Church and the World: essays on questions of the day. By various writers. Edited by the Rev. O. Shipley 2024-25 UPPSC Mains Descriptive Solved Papers General Hindi, Essay and General Studies The Existential Toolkit for Climate Justice Educators

One of the most important ways to scaffold a successful transition from high school to college is to teach real-world, gate-opening writing genres, such as college admission essays. This book describes a writing workshop for ethnically and linguistically diverse high school students, where students receive instruction on specific genre features of the college admission essay. The authors present both the theoretical grounding and the concrete strategies teachers crave, including an outline of specific workshop lessons, teaching calendars, and curricular suggestions. This text encourages secondary teachers to think of writing as a vital tool for all students to succeed academically and

professionally. Appropriate for courses and teacher professional development, this accessible book: Reconceptualizes the ways in which writing can best serve marginalized students. Examines research-based curricular and teaching approaches for the secondary school classroom. Provides a writing workshop framework for creating a college admissions essay complete with lesson-planning materials, activities, handouts, bibliographic resources, and more. Includes student perspectives and work samples, offering insight into the lives and struggles of diverse adolescents. “In this important book, Jessica Early and Meredith DeCosta describe a readily replicable set of activities that provides motivated, meaningful opportunities for writing development and helps potential first-generation higher education students gain university admission.” —From the Foreword by Charles Bazerman, Gevirtz Graduate School of Education, University of California Santa Barbara “This is a book about

[offsite.creighton.edu](https://offsite.creighton.edu)

opening doors, about demystifying writing tasks that can keep many students on the outside. The authors take on a major writing challenge—the college application essay—and through careful instruction help students use their real life stories to master it. It is teaching at its best, and democracy at its best.” —Thomas Newkirk, University of New Hampshire “This groundbreaking book has the best qualities of an exemplary research study while also providing us with a handbook of practical wisdom and engaging lessons for teaching writing to a diverse population of secondary students. It is certain to inspire and instruct all English teachers and composition researchers who care about helping traditionally marginalized and underprepared students discover and demonstrate that they are qualified to enter college.” —Sheridan Blau, Teachers College, Columbia University William H. Gass, one of America's most brilliant and eclectic minds, examines literature, culture, writers, and the

nature and uses of language and the written word. An important challenge to what currently masquerades as conventional wisdom regarding the teaching of writing. There seems to be widespread agreement that—when it comes to the writing skills of college students—we are in the midst of a crisis. In *Why They Can't Write*, John Warner, who taught writing at the college level for two decades, argues that the problem isn't caused by a lack of rigor, or smartphones, or some generational character defect. Instead, he asserts, we're teaching writing wrong. Warner blames this on decades of educational reform rooted in standardization, assessments, and accountability. We have done no more, Warner argues, than conditioned students to perform "writing-related simulations," which pass temporary muster but do little to help students develop their writing abilities. This style of teaching has made students passive and disengaged. Worse yet, it hasn't prepared them for writing in the college classroom. Rather than

making choices and thinking critically, as writers must, undergraduates simply follow the rules—such as the five-paragraph essay—designed to help them pass these high-stakes assessments. In *Why They Can't Write*, Warner has crafted both a diagnosis for what ails us and a blueprint for fixing a broken system. Combining current knowledge of what works in teaching and learning with the most enduring philosophies of classical education, this book challenges readers to develop the skills, attitudes, knowledge, and habits of mind of strong writers. From bestselling author of *The Book of Delights* and award-winning poet, a book of lyrical mini-essays celebrating the everyday that will inspire readers to rediscover the joys in the world around us. In Ross Gay's new collection of small, daily wonders, again written over the course of a year, one of America's most original voices continues his ongoing investigation of delight. For Gay, what delights us is what connects us, what gives us meaning,

