*The Lost World of Agharti* Alec MacLellan, 2011-02-01 One of the world's oldest legends tells of a vast network of underground tunnels and passageways linking the continents to a subterranean kingdom. This utopia is said to be inhabited by an ancient race of people who have lived in seclusion for centuries, hidden from the sight of mankind but aware of everything happening on the surface of the earth. The underground country is called Agharti. Tales of this lost world survive throughout the world, and explorers have searched for it for centuries. It has fascinated figures from the English occultist Lord Bulwer-Lytton, the Russian theosophist Madame Helena Blavatsky, and most surprisingly of all, Adolf Hitler, who based part of his philosophy of world domination on the legend of the subterranean super race. Hitler was attracted to the stories of Vril Power, an amazing force that can control man and nature. He believed that possession of this power would allow his dream of a Thousand Year Reich, and he sent scientists and soldiers in search of this lost world. Alec MacLellan has pieced together the history of the Agharti and tries to discover the tunnels that lead to Agharti. Based on evidence collected all over the world and embracing subjects from the origins of the peoples of America, the occult secrets of Asia, and the lost continent of Atlantis, MacLellan provides the first assessment of what Vril Power actually was.

**Vril Or Vital Magnetism** Book Tree, 1999-07 Vril is another name for the life energy of the body, known in other cultures worldwide as *mana*, *prana*, *chi*, or *vital force*. Most of the ancient cultures of the world were aware of this important force and worked to make use of it. In today's world, especially in the West, we move along through life completely oblivious to this truly vital force. Although this force cannot be seen, it is the life force within our bodies. It takes energy from food and provides muscles with energy, which in turn allows us to move about in daily life, as well as grow and metabolize. Nourishment, digestion, and elimination are all driven by the life force. Vril also has a connection to the mind, and methods can be employed to store up its energy and use it constructively. Vril is not manufactured in the human body but can be collected and used effectively. This energy is present in water and especially in the air. This is why breathing is so important in the practice of meditation. A deeper part of us comes alive while we meditate due to increased vital energy in the body combined with the relaxation of the mind. This book is by far the best guidebook known to this mysterious and powerful force. The exact mechanics of how it works are detailed, plus methods of gathering, conserving, and using its power. The exercises given are powerful and they work. This is really more of a self-help book than a simple fact book or mystical overview. Few books have packed in so much vital information in so few pages, and out of all the books we have ever seen, we can safely say that no other book from the West reveals anything close to the important information found here on this subject.
