Light Science Thomas D. Rossing, Christopher J. Chiaverina, 2020-01-03 Intended for students in the visual arts and for others with an interest in art but with no prior knowledge of physics this book presents the science behind what and how we see The approach emphasises phenomena rather than mathematical theories and the joy of discovery rather than the drudgery of derivations The text includes

numerous problems and suggestions for simple experiments and also considers such questions as why the sky is blue how mirrors and prisms affect the colour of light how compact disks work and what visual illusions can tell us about the nature of perception It goes on to discuss such topics as the optics of the eye and camera the different sources of light photography and holography colour in printing and painting as well as computer imaging and processing

Neotropical Hard Ticks (Acari: Ixodida: Ixodidae) Alberto A. Guglielmone, Santiago Nava, Richard G. Robbins, 2021-07-29 Of the 758 species of hard ticks family Ixodidae currently known to science 137 18% are found in the Neotropical Zoogeographic Region an area that extends from the eastern and western flanks of the Mexican Plateau southward to southern Argentina and Chile and that also includes the Greater and Lesser Antilles and the Gal pagos Islands This vast and biotically rich region has long attracted natural scientists with the result that the literature on Neotropical ticks which are second only to mosquitoes as vectors of human disease and are of paramount veterinary importance is enormous diffuse and often inaccessible to non specialists In this book three leading authorities on the Ixodidae have combined their talents to produce a summary of essential information for every Neotropical tick species Under each species name readers will find an account of the original taxonomic description and subsequent redescriptions followed by an overview of its geographic distribution and host relationships including a discussion of human parasitism Additional sections provide detailed analyses of tick distribution by country and zoogeographic subregion the Caribbean southern Mexico and Central America South America and the Gal pagos Islands together with a review of the phenomenon of invasive tick species and examination of the many valid and invalid names that have appeared in the Neotropical tick literature The text concludes with an unprecedented tabulation of all known hosts of Neotropical Ixodidae including the tick life history stages collected from each host This book is an invaluable reference for biologists and biomedical personnel seeking to familiarize themselves with the Neotropical tick fauna