from the joy of hearing a nostalgic song blasting from a passing car to the pleasure of refusing the “nefarious” scannable QR code menus, from the tiny dog he fell hard for to his mother baking a dozen kinds of cookies for her grandchildren. As always, Gay revels in the natural world—sweet potatoes being harvested, a hummingbird carousing in the beebalm, a sunflower growing out of a wall around the cemetery, the shared bounty from a neighbor's fig tree—and the trillion mysterious ways this glorious earth delights us. *The Book of (More) Delights* is a volume to savor and share. *World Cinema and the Essay Film* examines the ways in which essay film practices are deployed by non-Western filmmakers in specific local and national contexts, in an interconnected world. The book identifies the essay film as a political and ethical tool to reflect upon and potentially resist the multiple, often contradictory effects of globalization. With case studies of essayistic works by John Akomfrah, Nguyen Trinh Thi and

Apichatpong Weerasethakul, amongst many others, and with a photo-essay by Trinh T. Minh-ha and a discussion of Frances Calvert's work, it expands current research on the essay film beyond canonical filmmakers and frameworks, and presents transnational perspectives on what is becoming a global film practice. In this collection of eight witty and sharply written essays, Orwell looks at, among others, the joys of spring (even in London), the picture of humanity painted by Gulliver and his travels, and the strange benefit of the doubt that the public permit Salvador Dali. Also included here are a mouth-watering essay on the delights of English Cooking and a shocking account of killing an elephant in Burma. Often called the most advanced and celebrated mind of the 20th Century, this book allows us to meet Albert Einstein as a person. Explores his beliefs, philosophical ideas, and opinions on many subjects. If you want to learn how to shoot a basketball, you begin by carefully observing

someone who knows how to shoot a basketball. If you want to be a writer, you begin by carefully observing the work of accomplished writers. Recognizing the importance that modeling plays in the learning process, high school English teacher Kelly Gallagher shares how he gets his students to stand next to and pay close attention to model writers, and how doing so elevates his students' writing abilities. Write Like This is built around a central premise: if students are to grow as writers, they need to read good writing, they need to study good writing, and, most important, they need to emulate good writers. In Write Like This, Kelly emphasizes real-world writing purposes, the kind of writing he wants his students to be doing twenty years from now. Each chapter focuses on a specific discourse: express and reflect, inform and explain, evaluate and judge, inquire and explore, analyze and interpret, and take a stand/propose a solution. In teaching these lessons, Kelly provides mentor texts (professional samples as well as models he

has written in front of his students), student writing samples, and numerous assignments and strategies proven to elevate student writing. By helping teachers bring effective modeling practices into their classrooms, *Write Like This* enables students to become better adolescent writers. More important, the practices found in this book will help our students develop the writing skills they will need to become adult writers in the real world. *Academic Writing, Real World Topics* fills a void in the writing-across-the-curriculum textbook market. It draws together articles and essays of actual academic prose as opposed to journalism; it arranges material topically as opposed to by discipline or academic division; and it approaches topics from multiple disciplinary and critical perspectives. With extensive introductions, rhetorical instruction, and suggested additional resources accompanying each chapter, *Academic Writing, Real World Topics* introduces students to the kinds of research and writing that they will be

expected to undertake throughout their college careers and beyond. Readings are drawn from various disciplines across the major divisions of the university and focus on issues of real import to students today, including such topics as living in a digital culture, learning from games, learning in a digital age, living in a global culture, our post-human future, surviving economic crisis, and assessing armed global conflict. The book provides students with an introduction to the diversity, complexity and connectedness of writing in higher education today. Part I, a short *Guide to Academic Writing*, teaches rhetorical strategies and approaches to academic writing within and across the major divisions of the academy. For each writing strategy or essay element treated in the *Guide*, the authors provide examples from the reader, or from one of many resources included in each chapter's *Suggested Additional Resources*. Part II, *Real World Topics*, also refers extensively to the *Guide*. Thus, the *Guide* shows student

writers how to employ scholarly writing practices as demonstrated by the readings, while the readings invite students to engage with scholarly content. “Unique and thorough, Warner’s handbook could turn any determined reader into a regular Malcolm Gladwell.”

