NAMED A BOOK OF THE YEAR BY THE ECONOMIST AND ONE OF THE BEST BOOKS OF 2021 BY THE TIMES AND THE SUNDAY TIMES "Irreversible Damage . . . has caused a storm. Abigail Shrier, a Wall Street Journal writer, does something

simple yet devastating: she rigorously lays out the facts." —Janice Turner, *The Times of London* Until just a few years ago, gender dysphoria—severe discomfort in one's biological sex—was vanishingly rare. It was typically found in less than .01 percent of the population, emerged in early childhood, and afflicted males almost exclusively. But today whole groups of female friends in colleges, high schools, and even middle schools across the country are coming out as "transgender." These are girls who had never experienced any discomfort in their biological sex until they heard a coming-out story from a speaker at a school assembly or discovered the internet community of trans "influencers." Unsuspecting parents are awakening to find their daughters in thrall to hip trans YouTube stars and "gender-affirming" educators and therapists who push life-changing interventions on young girls—including medically unnecessary double mastectomies and puberty blockers that can cause permanent infertility. Abigail Shrier, a writer for the *Wall Street Journal*, has dug deep into the trans epidemic, talking to the girls, their agonized parents, and the counselors and doctors who enable gender transitions, as well as to "detransitioners"—young women who bitterly regret what they have done to themselves. Coming out as transgender immediately boosts these girls' social status, Shrier finds, but once they take the first steps of transition, it is not easy to walk back. She offers urgently needed advice about how parents can protect their daughters. A generation of girls is at risk. Abigail Shrier's essential book will help you understand what the trans craze is and how you can inoculate your child against it—or how to retrieve her from this dangerous path.

Wife of one president and mother of another, Abigail Adams was an extraordinary woman living at an extraordinary time in American history. A tireless letter writer and diarist, her penetrating and often caustic impressions of most of the major persons of her day—including Ben Franklin, George and Martha Washington, Thomas Jefferson, Alexander Hamilton, and King George III, among others—provide one of the best first-hand accounts of the American Revolution. This biography, researched and written over a fourteen-year period, is a fascinating portrait of a brilliant woman at the center of the founding of the American republic. When by-the-book meets off-the-record, the story's just starting . . . Special Agent Ty Grady is pretty sure he's about to get fired. His last perp skipped town before he could make an arrest, leaving him with a lot of means and precious few ends. When he's called into the boss's office, he expects the worst. And he isn't exactly wrong. Chained to a desk in cybercrimes, Special Agent Zane Garrett dots his i's and crosses his t's. He doesn't have much of a choice in the matter—his record can't handle another black mark. When he learns he's getting reassigned, he doesn't miss the ironic pronunciation on "promotion." Wherever he's going, it's nowhere good. When they're partnered to solve a series of murders, their chances of success look low. They're fantastic agents, but the case seems more like a punishment than an assignment. They can't stop driving each other crazy. . . and not just in a bad way. This killer already took out the previous agents assigned to the case, and it's not long before he's on Ty and Zane's trail, as well. They'll have to set their frustrations aside, before it's too late. *This is a limited re-release of the original series, without changes. Some aspects of the story are now dated, and an updated version will be published at a later date.* ?**See this title's page on RiptidePublishing.com for content warnings.** Cut & Run Series Book Three: Sequel to *Sticks & Stones* Special Agents Ty Grady and Zane Garrett are back on the job, settled into a personal and professional relationship built on fierce protectiveness and blistering passion. Now they're assigned

to impersonate two members of an international smuggling ring—an out-and-proud married couple—on a Christmas cruise in the Caribbean. As their boss says, surely they'd rather kiss each other than be shot at, and he has no idea how right he is. Portraying the wealthy criminals requires a particular change in attitude from Ty and Zane while dealing with the frustrating waiting game of their assignment. As it begins to affect how they treat each other in private, Ty and Zane realize there's more to being partners than watching each other's backs, and when the case takes an unexpected turn and threatens Ty's life, Ty and Zane will have to navigate seas of white lies and stormy secrets, including some of their own.

