in chapters

[An Introduction to Political Theory](#) Oct 07 2023 "This book provides an engaging and intellectually challenging introduction to political ideologies, while at the same time giving an accessible route to the subject for those new to politics. Supported by an outstanding companion website, it has been named as the best undergraduate textbook on ideologies on the market." Dr. Mike Gough, University of East Anglia Introduction to Political Theory is a text for the 21st century. It shows students why an understanding of theory is crucial to an understanding of issues and events in the rapidly shifting global political landscape. Bringing together classic and contemporary political concepts and ideologies into one book, this new text introduces the major approaches to political theory and issues that have shaped the modern world, and the ideas that form the currency of political theory. Introduction to Political Theory relates political ideas to political realities through effective use of real-life examples and cases studies making theory lively, contentious and relevant. This thoroughly revised and updated second edition contains new chapters on global justice and political violence, as well as an expanded treatment of globalisation and the state. A wide range of pedagogical features help to clarify, extend and apply students' understanding of the fundamental ideologies and concepts covered. The book is comprised of: · Case studies demonstrate how political ideas, concepts and issues manifest in the real world · 'Focus' boxes encourage students to appreciate alternative viewpoints · A range of thought-provoking photographs challenge students to examine concepts from a different angle · Suggestions for further reading and weblinks are also provided to help students to further their understanding. Introduction to Political Theory is accompanied by an innovative website with multiple choice questions, biographies of key figures in political theory, further case studies and an innovative 'read to learn' feature which helps students get to grips with difficult primary texts.

Social Science and Political Theory Dec 29 2022 This 1969 study considers the relation of social science to political philosophy and extends traditional political philosophy in the direction of contemporary developments.

The Political Theory of Political Thinking | **Jan 18 2022** What does it mean to say that human beings think politically, and what is distinctive about that kind of thinking? That question is all-too infrequently asked by political theorists, or is dealt with through generalizations, abstractions and dichotomies. This study examines the actual, real-world patterns people display when thinking politically, identifying six features of political thinking. They include the role of making ultimate decisions and regulating all social affairs, ranking collective priorities, mobilizing support for or withholding it, conceptualizing social order and stability as well as disorder and instability, projecting future visions and constructing plans for a society, and engaging the power aspects embedded in language, by means of reason, rhetoric, emotion or menace. Concurrently the usual and occasional failures of thinking politically are acknowledged alongside its quest for neatness. A large number of case studies is employed, drawn both from professional political theorists and philosophers and from various instances of vernacular usage: politicians, political commentators, protest groups. Both contemporary and historical evidence from different cultures is utilized in illustrating the theoretical framework of the book. This is the first systematic study of political thinking as a cluster of thought-practices, combining insights from political theory—traditional and recent—the study of language and discourse, and political science. This investigation of 'the political' as a mode of thinking challenges many conventional understandings of political thought in the current literature, teases out what is political—not philosophical or ethical—in political theory and locates it as a complex and ubiquitous social practice present at all points of human interaction at diverse levels of articulation.

Introduction to Political Theory | **May 02 2023**

Political Theory | **Jul 04 2023** The new third edition of the highly successful text has been revised and updated throughout to take account of new issues such as identity and difference, globalization and multiculturalism. The book provides a clear and accessible introduction to political theory and concepts in political analysis. Each chapter discusses a cluster of interrelated terms, examines how they have been used by different thinkers and in the various political traditions, and explores the debates and controversies.

Introduction to Political Theory | **Apr 13 2024** This vibrant and significantly revised new edition is a comprehensive and accessible text for studying political theory in a changing world. Bringing together classic and contemporary political concepts and ideologies into one book, it introduces major approaches to political issues that have shaped our world, and the ideas that form the heart of political debate. Consistently, it relates political ideas to political realities through effective examples and case studies making theory lively, contentious, and relevant. With significant revisions which reflect the latest questions facing political theory in an increasingly international context, features and updates include: Two brand new chapters on Migration and Freedom of Speech; a significant new section on the radical right; Thought-provoking case studies to bring the theory to life, including social media and internet regulation, Brexit and the EU, anti-vaxxer campaigns, surrogacy, tourism, and autonomous anarchist zones; A revamped website, including podcasts, to aid study and reading around, the subject. Introduction to Political Theory, Fourth Edition is the perfect accompaniment to undergraduate study in political theory, political philosophy, concepts and ideologies, and more broadly to the social sciences and philosophy.