—Booklist For anyone aiming to improve their skill as a writer, a revolutionary new approach to establishing robust writing practices inside and outside the classroom, from the author of *Why They Can’t Write* After a decade of teaching writing using the same methods he’d experienced as a student many years before, writer, editor, and educator John Warner realized he could do better. Drawing on his classroom experience and the most persuasive research in contemporary composition studies, he devised an innovative new framework: a step-by-step method that moves the student through a series of writing problems, an organic, bottom-up writing process that exposes and acculturates them to the ways writers work in the world. The

time is right for this new and groundbreaking approach. The most popular books on composition take a formalistic view, utilizing “templates” in order to mimic the sorts of rhetorical moves academics make. While this is a valuable element of a writing education, there is room for something that speaks more broadly. *The Writer’s Practice* invites students and novice writers into an intellectually engaging, active learning process that prepares them for a wider range of academic and real-world writing and allows them to become invested and engaged in their own work. *The Things in Heaven and Earth* develops and applies the American philosophical naturalist tradition of the mid-twentieth century, specifically, the work of three of the most prominent figures of what is called Columbia Naturalism: John Dewey, John Herman Randall, Jr., and Justus Buchler. The book argues for the philosophical value and usefulness of this underappreciated tradition for a number of contemporary theoretical and practical issues,

[offsite.creighton.edu](https://offsite.creighton.edu)

such as the modernist/postmodernist divide and debates over philosophical constructivism. Pragmatic naturalism offers a distinctive ontology of constitutive relations. Relying on Buchler's ordinal ontology and on the relationality implicit in Dewey's instrumentalism, the book gives a detailed account of this approach, in chapters that deal with issues in systematic ontology, epistemology, constructivism and objectivity, philosophical theology, art, democratic theory, foreign policy, education, humanism, and cosmopolitanism. Wherever we look today, popular culture greets us with "texts" that make implicit arguments; this book helps students to think and write critically about these texts. *The World Is a Text* teaches critical reading, writing, and argument in the context of pop-culture and visual examples, showing students how to "read" everyday objects and visual texts with basic semiotics. The book shows how texts of all kinds, from a painting to a university building to a pair

of sneakers, make complex arguments through their use of signs and symbols, and shows students how to make these arguments in their own essays. This new edition is rich with images, real-world examples, writing and discussion prompts, and examples of academic and student writing. The first part of the book is a rhetoric covering argumentation, research, the writing process, and adapting from high-school to college writing, while the second part explores writing about specific cultural topics. Notes, instruction, and advice about research are woven into the text, with research instruction closely tied to the topic being discussed. New to the updated compact edition are chapters on fashion, sports, and nature and the environment. 2024-25 UPPSC Mains Descriptive Solved Papers General Hindi, Essay and General Studies 352 695 E. This book contains previous years solved papers from 2018 to 2023. "Pemberton's beautifully told story is a rags to riches journey—beginning in a place and with a

jarring set of experiences that could have destroyed his life. But Steve’s refusal to give in to those forces, and his resolve to create a better life, shows a courage and resilience that is an example for many of us to follow.” —Stedman Graham, author, educator Home is the place where our life stories begin. A Chance in the World is the astonishing true story of a boy destined to become a man of resilience determination and vision. Down in the dank basement, amidst my moldy, hoarded food and beloved worm-eaten books, I dreamed that my real home, the place where my story had begun, was out there somewhere, and one day I was going to find it. Taken from his mother at age three, Steve Klakowicz lives a terrifying existence. Caught in the clutches of a cruel foster family and subjected to constant abuse, Steve finds his only refuge in a box of books given to him by a kind stranger. In these books, he discovers new worlds he can only imagine and begins to hope that one day he might have a