From a nationally recognized expert, a fresh and original argument for bettering affirmative action Race-based affirmative action had been declining as a factor in university admissions even before the recent spate of related cases arrived at the Supreme Court. Since Ward Connerly kickstarted a state-by-state political mobilization against affirmative action in the mid-1990s, the percentage of four-year public colleges that consider racial or ethnic status in admissions has fallen from 60 percent to 35 percent. Only 45 percent of private colleges still explicitly consider race, with elite schools more likely to do so, although they too have retreated. For law professor and civil rights activist Sheryll Cashin, this isn't entirely bad news, because as she argues, affirmative action as currently practiced does little to help disadvantaged people. The truly disadvantaged—black and brown children trapped in high-poverty environs—are not getting the quality schooling they need in part because backlash and wedge politics undermine any possibility for common-sense public policies. Using place instead of race in diversity programming, she writes, will better amend the structural disadvantages endured by many children of color, while enhancing the possibility that we might one day move past the racial resentment that affirmative action engenders. In *Place, Not Race*, Cashin reimagines affirmative action and champions place-based policies, arguing that college applicants who have thrived despite exposure to neighborhood or school poverty are deserving of special consideration. Those blessed to have come of age in poverty-free havens are not. Sixty years since the historic decision, we're undoubtedly far from meeting the promise of *Brown v. Board of Education*, but Cashin offers a new framework for true inclusion for the millions of children who live separate and unequal lives. Her proposals include making standardized tests optional, replacing merit-based financial aid with need-based financial aid, and recruiting high-achieving students from overlooked places, among other steps that encourage cross-racial alliances and social mobility. A call for action toward the long overdue promise of equality, *Place, Not Race* persuasively shows how the social costs of racial preferences actually outweigh any of the marginal benefits when effective race-neutral alternatives are available. “I have long believed that women who dream big, work hard, and get back up after they get knocked down can do anything; Stephanie Schriock is one of those women. I'm so glad her thoughtful guidance is now available for women everywhere.”—Hillary Rodham Clinton “Stephanie Schriock leads the leaders.”—Michelle Lujan Grisham, governor of New Mexico “Run to Win is an antidote to anxiety and a welcome call to action. I encourage every woman (and a few good men) to dive into Run to Win and take your turn at saving the world.”—Stacey Abrams From the president of EMILY's List, a playbook for women changing the world in politics, business, or any arena, with a foreword from Vice President Elect Kamala Harris. For the past thirty-five years EMILY's List has helped the campaigns of thousands of pro-choice Democratic women, but the

hardest part has always been convincing more women to run. Then Donald Trump was elected, and something shifted into place. American women who were furious and frustrated were looking for a way to channel their outrage into action, united in proclaiming, "If that guy can get elected, why not me?" The day after the 2016 election, dozens of women searched out an old sign-up link buried on the EMILY's List website. By Thanksgiving, those dozens had grown to a few thousand. And that was only the beginning. By the end of 2018, there were nearly fifty thousand women signed up to run for office, with scores more signing up each day. Run to Win is for all women who are looking to lead. Organized around the steps that EMILY's List coaches its candidates through (from deciding to run through celebrating victory), this book is full of essential lessons for any woman trying to succeed in a male-dominated field. Their arena is politics but their message is universal. And Stephanie Schriock is the most qualified person to share these lessons. Not only is she a powerful figure in politics but she's also a woman who commands respect for her astounding success as president of EMILY's List and a longtime Democratic operative. Her message is uplifting and actionable, her voice is that of your best girlfriend walking you through what you need to consider as you make your plan, and her experience coaching the biggest female candidates in recent elections (including all of the female 2020 Democratic presidential candidates) makes her the de facto authority on the strategies women can employ to run, fight, and win, whatever their field or goal. Many girls want to become scientists when they grow up, just like many boys do. But for these girls, the struggle to do what they love and to be treated with respect has been much harder because of the discrimination and bias in our society. In *Women in Microbiology*, we meet women who, despite these obstacles and against tough odds, have become scientific leaders and revered mentors. The women profiled in this collection range from historic figures like Alice Catherine Evans and Ruth Ella Moore to modern heroes like Michele Swanson and Katrina Forest. What binds all of these remarkable women are a passion for their work, a zest for life, a warm devotion to mentoring others—especially younger women—and a sense of justice and fairness that they are willing to fight tirelessly to obtain. Each story is unique, but each woman featured in *Women in Microbiology* has done so much to expand our knowledge of the natural world while also making it easier for the next generation of scientists to work collaboratively and in an atmosphere where people are judged by their intellect, imagination, skill, and commitment to service regardless of gender or race. *Women in Microbiology* is a wonderful collection of stories that will inspire everyone, but especially young women and men who are wondering how to find their way in the working world. Some of the names are familiar and some are lesser known, but all of the stories arouse a sense of excitement, driven by tales of new, important scientific insights, stories of overcoming adversity and breaking boundaries, and the inclusion of personal tips and advice from successful careers. These stories are proof that a person can live a balanced and passionate life in science that is rich and rewarding. Reprint of the original, first published in 1882. Gli agenti speciali Ty Grady e Zane Garrett sono tornati a lavorare sul campo, e hanno costruito un rapporto personale e professionale basato su un forte senso di protezione e una passione infuocata. Vengo incaricati di assumere le identità di due membri di un giro di contrabbando internazionale – una coppia gay sposata – a bordo di una nave durante una crociera natalizia ai Caraibi. Come dice il loro capo, senza sapere quanto abbia ragione, di certo preferiranno baciarsi che farsi sparare addosso. Impersonare i ricchi criminali richiede a entrambi un certo cambiamento nel loro modo di fare, e attendere lo svolgersi degli eventi diventa sempre più deprimente. Non appena ciò inizia a influenzare il loro rapporto personale, Ty e Zane si rendono conto che essere partner significa molto più che guardarsi le spalle l'un l'altro, e quando il caso prende una piega inaspettata e mette in pericolo la vita di Ty, i due dovranno navigare e destreggiarsi in un mare di bugie innocenti e segreti burrascosi, alcuni dei quali piuttosto personali.