Political Theory | **Jun 15 2024** Political Theory: Methods and Approaches is one of the first books to analyze research methods in political theory and political philosophy. Drawing together a distinguished set of contributors, the book asks how political theory should be conducted today and examines the connections between political theory and a range of adjacent disciplines - including moral philosophy, the empirical social sciences, the history of political thought, the world of 'real

politics, critical social theory, and ideology.

The Oxford Handbook of Political Theory May 14 2024 Oxford Handbooks of Political Science are the essential guide to the state of political science today. With engaging contributions from 50 international scholars, the Oxford Handbook of Political Theory provides the key point of reference for anyone working in political theory and beyond.

Ideology and the Theory of Political Choice April 08 2021 There is no unified theory that can explain both voter choice and where choices come from. Hinich and Munger fill that gap with their model of political communication based on ideology. Rather than beginning with voters and diffuse, atomistic preferences, Hinich and Munger explore why large groups of voters share preference profiles, and why they consider themselves "liberals" or "conservatives." The reasons, they argue, lie in the twin problems of communication and commitment that politicians face. Voters, overloaded with information, ignore specific platform positions. Parties and candidates therefore communicate through simple statements of goals, analogies, and by invoking political symbols. But politicians also commit to pursuing the actions implied by these analogies and symbols. Commitment requires that ideologies be used consistently, particularly when it is not in the party's short-run interests. The model Hinich and Munger develop accounts for the choices of voters, the goals of politicians, and the interests of contributors. It is an important addition to political science and essential reading for that discipline. "Hinich and Munger's study of ideology and the theory of political choice is a pioneering effort to integrate ideology into formal political theory. It is a major step in directing attention toward the way in which ideology influences the nature of political choices." --Douglass North ". . . represents a significant contribution to the literature on elections, voting behavior, and social choice." --Policy Currents Melvin Hinich is Professor of Government, University of Texas at Dallas. Michael C. Munger is Associate Professor of Political Science, University of North Carolina.

Contemporary Empirical Political Theory Aug 05 2023 How can we best understand the major debates and recent movements in contemporary empirical political theory? In this volume, the leading contributors, including four past presidents of the APSA and one past president of the IPSA, present their views of the central core, methodologies and development of empirical political science. The disparate views of the unifying themes of the discipline reflect different theoretical orientations: from behavioralism to rational choice, cultural theory to postmodernism, and feminism to Marxism. Is there a human nature on which we can construct scientific theories of political life? What is the role of culture in shaping any such nature? How objective and value-free can political theories be? These are only a few of the issues the volume addresses. By assessing where we have traveled intellectually as a discipline and asking what remains of lasting significance in the various theoretical approaches that have engulfed the profession, Contemporary Empirical Political Theory provides an important evaluation of the current state of empirical political theory and a valuable guide to future developments in political science. CONTRIBUTORS: Gabriel Almond, David Easton, Murray Edelman, J. Peter Euben, Bernard Grofman, John Gunnell, Russell Hardin, Edward Harpham, Nancy Hartsock, Jean Lapointe, Theodore Lowi, Kristen Monroe, William Riker, Ian Shapiro, Alexander Wendt, Catherine Zuckert, Michael Zuckert This title is part of UC Press's Voices program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, the program has revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1997.

Twentieth Century Political Theory Feb 16 2022 First Published in 2006. Routledge is an imprint of Taylor & Francis, an informa company.

Political Theory Aug 25 2022 This is new edition contains a comprehensive study of the subject

the latest thinking by the political scientists of the world today.

Political Theory Mar 12 2024 Political theorists focus on the nature of justice, liberty, equality while ignoring the institutions through which these ideals are achieved. Political scientists keep institutions in view but deploy a meager set of value-conceptions in analyzing them. A new political theory is needed to address this gap, Jeremy Waldron argues.

An Introduction to Political Theory Apr 01 2023 This new edition of An Introduction to Political Theory examines a fairly wide range of issues on political theory as identified at the beginning of the new millennium. It elaborates the nature and significance of political theory, concept of ideology.

Political Theory Sep 06 2023 First published in 1956, Political Theory explores the historical development of political ideas and analyses some basic concepts of contemporary political theory including the notions of the State, of Sovereignty and the Law. The book is based on lectures on Political Theory given by the author, G. C. Field, in the universities at which he taught. It opens by considering the development of political ideas by providing an overview of the ideas current at a time of original publication in comparison to the ideas of earlier ages. It then progresses into a detailed discussion of specific political theories. It will appeal to those with an interest in the history of political thought and developments in political theory.