different life, that one day he will find his true home. A fair-complexioned boy with blue eyes, a curly Afro, and a Polish last name, he is determined to unravel the mystery of his origins and find his birth family. Armed with just a single clue, Steve embarks on an extraordinary quest for his identity, only to find that nothing is as it appears. Through it all, Steve’s story teaches us that no matter how broken our past, no matter how great our misfortunes, we have it in us to create a new beginning and to build a place where love awaits. In her second compilation of published writing, Brianna Wiest explores pursuing purpose over passion, embracing negative thinking, seeing the wisdom in daily routine, and becoming aware of the cognitive biases that are creating the way you see your life. This book contains never before seen pieces as well as some of Brianna's most popular essays, all of which just might leave you thinking: this idea changed my life. George Orwell set out ‘to make political writing into an

art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While *1984* and *Animal Farm* are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *Why I Write*, the first in the *Orwell's Essays* series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' – 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' – and considers the importance of keeping these in balance. *Why I Write* is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to

consider the rest of the great writer's oeuvre. 'A writer who can – and must – be rediscovered with every age.' — *Irish Times Academic Writing, Real World Topics* fills a void in the writing-across-the-curriculum textbook market. It draws together articles and essays of actual academic prose as opposed to journalism; it arranges material by topic instead of by discipline or academic division; and it approaches topics from multiple disciplinary and critical perspectives. With extensive introductions, rhetorical instruction, and suggested additional resources accompanying each chapter, *Academic Writing, Real World Topics* introduces students to the kinds of research and writing that they will be expected to undertake throughout their college careers and beyond. This concise edition provides all the features of the complete edition in a more compact and affordable format. Key Features: - Contemporary, cutting-edge readings on relevant topics - Extensive cross-referencing

between the rhetoric and the reader to help students make connections - Full-length essays rather than excerpts - Chapter introductions that put readings in context and promote interdisciplinary connections - Sample student essays to demonstrate student contribution - "As You Read" guides to each chapter that encourage readers to locate points of contact among readings - Questions after each reading that enable comprehension, help students identify rhetorical moves, and prompt oral and written response "Baker's second nonfiction collection, ranges over the map of life to examine what troubles us, what eases our pain, and what brings us joy. Baker moves from political controversy to the intimacy of his own life, from forgotten heroes of pacifism to airplane wings, telephones, paper mills, David Remnick, Joseph Pulitzer, the "OED," and the manufacture of the Venetian gondola. He writes about kite string and about the moment he met his wife, and he surveys our fascination with

[offsite.creighton.edu](http://offsite.creighton.edu)

video games while attempting to beat his teenage son at "Modern Warfare 2." In a celebrated essay on Wikipedia, Baker describes his efforts to stem the tide of encyclopedic deletionism; in another, he charts the rise of e-readers; in a third he chronicles his Freedom of Information lawsuit against the San Francisco Public Library."--Provided by publisher. #1 NEW YORK TIMES BESTSELLER • NATIONAL BOOK AWARD WINNER • NAMED ONE OF TIME'S TEN BEST NONFICTION BOOKS OF THE DECADE • PULITZER PRIZE FINALIST • NATIONAL BOOK CRITICS CIRCLE AWARD FINALIST • ONE OF OPRAH'S "BOOKS THAT HELP ME THROUGH" • NOW AN HBO ORIGINAL SPECIAL EVENT Hailed by Toni Morrison as "required reading," a bold and personal literary exploration of America's racial history by "the most important essayist in a generation and a writer who changed the national political conversation about race" (Rolling Stone) NAMED ONE OF THE MOST

INFLUENTIAL BOOKS OF THE DECADE BY CNN • NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY The New York Times Book Review • O: The Oprah Magazine • The Washington Post • People • Entertainment Weekly • Vogue • Los Angeles Times • San Francisco Chronicle • Chicago Tribune • New York • Newsday • Library Journal • Publishers Weekly In a profound work that pivots from the biggest questions about American history and ideals to the most intimate concerns of a father for his son, Ta-Nehisi Coates offers a powerful new framework for understanding our nation's history and current crisis. Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a

way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward. Library Committee: Timothy Dwight ... Richard Henry Stoddard, Arthur Richmond Marsh, A.B. [and others] ... Illustrated with nearly two hundred photogravures,