As the situation in Israel/Palestine seems to become ever more intractable and protracted, the need for new ways of looking at recent developments and their historical roots is more pressing than ever. Bearing this in mind, Yasmeen Abu-Laban and Abigail B. Bakan discuss the historic and contemporary dynamics in Israel/Palestine, and their international reverberations, from the unique vantage point of 'race', racialization, racism and anti-racism. They therefore offer close analysis of the 'idea' of Israel and the 'absence' of Palestine by examining the concepts of race and identity in the region. With fresh coverage of themes relating to gender, Idigeneity, the environment, surveillance and the war on terror, Israel, Palestine and the Politics of Race will appeal to scholars in political science, sociology and Middle East studies. Ten years after graduation, Jake "the jock" Campbell and Brandon "the nerd" Bartlett are teaching at their old high school. High school is all about image, even for the teachers, and the two have to get past their preconceived notions to find the friendship needed to work together. (Adult Fiction) This extraordinary compilation, first published to commemorate the 200th anniversary of Hopewell [Friends] Monthly Meeting in 1934, is divided into two parts. The historical section is a broad survey of Hopewell Meeting from its origins nine years before the creation of Frederick County. Of far greater importance to genealogists, the documentary section encompasses 200 years of Quaker records: births, marriages, deaths, removals, disownments, and reinstatements, a good many of which cannot be found in public record offices. (For example, Virginia counties were not required to report to the state until 1825.) The vital records themselves have been supplemented by rare documents, letters, diaries, and other private records. Many thousands of individuals are identified in these records, the index to which runs 225 pages and contains thousands of entries.

Abby has asthma, but that doesn't stop her from wanting to run in the big race. Although she is pretty fast, sometimes she may cough or wheeze and have an asthma attack. Jason, a boy in her class, teases her about her asthma and suggests she enter the pie-eating contest instead. But Abby is determined not only to run in the race, but to win it as well. With her doctor's approval and recommendations, she exercises every day with her father, takes her medicine, and does her breathing exercises in anticipation of the big day. When that day arrives, Abby is ready. Will she beat Jason to the finish line? A note about exercising with asthma appears at the end of the book.