Handbook of Political Theory Dec 09 2023 This volume combines remarkable coverage and distinguished contributors. The inclusion of thematic, conceptual, and historical chapters will make it a valuable resource for scholars as well as students? - Professor George Klosko, Department of Politics, University of Virginia This major new Handbook provides a definitive state-of-the-art introduction to political theory, past and present. It offers a complete guide to all the main areas and fields of political and philosophical inquiry today by the world's leading theorists. The Handbook is divided into five parts which together serve to illustrate: - the diversity of political theorizing - the theories that provide an overarching analysis of the nature/or justification of the state and political life - the political theories that have been either formulated or resurgent in recent years - the state of the central debates within contemporary political theory - the history of western political thought and its interpretations - traditions in political thought outside a western perspective. The Handbook of Political Theory marks a benchmark publication at the cutting edge of its field. It is essential reading for all students and academics of political theory and political philosophy around the world.

Political Theory Feb 28 2023 Comprehensively written, this book presents the political theories, concepts, analysis, thoughts and main currents. The book begins with introduction to political theory, its history, evolution & approaches while also discussing forms & organs of Government. It then progresses to discuss contemporary political analysis in light of American concepts and main currents of Political Thought in detail. This book would be extremely useful for the students pursuing B.A. in Political Science.

Radical Future Past Feb 04 2021 Written by both well-established and rising scholars, Radical Future Past seeks to open up new possibilities for theoretical inquiries and engagements with contemporary practical political struggles. Unlike conventional "state of the discipline" collections, this volume does not summarize the history of political theory. Rather than accept traditional ideas about the political past, the contributors reinterpret canonical and current texts to demonstrate fresh interpretations and narratives. Led by editors Romand Coles, Mark Reinhardt, and George Shulman and inspired by the work of Peter Euben, the contributors both explore and exemplify the range and importance of political theory's different genres while concentrating on such themes as time and temporality, the politics of tragedy, and political movements and subjectivities. A groundbreaking volume featuring the best new scholarship in the field, this provocative book will be useful to

and students interested in political theory and its relationship to political practice.

History of Political Theory: An Introduction Jun 03 2023 History of Political Theory: An Introduction is an engaging introduction to the main figures in the history of Western Political Theory and their most important works. The second volume traces the origin and development of liberal political theory, and so the foundations for contemporary views.

The Practice of Political Theory May 22 2022 Recent political thought has grappled with a crisis of philosophical foundations: how do we justify the explicit and implicit normative claims and assumptions that guide political decisions and social criticism? In *The Practice of Political Theory* Clayton Chin presents a critical reconstruction of the work of Richard Rorty that intervenes in the current surge of methodological debates in political thought, arguing that Rorty provides us with unrecognized tools for resolving key foundational issues. Chin illustrates the significance of Rorty's thought for contemporary political thinking, casting his conception of "philosophy as cultural politics" as a resource for new models of sociopolitical criticism. He juxtaposes Rorty's pragmatism with the ontological turn, illuminating them as alternative interventions in the current debate on the crisis of foundations in philosophy. Chin places Rorty in dialogue with continental philosophy and those working within its legacy. Focused on both important questions in pragmatist scholarship and central issues in contemporary political thought, *The Practice of Political Theory* is an important response to the vexed questions of justification and pluralism.

Introduction to Political Theory May 30 2023 Political Theory at Stanford approaches the study of justice, legitimacy, and power by conjoining normative theory, positive theory and the intellectual history of political thought. Among the topics with which our faculty and students are concerned are democracy, equality, global justice, international relations, realism and idealism, education, deliberation, institutional innovation, and the organization of knowledge. This book on Political Theory examines a fairly wide range of issues on political theory and explores the major issues by presenting the perspectives of major theorists. This gracefully structured, intellectually rigorous book gives students necessary historical background while examining basic themes and assessing the validity of basic arguments. It elaborates the nature and significance of political theory, presented in a clear, direct style, which can be easily understood by the students with little previous exposure to political science. Rather than simply presenting an abstract of the major issues of political theory, it examines leading arguments with all the major concepts. It is particularly designed to cater to the need of the students and teachers of several universities, colleges, and for the students preparing for various competitive examinations."e;

