Textual Power Dec 30 2023 "Robert Scholes has written an enviable book on the uses and abuses of literary theory in the teaching of literature. One of [his] most forceful points...is that 'literary theory' is not something a teacher may either 'use' or not use, for teaching itself is an unavoidably theoretical activity."--Gerald Graff, Novel "Scholes' emphasis in Textual Power is indicated by the book's subtitle. After a provocative analysis of disciplinary values and departmental tendencies...[he] proposes that 'we must stop "teaching literature" and start studying texts'...His book is essential for college libraries."--R.C. Gebhardt, Choice "There is no issue more current, more relevant to the present scene, than the problem of pedagogy and its relation to contemporary theory. Textual Power is an important, provocative, and above all useful contribution to this discussion."--Gregory L. Ulmer Robert Scholes, author of Structuralism in Literature and Semiotics and Interpretation among other books, is Alumni-Alumnae University Professor of English and Comparative Literature at Brown University.

Once Upon A Time in the East Nov 04 2021 *Winner of the National Book Critics Circle Award* *Shortlisted for the Costa Biography Award* *Shortlisted for the Jhalak Prize* *Shortlisted for the Rathbones Folio Prize 2018* *A Sunday Times Book of the Year* Xiaolu Guo meets her parents for the first time when she is almost seven. They are strangers to her. When she is born in 1973, her parents hand her over to a childless peasant couple in the mountains. Aged two, and suffering from malnutrition on a diet of yam leaves, they leave Xiaolu with her illiterate grandparents in a fishing village on the East China Sea. Once Upon a Time in the East takes Xiaolu from a run-down shack to film school in a rapidly changing Beijing, navigating the everyday peculiarity of modern China: censorship, underground art, Western boyfriends. In 2002 she leaves Beijing on a scholarship to study in Britain. Now, after a decade in Europe, her tale of East to West resonates with the insight that can only come from someone who is both an outsider and at home. 'This generation's Wild Swans' Daily Telegraph

Bad Boy Aug 14 2022 A classic memoir that's gripping, funny, and ultimately unforgettable from the bestselling former National Ambassador of Books for Young People. A strong choice for summer reading—an engaging and powerful autobiographical exploration of growing up a so-called "bad boy" in Harlem in the 1940s. As a boy, Myers was quick-tempered and physically strong, always ready for a fight. He also read voraciously—he would check out books from the library and carry them home, hidden in brown paper bags in order to avoid other boys' teasing. He aspired to be a writer (and he eventually succeeded). But as his hope for a successful future diminished, the values he had been taught at home, in school, and in his community seemed worthless, and he turned to the streets and to his books for comfort. Don't miss this memoir by New York Times bestselling author Walter Dean Myers, one of the most important voices of our time.

Student Learning Communities Apr 29 2021 Student learning communities (SLCs) are more than just a different way of doing group work. Like the professional learning communities they resemble, SLCs provide students with a structured way to solve problems, share insight, and help one another continually develop new skills and expertise. With the right planning and support, dynamic collaborative learning can thrive everywhere. In this book, educators

Douglas Fisher, Nancy Frey, and John Almarode explain how to create and sustain student learning communities by - Designing group experiences and tasks that encourage dialogue; - Fostering the relational conditions that advance academic, social, and emotional development; - Providing explicit instruction on goal setting and opportunities to practice progress monitoring; - Using thoughtful teaming practices to build cognitive, metacognitive, and emotional regulation skills; - Teaching students to seek, give, and receive feedback that amplifies their own and others' learning; and - Developing the specific leadership skills and strategies that promote individual and group success. Examples from face-to-face and virtual K-12 classrooms help to illustrate what SLCs are, and teacher voices testify to what they can achieve. No more hoping the group work you're assigning will be good enough—or that collaboration will be its own reward. No more crossing your fingers for productive outcomes or struggling to keep order, assess individual student contributions, and ensure fairness. Student Learning Communities shows you how to equip your students with what they need to learn in a way that is truly collective, makes them smarter together than they would be alone, creates a more positive classroom culture, and enables continuous academic and social-emotional growth.

Springboard Jan 19 2023 Everyone knows that you are supposed to "follow your dream." But where is the road map to help you discover what that dream is? You have just found it. In *Springboard*, award-winning author and teacher G. Richard Shell helps you find your future. His advice: Take an honest look inside and then answer two questions: What, for me, is success? How will I achieve it? You will begin by assessing your current beliefs about success, including the hidden influences of family, media, and culture. These are where the pressures to live "someone else's life" come from. Once you gain perspective on these outside forces, you will be ready to look inside at your unique combination of passions and capabilities. The goal: to focus more on what gives meaning and excitement to your life and less on what you are "supposed" to want. Drawing on his decades of research, Shell offers personalized assessments to help you probe your past, imagine your future, and measure your strengths. He then combines these with the latest scientific insights on everything from self-confidence and happiness to relationships and careers. Throughout, he shares inspiring examples of people who found what they were meant to do by embracing their own true measure of success. Eric Adler: one of Shell's former students who walked away from a conventional business career to help launch a revolutionary new concept in public education that has placed hundreds of inner-city high school students in top colleges. Kurt Timken: a Harvard-educated son of a Fortune 500 CEO who found his true calling as a hard-charging police officer fighting drug lords in southern California. Cynthia Stafford: an office worker who became one of her community's leading promoters of theater and the arts. Get ready for the journey of a lifetime—one that will help you reevaluate your future and envision success on your own terms. Students and executives say that Richard Shell's courses have changed their lives. Let this book change yours.