Kaminski, who adds dimension to the historic dramas of revolution and nation-making. Unlike traditional biographies, these chapbooks emphasize the character, mannerisms, and physical appearance of the subjects as they were known to their contemporaries. In a unique way, the illuminating vignettes and "behind-the-curtain" glimpses of both well-known and obscure events provide a new perspective on the Founding generation. Do you need to do better on the SAT? The comprehensive material in this book, honed by years of actual results, can help you significantly improve your composite score. No gimmicks, just time-tested techniques that were previously available only to students of The World's Best Prep Course, Inc. Put them to work for you and achieve

the score you need to get into the college of your choice! Finally, runners at all levels can improve their race times while training less, with the revolutionary Furman Institute of Running and Scientific Training (FIRST) program. Hailed by the Wall Street Journal and featured twice in six months in cover stories in Runner's World magazine, FIRST's unique training philosophy makes running easier and more accessible, limits overtraining and burnout, and substantially cuts the risk of injury, while producing faster race times. The key feature is the "3 plus 2" program, which each week consists of: -3 quality runs, including track repeats, the tempo run, and the long run, which are designed to work together to improve endurance, lactate-threshold running pace, and leg speed -2 aerobic cross-training workouts, such as swimming, rowing, or pedaling a stationary bike, which are designed to improve endurance while helping to avoid burnout With detailed training plans for 5K, 10K, half marathon, and marathon, plus tips for goal-setting, rest, recovery, injury rehab and prevention, strength training, and nutrition, this program will change the way runners think about and train for competitive races. Amby Burfoot, Runner's World executive editor and Boston Marathon winner, calls the FIRST training program "the most detailed, well-organized, and scientific training program for runners that I have ever seen." From the host of MSNBC's The Last Word with Lawrence O'Donnell, an important and enthralling new account of the presidential election that changed everything, the race that created American politics as we know it today The 1968 U.S. Presidential election was the young Lawrence O'Donnell's political awakening, and in the decades since it has remained one of his abiding fascinations. For years he has deployed one of America's shrewdest political minds to understanding its dynamics, not just because it is fascinating in itself, but because in it is contained the essence of what makes America different, and how we got to where we are now. Playing With Fire represents O'Donnell's master class in American electioneering, embedded in the epic human drama of a system, and a country, coming apart at the seams in real time. Nothing went according to the script. LBJ was confident he'd dispatch with Nixon, the GOP frontrunner; Johnson's greatest fear and real nemesis was RFK. But Kennedy and his team, despite their loathing of the president, weren't prepared to challenge their own party's incumbent. Then, out of nowhere, Eugene McCarthy shocked everyone with his disloyalty and threw his hat in the ring to run against the president and the Vietnam War. A revolution seemed to be taking place, and LBJ, humiliated and bitter, began to look mortal. Then RFK leapt in, LBJ dropped out, and all hell broke loose. Two assassinations and a week of bloody riots in Chicago around the Democratic Convention later, and the old Democratic Party was a smoldering ruin, and, in the last triumph of old machine politics, Hubert Humphrey stood alone in the wreckage. Suddenly Nixon was the frontrunner, having masterfully maintained a smooth façade behind which he feverishly held his party's right and left wings in the fold, through a succession of ruthless maneuvers to see off George Romney, Nelson Rockefeller, Ronald Reagan, and the great outside threat to his new Southern Strategy, the arch-segregationist George Wallace. But then, amazingly, Humphrey began to close, and so, in late October, Nixon pulled off one of the greatest dirty tricks in American political history, an act that may well meet the statutory definition of treason. The tone was set for Watergate and all else that was to follow, all the way through to today. Playing With Fire is the perfect holiday gift! In order to survive in the wilderness, they'll have to survive each other. After the case they just closed, it's unsurprising FBI Special Agents Ty Grady and

Zane Garrett are having trouble passing their psych evaluations. The only thing worse than a near-death experience is trying to lie to a shrink about it. And the only thing worse than that is being stuck on desk duty after failing. The two of them are soon ordered to take a vacation, before their exasperated coworkers finish what the serial killer started. Hoping to bolster their partnership—in every sense of the word—Ty invites Zane to visit his family in West Virginia, and Zane accepts. The mountains can't be that different from Texas, right? Snakes are snakes. When they join Ty's father and brother for a hike deep into the woods, the Grady family's dysfunction quickly becomes the least of their worries. The weather is bad, the wildlife is bloodthirsty, and their fellow hikers are ready to break out the banjos. Zane and Ty still have each other, but whether that will make the trip—or break it—remains to be seen. *This is a limited re-release of the original series, without changes.