A History of American Political Theories Mar 08 2021 A History of American Political Theories is a comprehensive attempt to understand the full sweep of American political thought since the 1820s. Working within the liberal-progressive tradition, Merriam reviewed American political history in its entirety, from the founding down to his own day. He was not out to reduce political thought to a single element such as economics alone; his aim was to encompass the whole of modern social science. The political science of the liberal-progressive tradition has roots and assumptions that were born in this period and nurtured by scholars such as Merriam. The progressive tradition in general and Merriam in particular interpreted the rise of a new science of politics that would be required to sustain the liberal-progressive world view he represented. His work stands at a momentous fork in the history of American political thought. The two great traditions of how American democracy should be understood, interpreted, and analyzed were born in this period and afterward each went their separate ways. These traditions are represented, respectively, by the founders and the liberal-progressives. There was much at stake in these debates, though the consequences were not entirely foreseen at the time. An overview of the major works, and general source material covered in *History of American Political Theories* is impressive.

Merriam viewed the study of American democracy as an eclectic activity embracing the broad definition of the social sciences, with particular emphasis on psychology. Such a transformation required that the social sciences be grouped as a whole rather than fragmented into separate, distinct academic departments.

What is Political Theory? Nov 15 2021 What Is Political Theory? provides students with a comprehensive overview of the current state of the discipline. Eleven substantive chapters address most pressing topics in political theory today, including: - what resources do the classic texts provide for political theorists? - what areas will political theorists focus on in the future? - can western political theory alone continue to provide a framework for responding to the challenges of modern political life? The authors assess the intellectual challenges to conventional political theory, such as post-structuralism and the scientific study of politics, that have revitalized the field in the last 30 years. They also broaden the perspective to take in non-western ideas and to reconceptualize political theory in the light of specifically global challenges. Students and teachers of political theory and political philosophy will find this book invaluable in understanding the factors that have shaped current political theory and which will guide its future development.

Political Theory and Partisan Politics Mar 20 2022 Renowned theorists address the interconnections between those who engage in political struggle and those who study it.

An Introduction To Political Theory Jan 10 2024 1.Political Theory, 2.Traditional and Modern Approaches, 3.Origin and Development of State, 4.Power and Authority, 5.Sovereignty, Monism and Pluralism, 6.Justice, 7.Equality, 8.Rights, 9.Liberty.....

Introduction to Contemporary Political Theory Dec 27 2022 `This text provides an up to date account of how things currently stand in political philosophy, and will provide an excellent introduction for students from any background. It gives a lucid and careful account of the central controversial sites of disagreement in political theory over the last thirty years and rather than sacrifice theoretical sophistication and nuance for the sake of clarity and accessibility, it admirably achieves both?`
Catriona McKinnon, University of York This comprehensive textbook provides a complete and accessible introduction to the main theorists and issues in contemporary political theory today. The text is organized into two major parts. The first, Contemporary Liberal Theory, outlines four different liberal theories of justice to introduce the work of Rawls, Nozick, Gauthier and Dworkin. The second part, Alternative Traditions, introduces the theorists and themes associated with four key areas of contemporary debate: communitarianism, multiculturalism, deliberative democracy and feminism. By giving students questions for consideration and using applied examples throughout, the text illustrates the practical relevance of contemporary theoretical debates to everyday issues in politics. The result is an essential overview of all the main traditions, issues and positions in political theory today that will serve as an invaluable resource for all students of contemporary political theory, political ideas and political philosophy. Colin Farrelly is Assistant Professor in the Department of Political Science at the University of Waterloo, Canada. Introduction to Contemporary Political Theory will complement Contemporary Political Theory: A Reader edited by Colin Farrelly and also published by SAGE Publications.

An Introduction to Political Theory Oct 15 2021 Designed for the introductory political theory course, this text focuses on critical thinking and what the authors call issues for the future, euthanasia, abortion and environmentalism. Their approach is based on the belief that political theory should be relevant and concerned with contemporary issues, willing to adapt and reinvent historic solutions to the problems and concerns of today.

The Descent of Political Theory July 24 2022 This provocative work reveals the origins and development of political theory as it is presently understood—and misunderstood. Tracing the

evolution of the field from the nineteenth century to the present, John G. Gunnell shows how controversies, like those over liberalism or the relationship of theory to practice, are actually unresolved legacy of a forgotten past. By uncovering this past, Gunnell exposes the forces that animate and structure political theory today. Gunnell reconstructs the evolution of the field by locating it within the broader development of political science and American social science in the twentieth century. During the behavioral revolution that swept political science in the 1950s, the relationship between political theory and political science changed dramatically, relegating theory to the margins of an increasingly empirical discipline. Gunnell demonstrates that the estrangement of political theory is rooted in a much older quarrel: the authority of knowledge versus political authority, academic versus public discourse. By disclosing the origin of this dispute, he opens the way for a clearer understanding of the basic purpose of political theory. As critical as it is revelatory, this thoughtful book should be read by anyone interested in the history of political theory or science—or in the relationship of social science to political practice in the United States.

