year old Rebecca Barlow drops her son off at her parents home promising to return by five. Five comes and goes. Then six. Then seven. Worried Rebecca's parents try calling. There is no answer. They call her friends. They haven't heard from her either. It seems no one has. As concern for Rebecca heightens, her father drives to their lake house, a place where Rebecca has been staying. Her car is spotted in the driveway. Inside the house, her purse has been left on the kitchen table. But Rebecca is nowhere in sight. The following morning, Rebecca's naked body is found floating in the lake, and questions abound: Did she drown by accident, or is something far more sinister behind the cause of her death?

*The Silent Boy* Cheryl Bradshaw, Janet Fix, 2021-07-30. Private Investigator Sloane Monroe is about to face the most challenging case of her life, and this time it hits a little too close to home. In the dirty hallway of a local tavern, six-year-old Louie Alvarez plays with his race cars, waiting for his mother to take him home. A scream rips through the air. Louie freezes, then turns, staring at the room at the end of the hallway where the sound had come from. His mom was in that room. Louie inches toward the door and peeks through the crack. Inside, his mother begs for her life, but it's far too late. Her fate has already been sealed. As a gunshot sounds off, a terrified Louie drops his race cars. In an instant, all eyes are on him, and there's only one thing he can do now: run. *The Silent Boy* is the first book in the Sloane Monroe spinoff series *Sloane and Maddie: Peril Awaits*, written by New York Times 11-time USA Today bestselling author Cheryl Bradshaw and longtime editor Janet Fix. Together, they've created a pulse-pounding, page-turning mystery series you'll love. Grab your copy today and get swept up in a twisty tale of secrets and lies that will have you up reading all night.

*Golden Gulag* Ruth Wilson Gilmore, 2007-01-08. Since 1980, the number of people in U.S. prisons has increased more than 450%. Despite a crime rate that has been falling steadily for decades, California has led the way in this explosion, with what a state analyst called the biggest prison building project in the history of the world. *Golden Gulag* provides the first detailed explanation for that buildup by looking at how political and economic forces ranging from global to local conjoined to produce the prison boom. In an informed and impassioned account, Ruth Wilson Gilmore examines this issue through statewide rural and urban perspectives to explain how the expansion developed from surpluses of finance, capital, labor, land, and state capacity. Detailing crises that hit California's economy with particular ferocity, she argues that defeats of radical struggles, weakening of labor, and shifting patterns of capital investment have been key conditions for prison growth. The results: a vast and expensive prison system, a huge number of incarcerated young people of color, and the increase in punitive justice, such as the three strikes law, pose profound and troubling questions for the future of California, the United States, and the world. *Golden Gulag* provides a rich context for this complex dilemma and at the same time challenges many cherished assumptions about who benefits and who suffers from the state's commitment to prison expansion.