[offsite.creighton.edu](http://offsite.creighton.edu)

etchings, colored plates and full page portraits of great authors. Clarence Cook, art editor. With its focus on the social sciences, sciences, and the humanities, this thematically-arranged reader is suitable for any writing-across-the-curriculum approach to freshman composition, interdisciplinary core course, or freshman seminar. Since the end of the Cold War the world has become a different and increasingly volatile place, where our lives are ever more intertwined with the lives of others around the globe; a world of rising terrorism, of clashing cultures and religions, of expanding multinational corporations, of economic volatility, environmental damage and much, much more. These changes have brought rise to problems that we can no longer push aside. A new generation of international students, brought together by arguably the top two international student conferences in the world, the ISC-Symposium and the World Business Dialogue, seek to spark discourse and action, to confront

and address these problems. In *The World through Our Eyes*, students voice their concerns and pose potential solutions. A 'world's eye view' from an insider's perspective, these unique viewpoints range from an essay on Swiss banking by a Swiss banker, to a history of women in India by an Indian woman, to poverty in Kenya by a Kenyan national. An urgent and illuminating portrait of forest migration, and of the people studying the forests of the past, protecting the forests of the present, and planting the forests of the future. Forests are restless. Any time a tree dies or a new one sprouts, the forest that includes it has shifted. When new trees sprout in the same direction, the whole forest begins to migrate, sometimes at astonishing rates. Today, however, an array of obstacles—humans felling trees by the billions, invasive pests transported through global trade—threaten to overwhelm these vital movements. Worst of all, the climate is changing faster than ever before, and forests are

struggling to keep up. A deft blend of science reporting and travel writing, *The Journeys of Trees* explores the evolving movements of forests by focusing on five trees: giant sequoia, ash, black spruce, Florida torreya, and Monterey pine. Journalist Zach St. George visits these trees in forests across continents, finding sequoias losing their needles in California, fossil records showing the paths of ancient forests in Alaska, domesticated pines in New Zealand, and tender new sprouts of blight-resistant American chestnuts in New Hampshire. Everywhere he goes, St. George meets lively people on conservation's front lines, from an ecologist studying droughts to an evolutionary evangelist with plans to save a dying species. He treks through the woods with activists, biologists, and foresters, each with their own role to play in the fight for the uncertain future of our environment. An eye-opening investigation into forest migration past and present, *The Journeys of Trees* examines how we can all help our trees,

[offsite.creighton.edu](https://www.creighton.edu/offsite)

and our planet, survive and thrive. Welcome to New London. Everybody is happy here. Our perfect society achieved peace and stability through the prohibition of monogamy, privacy, money, family and history itself. Now everyone belongs. You can be happy too. All you need to do is take your Soma pills. Discover the brave new world of Aldous Huxley's classic novel, written in 1932, which prophesied a society which expects maximum pleasure and accepts complete surveillance - no matter what the cost. "This eBook features 501 sample writing prompts that are designed to help you improve your writing and gain the necessary writing skills needed to ace essay exams. Build your essay-writing confidence fast with 501 Writing Prompts!" -- An easy-to-use field guide for teaching on climate injustice and building resilience in your students--and yourself--in an age of crisis. As feelings of eco-grief and climate anxiety grow, educators are grappling with how to help students learn about the violent systems

causing climate change while simultaneously navigating the emotions this knowledge elicits. This book provides resources for developing emotional and existential tenacity in college classrooms so that students can stay engaged. Featuring insights from scholars, educators, activists, artists, game designers, and others who are integrating emotional wisdom into climate justice education, this user-friendly guide offers a robust menu of interdisciplinary, plug-and-play teaching strategies, lesson plans, and activities to support student transformation and build resilience. The book also includes reflections from students who have taken classes that incorporate their emotions in the curricula. Galvanizing and practical, *The Existential Toolkit for Climate Justice Educators* will equip both educators and their students with tools for advancing climate justice. A penetrating take on how our planet would respond without the relentless pressure of the human presence