Approaches to Political Thought | 10 | 2021 Approaches to Political Thought raises three important questions concerning traditional political thought: (1) Why study the political writings and ideas of Plato, Machiavelli, and other long-dead writers? (2) Who among the writers, and which of their works, are worth studying? (3) How should they be studied? The book then explores ten contemporary approaches to understanding political thought and the diverse answers to these questions. The approaches covered include those of Leo Strauss, Hannah Arendt, Eric Voegelin, Sheldon Wolin, the Cambridge School (Quentin Skinner and J.G.A. Pocock), Psychobiography, Critical Theory of the Frankfurt School (Herbert Marcuse and Jürgen Habermas), Hermeneutics (Paul Ricoeur and Hans-Georg Gadamer), Michel Foucault, and Feminist Criticism (Susan Moller Okin and Jean Elshtain). Each chapter includes an introductory essay and edited selections that illustrate or discuss that approach. Each chapter concludes with discussion questions and suggestions for further exploration, including books, articles, and web sites. This exploration of contending contemporary approaches to political thought touches upon ongoing methodological and philosophical issues that are relevant to several academic disciplines, including political science, history, philosophy, and psychology.

An Introduction to Political Thought | 27 | 2022 An Introduction to Political Thought emphasizes a dual approach to political theory by providing a chronological overview of both major figures and texts as well as an understanding of the development of key concepts and themes. In this way, the authors provide a basic sense of the history and development of political thought and a critical analysis of the theoretical and philosophical issues at the heart of politics. Beginning with the idea that laws and constitutions are only beneficial insofar as they give effective expression to our moral and political beliefs, the authors argue that moral and political ideas are the foundations of political theory. Political philosophers covered in depth include: Plato, Aristotle, Hobbes, Locke, Rousseau, Marx, Bentham, Rawls, and Burke. Key concepts such as the moral order, liberty, human nature, freedom, the social contract, distributive justice, liberalism, socialism, feminism, human rights, and multiculturalism are also all covered. In exploring these issues the authors offer a critical guide through key arguments in the history of political thought and contemporary political theory.

Political Theory | Feb 11 | 2024 This gracefully written, intellectually rigorous book explores the major issues of political theory by presenting the perspectives of major theorists. It gives students the historical background while examining basic themes and assessing the validity of basic arguments. Written in a clear, direct style, it can be easily understood by students with little previous exposure to political science. Rather than simply presenting an abstract or formal discussion of the major

of political theory, it examines how the issues were understood by specific political thinkers i Plato, Machiavelli, Locke, Hobbes, Marx, Dahl, Popper, Nozick. T.H. Green, and others. This is a useful thematic introduction to political theory that places theory in an interesting historical intellectual context.

Political Theory Nov 08 2023 Political Theory is about the description, observation, analysis and inquiry into the issues of political science. Divided into 15 chapters, the book captures all relevant aspects of political science and analyses them in the light of examples from India and the rest of the world. Through a thorough examination of various political institutions, the role of different social groups and the evolution of our politics, this book will help students understand the basic concepts and notions of political theory, and illustrate how these concepts apply to political systems across the world.

Political Theory: An Introduction Jul 12 2021 Political Theory: An Introduction is a pioneering Indian political theory textbook that is a step towards making students do and evolve an Indian political theory, that is, theory born out of reflection on and engagement with Indian social and political practices. It innovatively embeds Indian cases and contexts in the theoretical discussions and helps students in applying theories to current issues. Without oversimplifying concepts, this textbook has the conversational, context-specific style of a good teacher and recreates the flavour of the subject inside its covers. Some of its special features are: An outline for each chapter highlighting its key elements, an introductory section discussing the concept, and rationale of chapter organization, referencing of important terms, points for discussion and a detailed reading list.

The Politics of Ideas Jan 22 2022

Contemporary Political Theory Sep 25 2022

The Oxford Handbook of Political Theory Aug 13 2021 Oxford Handbooks of Political Science are the essential guide to the state of political science today.
